Dear General,

I enquired for
your man, and learning
that he was in Hospital,
stopped there this after-
noon while making my
rounds as officer of the
day.

I found him asleep
in his bed - and was

informed by the Stewards
that he was suffering
with a bilious attack,
not very sick, and
would probably be out
of Hospital in a day
or two -

Sincerely Yrs

My Dear General,

In forwarding the
enclosed letter written to you by Mrs Harland, I
beg leave to state

That this letter refers to her brother, Otis
Smith, late First Sqr. Co D. 8th Michigan
Infy. Vols. whose Invalid Pension Case N^o 74,795
is now under consideration upon his applica-
tion for an increased rate - of something more
than the present rate of \$8 per month -

That said Pensioner Otis Smith now
resides at Escondido, in this County - That
I have visited him, and made personal
enquiry and examination as to his con-
dition and needs -

He not only suffers from the effects of wounds,
but is in addition so emaciated & debilitated from
Chronic diarrhoea as to require the constant presence
and help of an attendant. His real rank

was that of Lieutenant, & I have advised
him to amend his application to conform to
the fact.

File. This case is certainly one that calls
for immediate action in the way of an
Order for an Examination for Increased Rate

And as this is all that this old
Soldier asks for (an immediate Examination)
I feel the more at liberty to ask that you
will kindly forward this letter, with its en-
closures, backed by a few words from yourself,
to the Commissioner of Pensions

I have the honor to be General

Sir:

In the Journal of this Institution, for July, appears an article entitled "Mobilization." The tenor of this paper and of recent articles in the public press, convey an impression that the operation of concentrating troops in New York, for the Centennial Parade, was entirely successful and may serve as a model for a scheme of mobilization in time of War. The criticism has been made however, that such publications do harm by omitting to notice faults as well as the commendable features of a military movement. It is claimed that by too flattering comment the public is lulled into a false sense of security, hitherto the most serious obstacle in the way of providing for the National Defense.

With the view of deriving the utmost profit, as a professional study, from the history of this military operation the Publication Committee invites your remarks under the following and such other heads as may occur to you:

1. Give designation and station of your command.
2. When was the earliest reliable information of the contemplated movement received at your Headquarters.

Dear Sir,

I was very agreeably surprised to receive so kind a letter from you, one who I supposed would send me the information I desired and care not what ever came of it.

I took your gentle rebuke to heart and told my parents I was thinking of a military life and took their advice & am going to school two more years at when I will graduate and be 18 years old leaving me time still to do whatever I desire.

I have given up the Army
for the present but have
a friend who desires to know
what are the requirements
to get in the Army.

He says he could ^{possibly} not stand
the examination, if he desired
to go to West Point.

He desires to know how
to get in the Army & whether
he can be sure of getting
in before he leaves here.

He says he would prefer
it to the blacksmith shop
in which he is now.

He is stout & well built and
I think would make a good
soldier.

General O. O. Howard U.S.A Governor's Island N.Y.
My dear Sir.

Your favor of June 29. is received. Although it is exceedingly complimentary to me, I am, nevertheless, very much disappointed in its tone regarding the marking of the lines of battle of the Army of Northern Virginia at Gettysburg. In fact I depended upon you for a strong letter approving the plan of completing the marking of that important field. Early in day I had received letters of the most cheering character from Ex Governor Alger of Michigan, Ex Governor Fairchild of Wisconsin, Ex Governor Connor of Maine and Major General John C. Robinson of New York. Besides these from persons of less note. Several kindly offered to use their influence to secure the passage of an appropriating bill.

I suppose, however, that I must expect adverse opinions. It has occurred to me that my circular may not have been sufficiently explicit in describing the style of marker for Confederate organizations. I desired to convey the idea that the markers were to be plain and simple for historical purposes. I have already written an open letter opposing the erection of a joint monument at

Bachelder John B.

To be dedicated

Gettysburg by the "blue and the grey," to American bravery, in which I said I would never consent to the erection of a monument at Gettysburg whose legend gave the same honor to the man who fought against the flag, as to the man that fought for it. Nevertheless, I am in favor of preserving all the details for historical purposes, not only of the battle, but of the battlefield. This can only be done by marking every important point on the field, which it can be done with correctness.

Last summer I attended the 250th anniversary of the settlement of the Town of Hampton N.H. History describes many points of interest, - old forts, Block-houses &c. But not one of them can be definitely located. Could they be, it would add greatly to the attractions of that old Summer resort. And so Gettysburg would be very-very much more interesting 250 years from now if, not only the lines of battle, but the names of commands were marked.

When I commenced my Isometrical Drawing of Gettysburg "wise men" shook their heads. I shall never forget the expression of incredulity on General Meade's countenance when I repeated at his headquarters at Brandy Station, and told him what I proposed to do. But today it is an accomplished fact; and all my friend those positions laid down, with comparative correctness. When I advocated the marking of the positions of regiments ^{by insignia}, skeptics looked at each other with a knowing wink, and said I was a "crank," because the thing had never been done. I have spent the best part of a lifetime in developing and preserving Gettysburg. The result is best shown by comparing that field with the battlefields. I now desire to "round up" a life work by completing the marking of the field; and I confidently hoped for the assistance of every Veteran of the Army of the Potomac. Very truly yours, J. B. Bachelder.

Dear Friend,

I am greatly afraid that my much writing has offended you, I dont wonder, I would not write you one word more only it really seems to me you have not in fact any just conception of all the points at issue, If you had I dont see how you could occupy the extremely conservative position you do. The understanding here is that practically you side with Patton and J. B. Johnson.

If it is a fact, as reported, that you withheld your resignation as member of the board of Trustees at J. B. Johnson's request you will understand why the Patton folks are so joyful to think they have succeeded in preventing your voting, or the selection of some new man who would vote for Dr. Rankin, and why Dr. Rankin's friends think you are practically siding with Dr. Rankin's opponents.

Your kindness in your replies to me render it necessary for me to apologise for any seeming persistency in this correspondence. I promise not to worry you further with it, and I hope you wont think any answer to this is needed, at any rate, so far as courtesy goes.

My dear Howard,

I am on which the last long. Oh, how wonderful, let him write
for some one else.
You, having written so much, my dear Howard, in
the spirit of entire frankness: will you not in the same
spirit explain to me, just the reason of your own
action. Oh, I shall never go to N. Y. without having
an explicit understanding as to your motives in the
premises: I mean, not personal, but all things considered.

380. P. L. Please return Mr. Grinke's
letter.
2nd P. L. I do not mean to imply that
I should certainly accept that position if
offered me. But, the manner in which it should
be offered, would greatly affect my decision,
J. C.

My Dear Gen. Howard:

You know it would
have been better for Flate, if he
had taken his wife's advice. I am
going to tell you what my wife says:
"Either Gen. Howard has lost all his
interest in Howard University, or he
does not want you President there."
If either is true, I think I can help
matters by withdrawing my name. On
that point, I send Mr. Grinke's
letter, to show you how the colored
people feel.

As to Dr. Patton & J. A., they to
my mind occupy the exact position

of your old friend, Rev. Dr. Rogers.
-ton. L.B. was one of the trustees,
when the colored school was re-
-moved ^{from the 1st Church}. He was Pres. of trustees,
when the trustees declined to grant
the use of the ^{the approved of both of these things} Vest Parlor for the
Primary Dept. of the same school.
This I know from one of the other
trustees. Now, if you want the policy
indicated & advocated by Dr. Rogers
to prevail there, let Dr. P. & L.B.
have their wishes, as to Pres. H. H.

I do not think either of them
has anything against me personally.
But, to them, as to the colored people,
I represent an idea. And it is
^{it is the Lord's will} your idea. I sacrificed my pride
when in the 1st Cong. Ch. because
I believed in it. I'm say, you be

there in it still. So do I.

Shedden said. I am not ambitious for that place,
- that has been said in long. I advance as long as
- as for it, I highly appreciate, but, I would not tell
you that I don't working as to who will be the author.

After 15 years of work done in Chesham as Pres.
- ton, trustee of Manuichy, member of Executive Com., Professor
of the Dept.; after my own action and I don't, as Dr. P.,
- one of the Ex. Com., if I must be urged upon the
attention of any trustee, I think he should vote for some
one else: I if it is no room membership to me, that I have

My Dear Sir:

It is my intention to apply to the
President for appointment as Surveyor
General of California, but, before doing
so I desire to ascertain just what
support I can rely upon to aid me
in my application. As I have been
continuously in the employ of the
Quartermaster's Department since 1880
I must of necessity rely to a great
extent upon Army Officers, for reference
as to my character and ability.

It is a matter of the utmost importance
to the Government to have a person,
appointed to this position who is well
acquainted with the Presidio Lines and

who can be thoroughly relied upon.

Feb. 12th there was incorporated in this city an association known as the "Obed Lehart Land Association".

Senator Hearsh was elected president.

This association has purchased the squatters claims to Presidio & will endeavour to have the south line changed to the Stratton survey line which runs from Mountain Lake to Union Street and cuts off about 106 Acres of the Presidio Reservation worth over \$2000 000.

P. J. O'Connor has applied for another grant which he claims to own. Located entirely within the Reservation.

His first grant was located on the Reservation through improper surveys I am satisfied from evidence which I am collecting & which I

expect to be able to prove.

Colonel Batchelder has supported me ⁱⁿ this matter and is very desirous of my receiving the appointment, in fact it was on his advice that I am making the application, well showing the efforts which would be used by this Association and the necessity of the Government having a person appointed to the position thoroughly acquainted with these matters. As these claimants rely to great extent upon the Surveyor General for surveys in accordance with their claims.

I have received the indorsements of Genl. Miles, Col. Batchelder, Capt. Goodall, H. L. May, Ira P. Fanklin, pres. of the Chamber of Commerce, Union Iron Works, Henry T. Scott and many others well known and

in this matter.

Dear Sir and friend

I take too much liberty in writing - asking a favor of you & trust you will pardon. You remember Mr Selfridge my husband - as he is of such a nature that he cannot ask any thing for himself - and very much I am trying with the help of my blessed master - and at the suggestion of a friend to ask for him - as there has been a change at the Mint - there will be many appointments - he has put in an application for first blacksmith - Mr Dimond or Gen Dimond the new superintendant is not acquainted with him - and the thought came to me if you could conscientiously write a letter of recommendation to Mr Dimond as to his ability as a mechanic or faithfulness to duty it might have some influence. Mr Selfridge was a faithful soldier served three years in the 22^d Michigan Infantry - enlisted as private - when our homes were threatened - when he was

discharged was First-Lieutenant and acting R. Q. Master
The army life has broken a naturally strong constitution
and now the time has come when he must give up horse-shoeing.
Of course I am very anxious - but would ask nothing
but the will of God - He has led me through many
dark and trying places - and still my feeble hands are
out-stretched - to him, my all in all - He is asleep in the
hindermost-part of my frail ship and will awaken when
I cry to him - Will you pray for us - the little prayers
that were offered in the study where our Bible Class
met - I feel have been answered - With many prayers for
you and yours - I am yours in the blessed Christ
