My dear General

By a recent act of Congress to expedite the publication of the War Records provision is made for the Appointment of two "Civilian Experts" to assist the Superintendent May Davis in this work. —

I have made application to the Secretary of War to be appointed as one of said Experts. I am led to believe that my habit of careful and painstaking research, and my familiarity with the records and events of the War will fit me for the position.

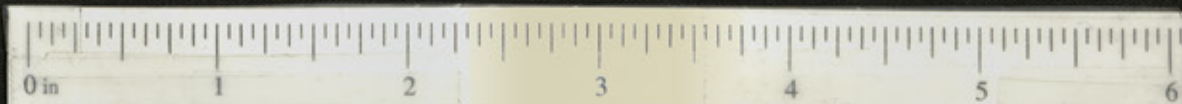

My friends have been very kind and many letters have been sent to the Secretary favoring my appointment.

It would add great weight to the
mass of testimonials in my favor
if you would address him a
letter (made care to me) stating
your opinion of my fitness for
the work specified and re-
questing my appointment.

As the appointment will probably
be made immediately on the
return of the Secretary from
his home in Vermont may
I ask an immediate response
to my letter.

I am, General,

Most truly your friend

Dear Uncle Otis,

Otis has asked me to explain some of the matters connected with the Company for which he has been working for some time past.

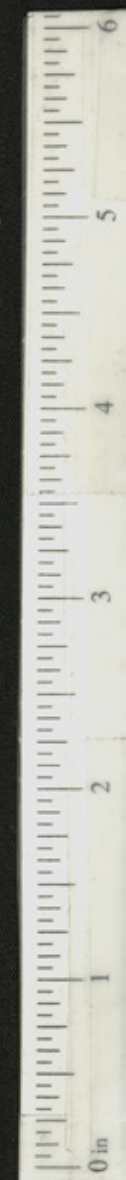

About a month ago the old Co. was reorganized under a new name in order to increase its capital stock and increase its powers. The old company had for ~~four~~ years been doing a successful business, and an increase in its facilities was found necessary. They propose now to transfer $33\frac{1}{3}$ per centum of the capital stock to Otis for \$5000, and before the money is paid to adopt bylaws which will be satisfactory to me, and which cannot be changed unless by a vote of 75% of the stock. This

would leave Otis with the balance of power, and he could prevent any change in the by laws - Besides his salary his block of stock would entitle him to one third the profits -

With the D. & R. G. contract that they have on hand I see no possibility of a loss, and in my judgment Otis' chance is a chance that comes to one once in a lifetime.

I am not given to wild cat schemes and if I thought that there was a possibility of loss I would advise against this move.

A corporation is hedged around by criminal penalties in such a way, by the laws of our state that there is very little chance - if the proper precautions are taken - for one stockholder to injure the Co. unless by actual Thieving.

I would suggest that if you decide that you can assist Otis, his note be so arranged that he can pay it in annual or semi-annual installments -

Otis has made money since December - more than I have made in two years, and he has gotten almost out of debt. He has also developed a somewhat remarkable business ability in directions that surprise those who knew him when he came of age -

If there is any point you would like explained, I would be glad to give you any information in my power.

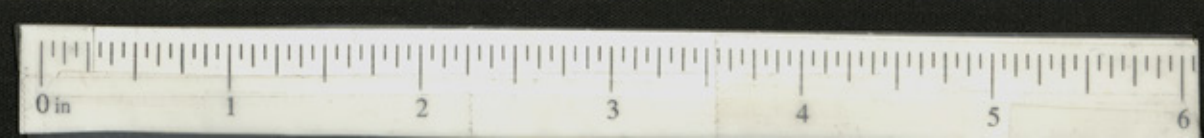

Respectfully D. P. Howard.

Dear friend

Please

accept my thanks for
your loving words of

I reach that place where
all tears will be wiped
away. Now again we
are passing through days

useful life may be spared
and that we may not have
an added sorrow.

I wish you could have
known my dear boy you
too would have loved him.
I owe you many thanks
for your kindness and
generous hospitality to my
dear son Archie. When a
stranger in a strange land
you took him in and was
a great help to him spiritually
temporally.

I hope before long we may
have the pleasure of seeing
you in our home. I hear
good news from Archie his
work in the Sabbath School
in Paris is really quite
wonderful.

Perhaps you saw an account
of it in the Brooklyn Eagle
about two months ago.

We miss George not only in
the home but in the Church
he was Superintendant of
our Sabbath School leader
in the choir and his
liberality abounded unto
many both in the Church
and out. How hard for us
to understand why one so
useful & apparently so
much needed should be
taken away. All we can
say is what we know not
now we shall know here
after.

My son the clergyman is
in Montana expect him

Dear General:

As the sale of your little book "Donald's Schreivays" has become so small, & believing it is worthy of a large circulation, we propose to try a new plan, & see if we cannot increase its sale, by putting it with others in a box of six volumes, & offering them for a much less price than heretofore. To do this, we cannot afford to pay as much royalty on each book as if the sales were being made in the regular way, we would, with your consent, propose to pay you a royalty of five cents for each book sold, instead of the present ten per cent. We think this method of sales will pay you a larger amount each year than you now receive from the present sales, which during these late years have not been of an amount to recompense anybody. If this meets with your approval, please indicate by letter at an early day as possible, or sign the enclosed, which we will attach to your contract.

Very Truly Yours,

Lee & Shepard

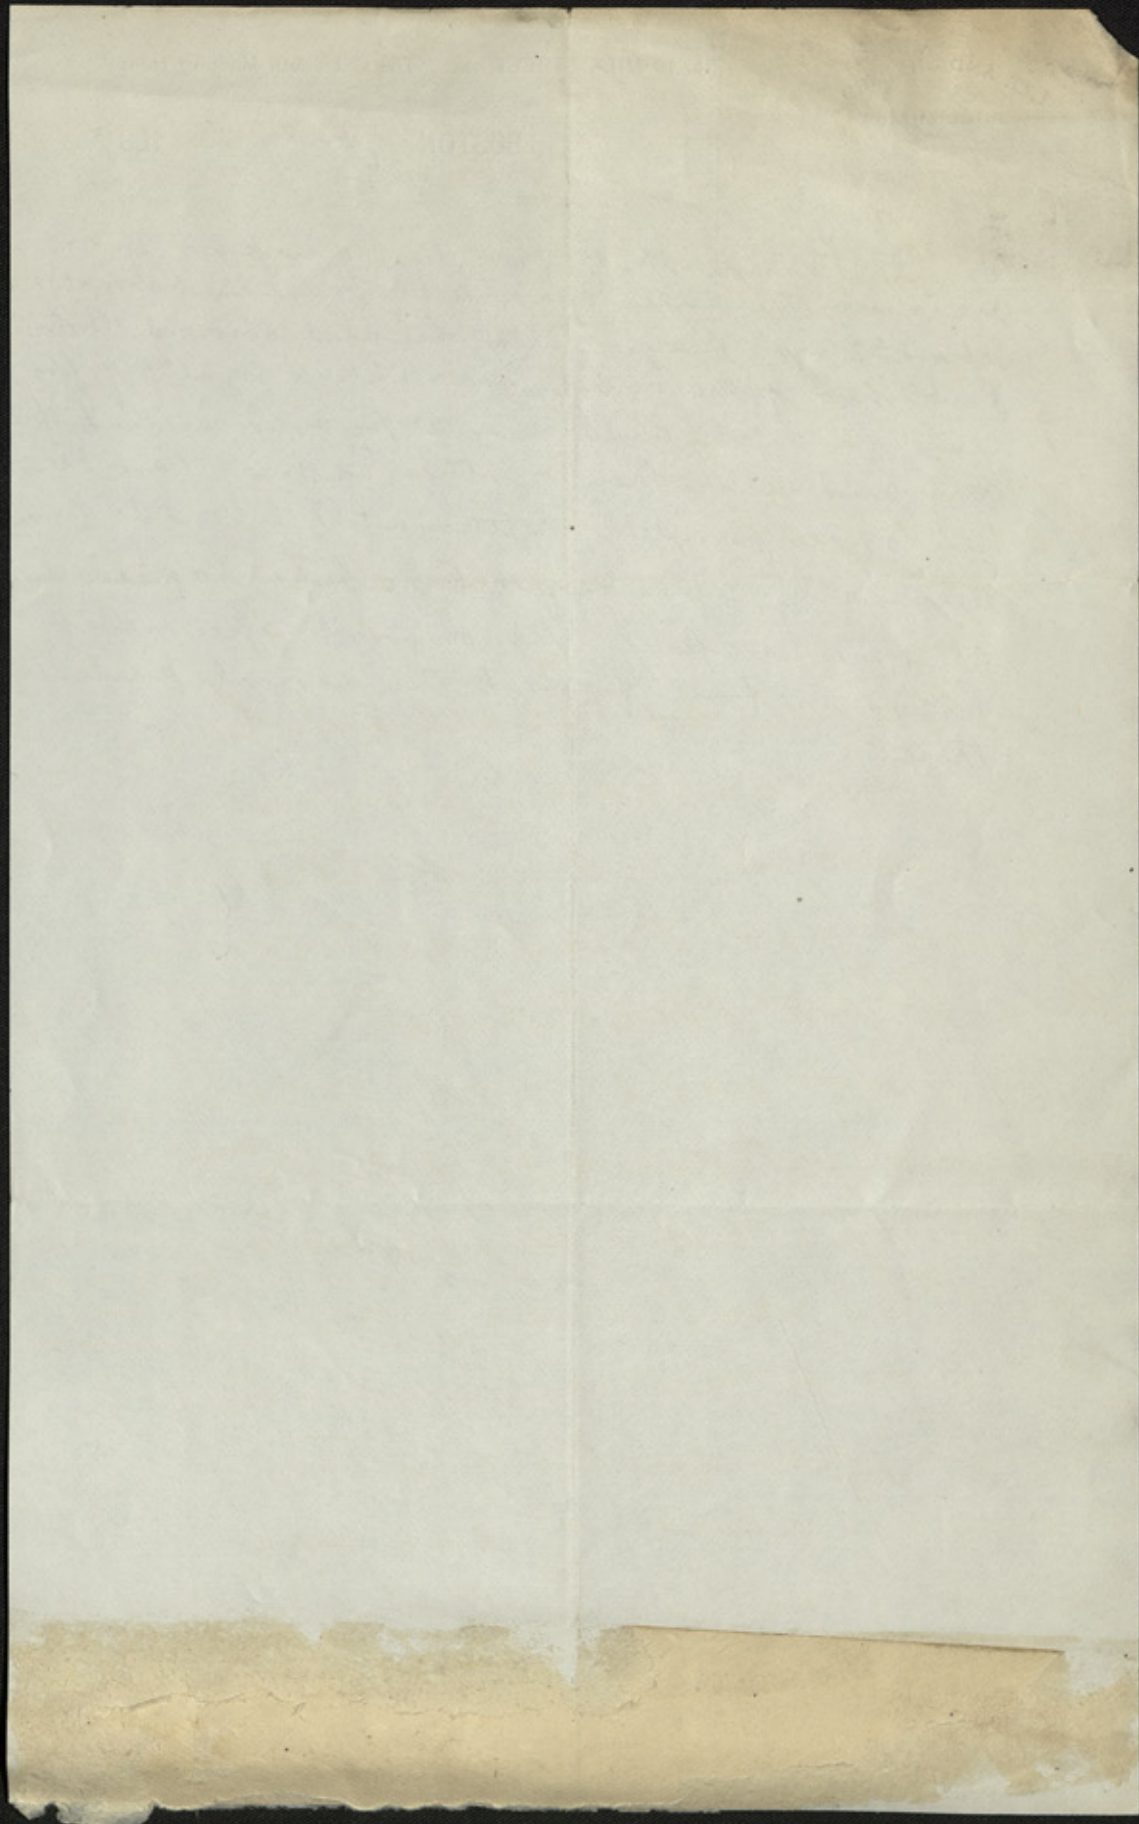

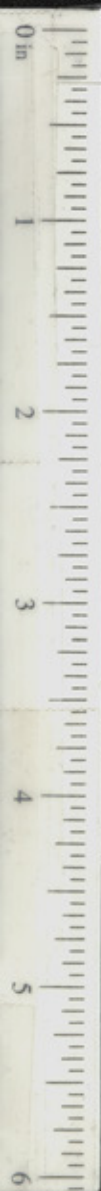

Gen. O. O. Howard,

P.S.
We hope to sell it more largely to Sunday Schools at the reduced price, as well as to secular libraries and trade - L.S.

BOSTON

July 13 1889

Be it known that for the purpose of increasing the sales of my book entitled "Donald's School Days," I agree with Lee and Shepard, Boston, publishers of the same, to accept a royalty of five cents on each and every copy sold, instead of any and all other royalties, as may have been heretofore provided, settlement to be made semi-annually, upon request, as before agreed; in all other respects the original agreement holds in full force to the several parties thereto.

My dear General
I received your
message about the
band for Thursdays
by Capt Willard.

It will give me
great pleasure to
carry out your wish
in the matter, but I
regret to say that the
engagements of the
band leave open for
your purpose only
Monday, Tuesday
& Wednesday.

I am not positive however about Tuesday's as an application for the band to play outside has gone in to Mackⁿ approved by me.

I regret very much indeed, the band's prior engagement for Thursday for the season, prevents me from sending it to you on that day.

I shall have to depend upon you for transportation to and from Green's Island, having none myself available. You will doubtless have to send early

owing to the distance, therefore would like to know at about what hour to be in readiness to leave, & so too owing to distance I will leave to you to make such arrangements as you deem best to have the men fed before returning as it will be very late before they can reach here on their return.

I merely mention these little incidents, though you will see & know how to meet all the necessities of the case, & if any of the days available suit

My dear General:

We arrived here on Saturday after a very comfortable journey for me. I was little more tired than I would have been at home. There is a great difference in the air - so much drier - I feel better for the change - though as yet I have sat up very little - but think I am surely though slowly growing better - I was slowly starving I suppose and had lost 20 lbs. since we went to Boston. I only weigh 138 1/2

It is cloudy and dismal today
but I have a fire in my room
and don't mind it.

There is no news stand in the
village & I feel lost without
the paper. Want you please
have Mr. Moon mail the Times
to me in the afternoon after
you all are through with it.

I will remunerate him for
the postage - Have him send
them from Saturday if they
have not been destroyed.

I enclose a letter that came
through the D.L. office.

I will write to the Doctor in a
few days -

Sorry we missed you

in starting - Hope you are feeling better
I am worried about you - you must
consult a Specialist - and please do it
at once. Please do!

I am all the time I can drink
and am hungry all the time - I have to
keep reminding Alice of the famous salutation
or remark of the Gov. of South Carolina to the
Gov. of North Carolina -

We hope you are all well -
With our kindest love to all

Affectionately Yours

G. H. Thayer
