My dear Sir:

Your kind letter and pamphlets were duly received for which you have my many thanks.

It is very gratifying to me to learn that the Apaches are to have a home in western North Carolina. I think it will be a good place for them.

General Howard wrote me some time ago wishing to transfer me to them that I might give them my time and attention as Chaplain. For some time five of the Apaches were here under my supervision and I took great interest in them and think I should like to give my best labors.

When they reach their home in North Carolina if Gen. Howard still desires my services I shall be pleased to be transferred to them. Will you please let me know when you expect them to reach North Carolina? I am exceedingly anxious to see them elevated and Christianized, and am willing to join you in your effort for their education. May God bless you in your good work.

Yours truly,

My dear General.

I am engaged in settling the accounts of Lieut. Thad H. Capron (retired) late A. A. D. M. at Fort Bridger Wyo. in 1883-1884. The great bulk of the suspensions is on account of purchases in open market for materials used in construction of new quarters at Fort Bridger - and the Auditor has called for explanation why purchases were not made by contract and also the order authorizing the Comdg officer of the Post to cause the expenditures to be made.

I have written to Col Anderson (now at Vancouver) asking him to furnish me the order if he has it.

In the meantime I have, to-day, received the following from Lieut Capron:-

"The Dep't Commander (Gen. Howard) visited the post
"about the time work was to be commenced and the entire
"work was gone over and the manner of securing and
"purchasing the material and general instructions given
"to Col Anderson, Post Commander, and on this was based
"his order to me directing the purchase and other work.

My dear sir

Do you remember a large two story brick house that stands about one mile south of Dalton Ga? The house stands about $\frac{1}{4}$ of a mile west of the main road leading to Resaca & is in plain sight of Rocky face ridge. After Johnson evacuated Dalton & fell back to Resaca, I think your Corps (the 4th) passed through Mill Creek gap & so on through Dalton to Resaca via the big road as the natives call it. The house referred to is now owned and occupied by a member of my family & is about the only one now standing ^{in that section} that was there before the war.

What I wish to know is this: Did you or any of your Div. Commanders occupy this
