We ate a cracker & piece of

Dear Papa.

Mamma and
I had a very pleasant time
at The Elm Tree Inn. It
is such a funny old fashioned
house. I started this quite
a little time ago but we
have had calls from a good
many of the old girls. There
is a Miss Corbin of Chicago
her father is in the army &
is stationed there. Do you
know him? This house has
only seven girls in it now
and one goes away to him.

Have today to be away until
Thursday. There are five more
girls to come but they will not
be here until next month.
The girls who have been here
come to see us to find out
if we are home sick and make
us feel at home. Twenty girls
go away for several days
& then return, so that this
place with room rather deserted.
There is to be a German to-
night and Kitty Johnston has
asked me to dance with her.
I was rather surprised to be
asked as I never go for
here but all have been lovely
to me so far.

At the table I sit next to
Lucie Miller lady of New York
lives on 89th st. She has
gone home for Sunday. I
am to have a Miss Feltore
for French. Not a very French
name is it? Margaret has
not seen Grace Miller, sister
of the wife of Mr. Eldon - the
electric light man is one
of the girls said. Miss
Temple may then room - mate
is a friend of Alice Clark.

have breakfast at 9.30 and
what a scramble it is to get
all of us ready and up at
the house by that time.

Major General O.O. Howard,
Governor's Island,
New York, N.Y.,

Dear Brother:-- I think you will remember my very highly esteemed friend Major W.H.H. Llewellyn. He has just been here on his way to Washington. You very kindly joined with me, if I remember correctly in recommending him to the President for the position of Marshall of New Mexico. He resides at Las Cruces near Fort Selden, and has entirely relinquished and formally resigned all claims to the marshall ship, in order that a native mexican might be appointed. He is now, and has been for some years, the western live stock superintendant of the Atchison, Topeka & Santa Fe R.R. Co. His jurisdiction covers Colorado, New Mexico and Arizona. My object in writing to you is, to bring to your notice an enterprise in which he has been engaged for irrigating a large tract in the Rio Grande valley. The head of the ditch and a portion of the principal canal is on the military reservation at Fort Selden. By the recommendation of the Fort Commander and of all the military commanders having any jurisdiction, including Grierson, commanding the department with head quarters at Los Angeles and Gen. Miles at San Francisco. He obtained permission of the Sec'y of War to take out this canal. This permission was given in writing. He then went to work with characteristic

energy, purchased the necessary teams and out fit and has expended some \$12.000 already. Meanwhile some of the native mexicans with their usual stupidity and cras ignorance,allied more nearly to the dark ages than to the present, have become alarmed lest he should upset some of there little old fashioned methods and turn their little one horse world up side down, and they have got up a movement and I think, a petition to stop his work. This they have taken through the influence of the priests or some such native mexican avenue to the Sec'y of War, and the latter has apparrently without adequate information,suspended the work at least during some proposed investigation. This action incurs a great loss and threatens great calamity to Major Llewellyn and his enterprise.

Please note that every military officer having any cognizance approves of the Majors enterprise, and has put that approval in writing. Gen! Crook has expressed himself heartily in favor of it and has given the Major permission to refer to him and to call upon him or telegraph if necessary, in his interview with the Secretary of War.

Now I write to give you all these facts clearly to ask for the same privilege for the Major; that he may refer to you as to his character and as to your own view of his enterprise as far as you have information. You are so accessible, and your once having had command of that division are important factors, and it may be that the Secretary of War would sooner consult you than General Crook. If so,

I greatly desired that you should be informed and ready to respond heartily. First; as to Major Llewellyns energy. Second; his integrity. Third as to the general advisability of such an enterprise. He and those associated with him had guarantees to free use of irrigating water for Fort Selden as you will see by reference to Gen. Grierson's last anual report. The latter which I have seen speaks unquallifiedly in favor of the enterprise. The Fort there has never had any sutiable irrigating privêleges, and this will be a help to them as well as bring if completed some 50.000 under the fructifying influence of good irregation. If Major Llewellyn does not write or telegraph you of course you will not be called upon to do anything. But if he should, I feel assured you cannot go amiss, and you certainly will do me a kindness if you will assist him as far as your sense of duty will allow.

I am pleased that you should be informed and ready to respond
actively. First, as to Major Llewellyn's energy. Second, his integrity.
Third as to the general advisability of such an enterprise. He and
those associated with him had undertaken to do so in connection
with the Fort Selden as you will see by reference to Gen. Grierson's

in favor of the enterprise. The Fort there has never had any suitable
irrigating privileges, and this will be a help to them as well as

Dear General,

My own kind friend:
My last letter is unanswered as yet,
but I attributed it to your being
kept so busy in this life &c.,
and being ever anxious to
hear from you I have taken
the boldness upon myself from
your own lips uttered on the
20th night of December in the year
of our Lord 1872 in the Chapel of
the Howard University, that is, any
of your old students may write
you at any time when they see

tion of life. I have taken you at
your word as my last communica-

tion is unanswered for cause
I know not at present, unless owing
to you being kept so busy or
other wise engaged in the past &c
Dear Genl. please allow me to
approach you as once my
kindest friend on earth as a
benefactor to say that I am in
a very deplorable condition at
present owing to the shortness
of crops in this section generally;
for example there are some large
farmers in these parts who plant
six horse crops of Cotton & Corn
and up to this time have only
harvested two bales of cotton and
three barrels of corn, so you
may see from the above
mentioned statement how it must
be with the small farmers in
this section at present &c. I read
that the earth is the Lord's and the
fulness thereof &c; and that God

has certain instruments in this
life to do his bidings &c. I cer-
tainly have always looked upon
you ever since I first got ac-
quainted with you to be one of
those instruments in God's hand
working to will and to do of his
great pleasure &c. Dear Genl-
the people in this section, men,
women, and children are
worse off now than they were
in the year of 1863 or there
about as they were then out of debt.
It is true, the cold people are free,
both on the other hand like
cattle free in woods without
a grazing spot as it were &c.
for I have children in school
whose parents are unable to
hide their nakedness and give
them sufficient to eat; not speak-
ing of books &c. Dear Genl. cannot

Dear General Howard,

When I was in St. Augustine in the latter part of December, I had a chat with Capt. W. M. Black (of the Engineer Corps), and asked him to send me an estimate of the cost of fixing up two gun platforms on Anastasia Island. Herewith, I hand you his letter of the 17th inst., also a map of the harbor, showing the location proposed. I would be very glad to know that you think favorably of the scheme: cannot something be done at once, to secure the desired result? If there is any way I can serve in this matter, you have only to command me. I am astonished at the Captain's low estimate (\$700.).

Very truly yours,

My Dear Mr. Flagler:

A press of work has prevented me from giving to you the promised information at an earlier date.

The advantages which St. Augustine offers for a permanent artillery post may be stated as follows:

1---Its healthfulness as compared with any post on the southern sea coast.

2---Its pleasant situation.

3---The facilities it offers for enabling citizens from all parts of the interior to become acquainted with the personnel of the army and with its work in time of peace. This too makes it essential that the army should not only be represented but also well represented.

4---Its good connections by rail and sea with all parts of the United States.

5---The facilities it affords for practice with great guns. A battery located on the U. S. lighthouse reservation on Anastasia Island could have unlimited practice at any desired range. This battery could be reached from the post quickly and easily by the ferry and South Beach Railway. From the lighthouse on Anastasia Island and a cheap observation station on the land about to be purchased by the United States on the North Beach, all shots could be observed and their fall plotted. There is but little commerce to interfere with the firing. There is now on hand at

My Dear Mr. Wagner:

A press of work has prevented me from giving to you the prompt

and information at an earlier date.

The advantages which St. Augustine offers for a permanent

Battery located on the U. S. Light House reservation on Anastasia

Island could have unlimited practice at any desired range. This

battery could be reached from the post quickly and easily by the

ferry and South Beach Railway. From the Light House on Anastasia

Island and a cheap observation station on the land about to be

purchased by the United States on the North Beach, all shots could

be observed and their fall plotted. There is but little

Fort Marion the granite and iron for the construction of six gun platforms for modern guns as heavy as the ten inch converted rifles. It is understood that these platforms will not be needed in Fort Marion. Two of them could be built at a proper position on the Light house reservation, sufficiently distant from the light to protect it from injury, for a sum not exceeding \$700.00.

I enclose a map of the harbor to show the location proposed.

Dear Sir,

Mr. Jackson, of Denver Colorado, who is famous for his skill in out-door photography, desires permission to photograph New York Harbor, from Governors Island. He does not wish to take a picture of Governors Island, or any part of it, but merely to use it as a base of operations, as it were.

If it is not against the rules of your department, can you give him permission to do so?

Respectfully Yours

Major Genl. O. O. Howard:

My dear Sir:

Your reply of the "17th" inst. recd., and in return would say; Your decision to be present at our "Tea-Meeting" the 30th inst. pleases us much, and we sincerely hope you will enjoy your visit here. — We are con-
fident your address will do us good.

I am not enough familiar with the military law or Custom regulating the dress to be worn by men of your rank, at such gatherings, but hope that you can come

us in uniform. I suppose
some of our people never saw
a Major Genl. in uniform.

We should be glad also
to welcome some of the mem-
bers of your Staff. In your
reply will you be kind enough
to tell me how many will
accompany you, that we may
provide sufficient Carriage
room.

You say in your note
you "will have your boat Land
me... on the north side of Atlan-
tic Ferry in Brooklyn". Did you
intend by this to Land at Ham-
ilton Ferry? Hamilton Ferry is
nearer to us than Atlantic F.;
or, if you so desire, your boat
could put into Atlantic Basin.

There are convenient steps to
the deck at the entrance of the
Basin. However, it is unma-

Dear Sir & Comrade:-

Permit me to supplement the invitation of the
Committee by a personal request for your attendance at the meetings
for the incorporation of the Union Prisoners of War National Memorial
Association.

Your presence will do much to bring success to the
movement. I hope you will find it possible to attend, and thus aid
in making the accomplishment of this effort an assured fact at a
very early date.

Very truly yours,

To General O. O. Howard,

My Dear General - I have made application to the President for an appointment "at large" for my son Frederick Worthington Lewis, either at West Point, or as a Cadet-Engineer at Annapolis - preferably at West Point - and I desire to secure your good offices in his behalf with the President - I think I have some claim for such consideration - As you know I served through the war with Vermont troops passing from the ranks through nearly all the grades to Col. of my Regt. and Brig. Genl. by Proact - and I am proud of my record - You are thoroughly conversant with my years of faithful work in the Bureau of R. F. & A. L. And I know I have as faithfully served my country

in all these long years of work for the elevation
of the Colored people, & the up building of the south,
where I have made my home for the most of the time
for 22 years - My eldest brother served through war
and lost his arm at Gettysburg, - My younger brother
was wounded, and finally killed at Gettysburg - I was
wounded at White oak Swamp, and lost my arm in
the Wilderness - I have had many hard struggles
and misfortunes, and have not been able to acquire
much of this worlds goods, and this appointment for my
son is near my heart, and I shall be ever grateful
if you can do something to assist me in obtaining
it - I know a word from you to the Presdt. & the Secty
of War would be of great service to me

With kind regards I am &c J. R. Lewis
