Gen. Howard.

My dear Sir,

As we are to have the pleasure  
of listening to an address from you  
on the evening of our High School  
Commencement, I write to invite  
you to dine with us at my brother's  
residence, 471 Main St. East  
Orange, on the day of the Com-  
mencement Exercises.

I remember, very well, the pleasant  
day of our excursion on the Steamer,  
in the Bay of San Francisco, in  
1888, when you so kindly took  
our party on the "Bridge" of the  
points of interest in the San Francisco  
Bay.

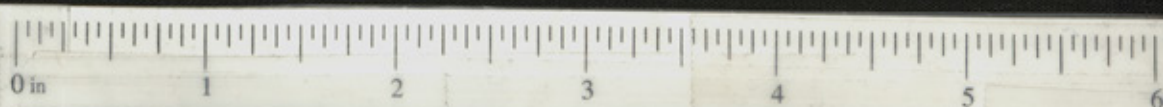

I trust that you will be at liberty to consider this invitation, that I may have an occasion, to renew my thanks for your kindness, to the excursionists in California, during the summer of 1848,

If you should name the time you intend to leave New York - on the 20th, my brother will meet you at the train, Buck Church Station, Del. & Lack. R.R. My brother, Dr. Gile is a veteran of the Army, and he and his wife join me in requesting you to dine with us.

Very truly yours,

Mary M. Gile

To Gen Howard

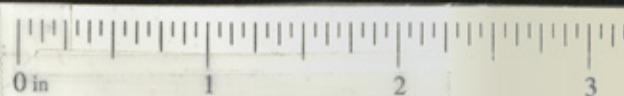

Dear Sir,  
Remble. Mr. C.W. Yours of the 19<sup>th</sup>  
received, <sup>File</sup> and contents I noted.

I will write to day to my friend  
Capt J. F. Munson at Fort Sheridan  
Ill, and state particulars  
as you request one to do so  
that he may verify his inter-  
course and friendship with  
my husband and myself.

Anything you may require of  
him he will be glad to do, and  
in the meantime I will send  
you some facts that will  
give you proof of my husband's  
just dealings with the  
Government. I thought when  
I addressed you, you were

the Government. If you require  
Signatures of Navy Officers,

or Army Officers, and  
would like me to give others  
of high social standing  
please notify me at once.  
As I have been so long writing  
to those connected with  
the Government employ, I  
am becoming quite weary  
and most timid, for  
it is not my job to write  
Business Letters. Ex Post  
Master James said, you go  
and see Gen Howard and  
I know he will be interested  
in your case. It is so much  
better than to write.

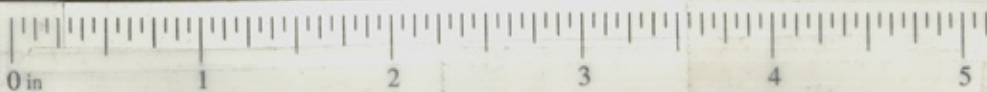

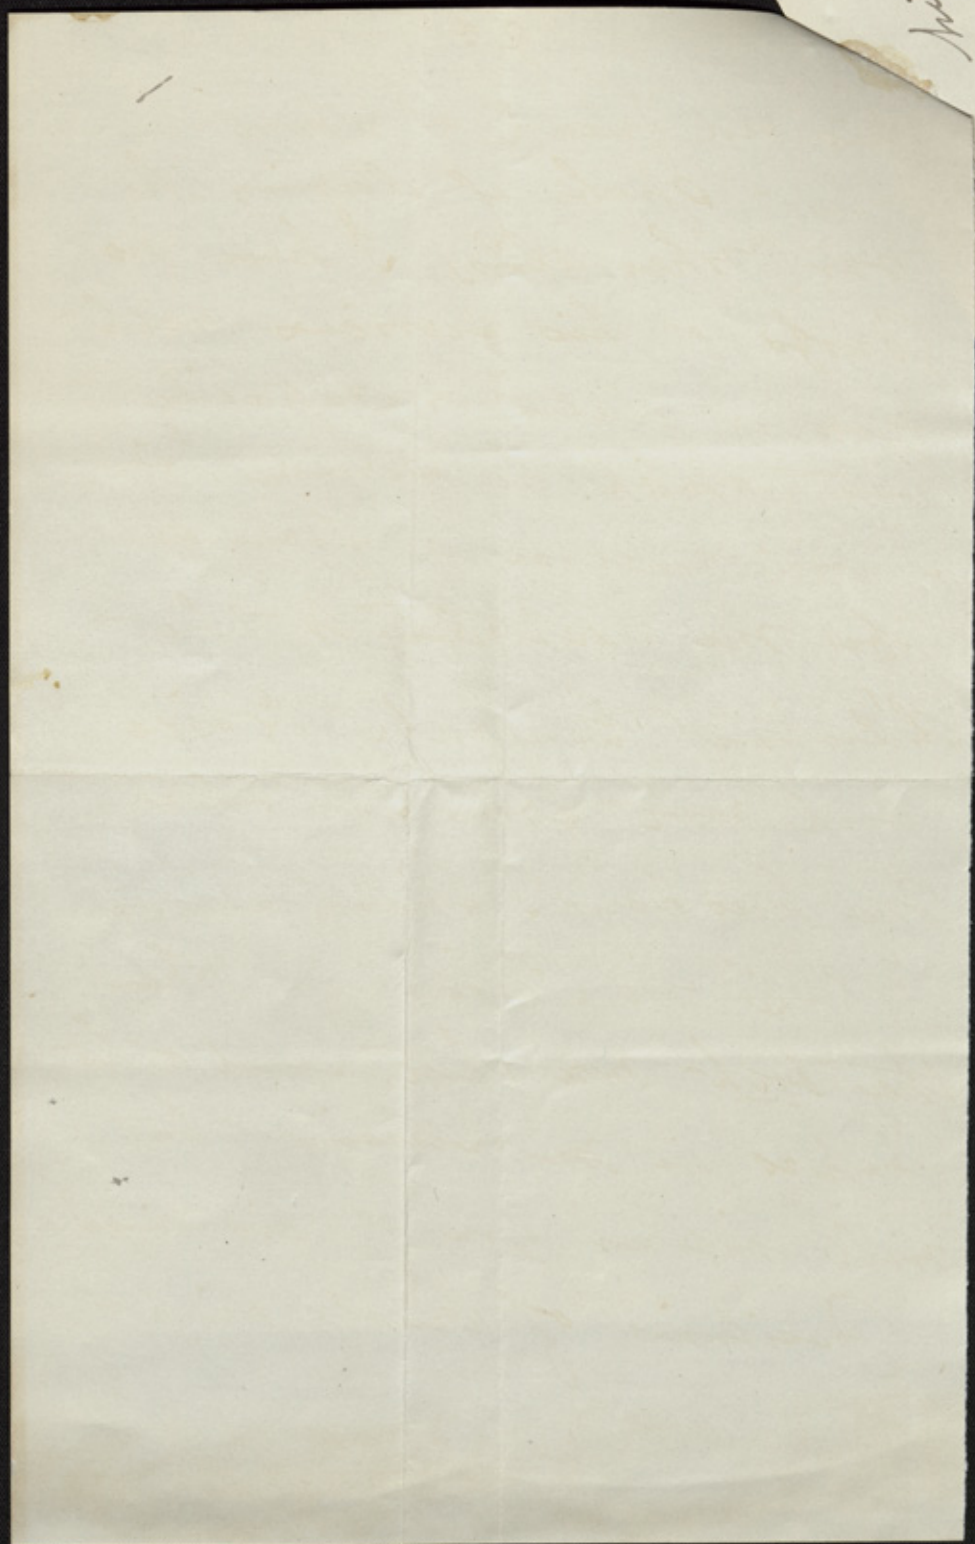

Please return the-enclosed  
letters.

General Howard will you  
kindly inform me if this is  
all that will be required  
of me to send to the  
Commissioners of Pensions?

I enclosed a letter-  
drawn up for the Commissioner  
in Washington. Will you  
please see if it is just  
what should be said. As  
Capt Munson is so far  
away, and my anxiety  
is so great to get my just  
claim in before Congress  
adjourns. I will be so very  
grateful if you will give  
this your personal attention.

We are without a  
minister. Mr Barrows now at  
the East sent back his resigna-  
tion of his pastorate, which at  
a business meeting of the Church  
on Friday evening, was accepted,  
it only remaining for a Council  
called for tomorrow P.M. to  
consummate the separation.

And now we want a  
pastor. The Church was  
closed on the 1<sup>st</sup> of the month  
for repairs which will keep it  
closed until the 1<sup>st</sup> of August or  
a little later, and then we  
want a man for our pulpit.

Dear Sir

Your favor and  
 reply to my note is before me. With this I return  
 Thanks and will state some facts that may refresh your  
 memory or possibly some officers acting under your orders.

"Irish" on the morning of July 5<sup>th</sup> 1863. between 8 & 9  
 o'clock a party of 7 or 8 horsemen came from the Battlements  
 road directly towards my lookout station about two miles  
 south of Gettysburg. At which point I could see the flags  
 of each general from right to left of Lee's Army.

I was ordered to this point by Genl Lee on the afternoon of  
 July 2<sup>nd</sup> that I might direct Couriers passing to the Hd. Qrs.  
 of his Generals. I had a Commanding View of the terrible  
 battle and could distinctly see with my glass each charge  
 and retreat. As I saw this spread of horsemen advancing  
 I sent 5 or 6 soldiers down the elevation to take position  
 behind a fence to capture the scouting party if possible.  
 They halted in range for moment when the soldiers  
 fired on them from their Ambush - Killed one horse  
 and captured the Trooper - (a sergeant of Cavalry) He  
 reported one of his company badly wounded. And that

General  
I took  
account  
Reynolds  
The

General O. O. Howard was in Command of the Squad.  
I took from him a Baltimore paper giving a full  
account of the battle of July 1<sup>st</sup> - Stating that General  
Reynolds was killed and Hancock wounded. And that  
the Union Loss was 10,400 killed wounded & missing. (This  
battle was fought by General A. P. Hill as his was the only troops  
on the field -) In a short time after the capture  
of the prisoner, General Swell, Early and Gordon halted  
and questioned the prisoner. And a staff officer read the  
war news to the party present. He was scarcely done reading  
when General Lee and staff rode up - And with some excitement  
Lee ordered Swell to advance a reconnoitering party along  
the south base of Round Top and in the direction of the  
Baltimore road - Swell gave the order - but told General Lee  
that he was informed that the enemy had left the day or  
night before (the 4<sup>th</sup>) General Swell called me to make the same  
statement to General Lee that I <sup>had</sup> <sup>made</sup> done to him - I told  
General Lee I had been at this point since the second  
of July and with a large glass had seen the battle  
from right to left. And that General Meade's Army had  
left the battle field the day <sup>and night</sup> before in some disorder. as  
I had seen and heard trains and Artillery moving  
rapidly. He countermanded the order to Swell and gave  
orders for the army to move on. It had been halted  
by his order from Gettysburg. General Lee seemed to be  
appraid that his rear guard would be attacked.  
General Lee asked his adjutant if General Stewart had reported with  
his Cavalry - He said not -

Mr Sutter's Transportation Trains had left for Van on the 3<sup>rd</sup> July. Except 20 empty Wagons I retained to be used as ambulances if required - These moved in front of the rear guard. After marching about one hour I noticed a squad of 25 horsemen with one gun drawn by four horses emerge from the woods to our left and as soon as in range commenced firing. Mainly directed at my 20 Wagons. in Charge of a Lt. M. A. There burst quite near killing one horse and wounding two or three men. At this moment Gen. Ewell received orders to double quick his Command. Which was done in mud shoe top deep. - Until the advance was halted by a blockade of Artillery at a the little town of Hatfield. (I believe that is the name) I was ordered forward to clear the road for the advancing infantry. It was done quickly by leveling shade trees and cutting down yard and garden fences. (My reward being a fusillade from Old Hornet's Tongues) While directing the opening of roads for the Artillery to move. - I received three orders from Gen. Early to move my Wagons or they would be captured. I replied I would do so as Ewell's Corps could not protect them from 25 men with one gun. I rode back hastily and found the rear guard had double quicked a part then, placing one 2m and twenty wagons<sup>or</sup> rear guard of Lee's Army. I ordered the train to move rapidly through the fields to the left and get in front of Ewell's Corps and stay there. I saw the gun and men moving slowly towards the Antietam road through the old fields.

They had ceased firing. I suppose for the want of Ammunition. They must have enjoyed the sport amazingly when double quacking an army for two miles with one gun - Gen Lee moved his army to a strong position south of Fredricks City when he ~~he~~ remained 48 hours ready for and expecting an attack - Gen Stewart came up and reported the position of Gen Meade's army and that the river was rising - but he crossed into Va. Thus ended the last campaign north of the Potomac -

I use the pronoun I quite frequently as I am telling what I saw - Not that I was an important actor in the great strife -

My object in troubling you with this communication is to establish the fact that Gen Lee's army was on the field and in a defensive if not an aggressive position on the morning of the 5<sup>th</sup> of July 1863 - Also that you made a reconnoissance in person on that morning - July 5<sup>th</sup> 63 -

And if possible establish the fact that Lee's army was followed ~~and~~ by one gun and supported by 25 men and that they fired into Lee's rear guard - some miles south of Gettysburg - I have often so stated - as one of Gen Lee's great mistakes - Thousands living know the army was double quacked as stated - Lee failed to press his advantages or did not learn the position or condition of his opponent - "Neither an General in War"

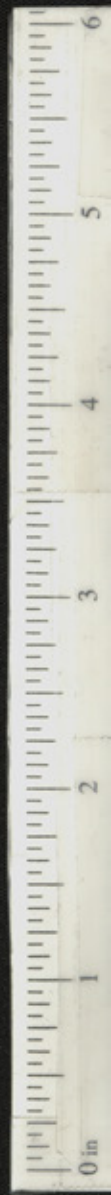

I am general your most obt. Servt
