My dear General Howard:

I have to-day received a cablegram from my office in London, containing a request from one of the English Indian reviews for an article on the uprising, history of the tribes, incidents of warfare. Treat as dramatically as possible. Article to be about forty five hundred words in length, and I to have it so that I could mail it by Wednesday's steamer. This would make it necessary to have the article in by Tuesday night. I would pay you \$60. for the article. Please let me know by bearer if you can write the article or not.

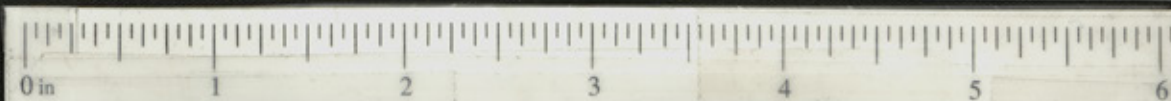

Very sincerely yours,

Sir:- In today's "Standard", I notice a Press Dispatch, stating that you have determined upon locating a battery of heavy guns at South Beach for practise work.

Should you not have fully decided upon Annistatia Island as a location, we would be pleased to have you visit North Beach and inspect this position for the battery. Presuming that the guns and other ordinance stores would be forwarded to St. Augustine by rail, a location here might better suit your purpose as we make direct connections with all roads running into St. Augustine, and could handle such freight without the trouble and expense of breaking bulk before reaching the location. Again the inlet running close in to Annistatia Island, nearly any position there might prove dangerous for practise on account of the shipping, which trouble would be avoided here. In conclusion, should you have made no definite arrangements, I would be glad to have you visit North Beach,

Dear Sir:

I received your telegram this morning and replied to it by telegraph. I am very much pleased indeed that you are able to write the article, as I was in a very serious quandary as to how to meet the wishes of the London people. I should like to retain a copy of it on this side of the ocean, and therefore will ask you to send me over the first half of the article as soon as you have it written, and the other half as early Tuesday as possible, as I shall have to have a copy of that made before mailing it. When I say early on Tuesday as possible, of course I mean as early in the afternoon as possible.

Very sincerely yours,

P. S. It is very likely that you will have it done on the typewriter, and if so, by the use of carbon you could have two copies done at once. This would help me very much.

I am very much obliged to you for your article, which I think is the most satisfactory resumé of the Indian question I have seen yet.

I am getting up a series of articles on Indian fights and fighters, and I would like to consult you in regard to them. Captain King is helping me edit the series.

I will not wait for the remittance from abroad, but will pay you from this office in a week or two.

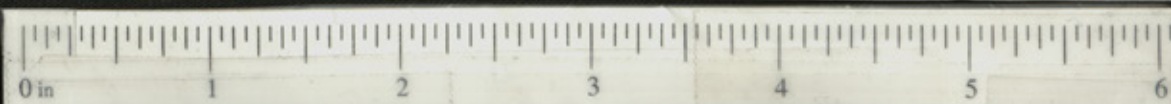

Would it be possible to get from you a map of the Northwest with the location of the different agencies?
