Dear Grace Howard.

I should be  
delighted to have you come  
direct to my home - from  
your mission - Sunday P.M.  
the 10<sup>th</sup> inst., we have tea at  
5.30 to 6.00. The Evening Prayer  
meeting at our Home of Industry  
is 7.30 to 9.00 - and at the  
Night Mission - 9.00 to 10.00. (close  
by) - The first named institu-  
tion is a home for ex-convicts -  
and the Night Mission is  
a home for girls - just from the  
Country - and Homeless Men.

Both of them, are new  
branches of our City Mission

work - many helpful con-  
siders. have been reported  
during the past season -

I think you would be  
deeply interested in the  
experience statements - and  
the more fact. of your writing-  
ness. to say a few words  
to them. would be a great  
encouragement to those who  
have charge of the meetings.  
and would be heartily appre-  
ciated by the inmates of  
the institutions. The rooms  
(not large) but are crowded  
Sunday Evening -

Rev. Rev. Frank. leads the  
meetings at the night mission.  
and Darwin J. Meserve (who  
was tried for killing a man  
last year) leads the meetings  
at the Home of Mothers.

Mr. Frank. has preached in  
your mission several times  
I think. It is in my  
remind for you. to come to  
the next Sunday - it will not  
be necessary to write an  
answer to this note. We shall  
have a plate ready for  
you at our Tea Table

Ever Yours faithfully

Dear Friend:

I can hardly express our disappointment at the cancellation of your engagement for the fourth and ensuing week.

We rely upon your bringing Capt. Graves who was such a delightful addition to our household and spending the week promised for sport and fishing here and in New Hampshire.

We trust that you have adjusted official business

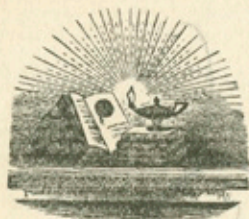

and can make haste faster  
by rest as suggested by  
my good Dr. Bell.

Your visits are a pleasure  
and a blessing to our entire  
household and we will give  
you as little public attention  
as you desire.

Please write us when  
you and Capt Gray can come  
so that we may meet you  
at Newburyport on the ar-

Dear General Howard;

I have told Emil Beck that I think the thing for him to do is to strike out for new occupation and associations in the country; if possible in some Western State. It also seemed to me most likely that you would approve of the idea and, perhaps, promote it in some way.

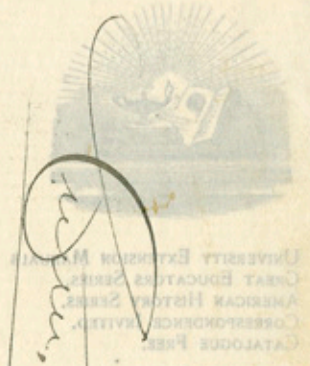

He has promised to speak with you about the matter and I greatly hope it will result in good.

Dear Gen Howard

I received your letter  
yesterday on. My funds are  
drawn down quite low at  
present. Before leaving home  
I had to provide for our  
Bible Reader for the summer  
and to assist in procuring  
a Mummy at \$6.00 per month  
to visit the shipping at Red Hook  
while the female workers were  
away, also to raise money for  
the outing of the Girls Club at  
the Chapel, down on the Island  
also Fresh Air fund, and some  
poor sick families who need  
aid during the summer while  
people are out of town, and  
I am sorry to say so few people  
think of the wants of the

poor during the summer  
which I think is more needed  
than in winter

When I reached here found  
a poor unfortunate Widow of  
Mr Bucks for which he has  
always provided for since the  
death of his brother very rich  
and was not long but a  
few days, so you see I have  
so many calls just at this time  
I must make my donation  
to you smaller than I  
otherwise should

We arrived all safe  
for ten days it rained continually  
so I could not step from  
the Porch but now the  
weather is fine and farmers  
are beginning to hay in  
good earnest

I rejoice with you when  
you get your family  
home safe and sound

I send you a check

Accept my thanks for the kindly interest shown in your note of the 9<sup>th</sup> inst. Permit me to say that, while I had not opportunity for verifying the story told by Mr. Powell, it commended itself as perfectly straightforward. Mr. Powell is not a member of our delegation, but came on to attend convention, and registered at Iowa Headquarters as a member of the M. E. Church at Indianola, Ia. He attended the Union Square overflow meeting, was unable to find accommodation at the boarding house to which he was sent, and while on the way to another was attacked and robbed. Though urged by the women to waive prosecution, he declined to do so, and, having no acquaintance in the city, was detained as witnesses in \$500<sup>00</sup> bail. I believe the "Herald" clipping, which you sent me, to be thoroughly sensational and libellous, and hope Mr. Powell will make the paper pay for its meanness. The case probably comes to examination today, but I am too thoroughly worn out to attend it.

1892.

There was doubtless some misuse of badges during convention, and some of the delegates were in cautious, especially those from a distance. One delegation had its badges stolen. But these things, much as we regret them and unfortunate as they now seem, will not, I believe, dim the true luster of our work for Christ. Papers like the "Sun" and "Herald" are always ready for a fling at religion. I rejoice that the faithful work and testimony of Christ's followers, blessed by His Spirit, cannot fail to bring to naught the foolishness of evil men.

With much appreciation of your interest, believe me,

## The Victoria Institute,

OR

Philosophical Society of Great Britain,

8, ADELPHI TERRACE, STRAND, LONDON, W.C.

Correspondence (including communications from intending Members or Associates, &c.) to be addressed only to "The Secretary."

## THE PRIMARY OBJECTS.

THIS SOCIETY has been founded for the purpose of promoting the following Objects, which will be admitted by all to be of high importance both to Religion and Science:—

First.—To investigate fully and impartially the most important questions of Philosophy and Science, but more especially those that bear upon the great truths revealed in Holy Scripture.

Second.—To associate MEN OF SCIENCE and AUTHORS\* who have already been engaged in such investigations, and all others who may be interested in them, in order to strengthen their efforts by association; and by bringing together the results of such labours, after full discussion, in the printed Transactions of an Institution, to give greater force and influence to proofs and arguments which might be little known, or even disregarded, if put forward merely by individuals.

Third.—To consider the mutual bearings of the various scientific conclusions arrived at in the several distinct branches into which Science is now divided, in order to get rid of contradictions and conflicting hypotheses, and thus promote the real advancement of true Science; and to examine and discuss all supposed scientific results with reference to final causes, and the more comprehensive and fundamental principles of Philosophy proper, based upon faith in the existence of one Eternal God, Who in His wisdom created all things very good.

Special advantages are secured to Country and Colonial Members and Associates in the Journal of Transactions.

## THE JOURNAL OF TRANSACTIONS

Contains the Papers read at the Meetings and the Discussions thereon.

Before these are published in the Journal, both are finally submitted to their Authors for any revision, and MS. comments and supplementary remarks are added, which have been sent in by such British, American, and other Members to whom, as being specially qualified to contribute information upon the respective subjects, proof copies of the Papers had been submitted for consideration—the authors of Papers adding their final comments. These arrangements, which are found to add greatly to the value of the Journal, are carried out with a view to securing the special usefulness of the Journal to all, whether home or Non-resident Members or Associates; these thus find in the Journal much valuable matter, and often much (contributed by men of learning in all parts of the world) in addition to that which had come before those actually present at the Meetings. (The Journal is sent post-free.)

\* The Society now consists of 1,200 Subscribers (about one-third of whom are Foreign Members); including Literary and Scientific Men and others favourable to the Objects. (The present average annual increase is upwards of a hundred.)
