Gen. O. C. Howard,
Governor Island, N.Y.

Dear Sir:

Your letter of the 4th inst. enclosing letter addressed to you under date of the 12th Sept., by Mr. P. J. Milan of Matamoros, Mexico, was received on Mr. Huntington's return, and I have to advise you that he has not yet returned to the city.

Very truly yours,

Dear Sir:

Some time since, I forwarded you an agreement for the prosecution of Gen. Howard's claim against S. A. Kean, and asked for instructions in the matter. If the General does not desire to pursue the matter, will you kindly inform me to that effect. In case he does, will you forward me the agreement and the proper papers, as I would like to get right at this claim.

Efforts are now being made to reach the assets of Mr. Kean, and I should like to be in at the death.

With kind regards to yourself and wife, I remain,

Yours very truly,

My Dear General:--

I am prompted to write you a line of congratulation that you are about to take up the most attractive work of collecting materials with which to write a memoir of Queen Isabella. A little time spent in Spain three years ago impressed me with the fact that here was an attractive field for a thoughtful historian that had not yet been pre-empted. We need something more than our honoured American citizen Washington Irving secured that will meet with his name frequently established as it was with Granada. Believe me, dear General,

Ever cordially yours,

Dear Sir,

Mr. Elliott asks me to inquire of you whether it would be any object to you to discount the same payment of $1000, and get the money now and issue deed and take the mortgage at once. If so, please let me know to what extent you would discount it, and if acceptable to Mr. Elliott, I will get the money and send it to you with the deed for the signature of yourself and wife.

Yours truly,

Dear Sir: You will please pardon me for venturing to molest you but you have been so good to my people I come to beg of you a small matter before you send ask a small donation of one dollar only for St. Augustine P. S. Church. We are the only colored Episcopal Church in Brooklyn and we are trying very hard to make this a grand success so we will not have to house a pair for years and I know you have many calls but this is only a small sum and the first time that our little church wish to have the
hence of saying they had a small donation from General Howard and we will be unable to last any obligations to you.

Major Neil O. Kerrard
Dear Sir.

I am happy to state that through the influence of Dr. Deechester, endorsed by Gen. T. J. Morgan, a Flowering Hill Boarding House Hospital and other buildings have been erected there, and arrangements have been made to tap the hot spring 8 miles this side, to furnish water for irrigating the farms for the Indians. I now write you for another purpose and may trouble you a little. You will remember that Rev. G. F. Cook who came here in 70 and returned with you escort on his way to Chicago, to get him a wife. He writes here your kindness with deep gratitude. He has been faithful to his trust, has done a crook for these Indians that has paid out many thousands of dollars.
He served his country (adopted) from 6/1/65—willingly and with honor. Now he has served it better by his 32 years service among those children who are the desert. A good lady in Cumbellah, NY, wishes me to write a small book of his history, with the idea that 5000 or 4000 copies printed gratuitously could be sold for his benefit. I have two objects in view:

1. To raise $400 or $500 to enable him to educate and train two or more native help and to take part of the work off his hands. It is already too great for one man.

2. To reduce a man (missionary) in order to offer their own denomination to go in the labor as the work is for other tribes.

Mr. Cooke has done for the Pima.

Can you furnish me any items of interest about him for the work? Very respectfully,

Issac E. Whittman, acting pastor, Pres Chata
WHAT SHALL HE DO?

A boy, sixteen years old, of average habits and intelligence, has completed a common-school course. He lives in a small town, and his parents feel that it is time for him "to do something" towards earning a living. The boy has seen little of the world, and has not as yet displayed any marked aptitude for any particular business or profession. The probabilities are that he will accept the first position that offers, whether it be in a tin shop, a grocery store, or as a lawyer's clerk. Thus, mere chance will determine his start in life, and upon this in turn, will hinge much of his subsequent success as a man.

What is this boy to do—bow to circumstances and accept any work that offers, whether it be to his liking or not, or try and find out what he is best qualified for, and accept work only within that line?

There are tens of thousands of boys on the Pacific Coast in the position described above, and they want those who have achieved success in life, and who are competent to advise, to help them to a right start.

Dear Sir:-

We respectfully call your attention to enclosed copies of "The Visitor".

This little paper circulates in about twenty thousand homes on the Pacific Coast. It is read in lonely cabins in the mountains, in the homes of the prosperous farmers in the valleys, in Indian Agencies in Arizona and Idaho, and by people in Mexico, British Columbia and Alaska. Thousands of its readers live in isolated places where little other reading matter reaches them.

The paper aims to be helpful and interesting, but above all, pure and lofty in tone and purpose. It wants in its humble way to do the world good.

President David S. Jordan of Stanford University, Geo. W. Cable, Mrs. Henry Ward Beecher and others, have written for "The Visitor" and with much benefit to its readers.

It is proposed to present shortly a new question of practical interest to parents and young men. Enclosed find a printer's proof giving a statement of the question.

If you are willing to express an opinion on this point in a few words for publication, we are sure it will be as seed scattered on good soil, and in many directions.

Again it must not be forgotten that in the homes where "The Visitor" goes, that the people are, for the most part, in moderate circumstances; the battle of life with them is very earnest and they struggle onward with few encouragements in their monotonous lives. That one in the high position in which your abilities have placed you, is not above speaking a kindly word of advice to them or their sons, will, we are sure, create an impression which, alas, for the highest good of our State and Nation, is created nowadays only too rarely.

Sincerely Yours,

Dear General Howard,

Very often I have wished to send you some news of our safe arrival in England but opportunity has failed me till this afternoon. Seen sitting writing to you in your room in Agincourt waiting to hear from my patients from the devoting physican but he has not yet come. 

Arriving from my window I can see the students arranging chairs and desks to have their photographs taken but as their Chief (my Physician) has not come they are all disappointed

Yours affectionately

One thing I do regret now is that I did not see any of your American hospitals. I had all about it. The time was so quick. All the photographs I brought back with me of Niagara Falls. I have had flowers sent up to my sitting room. All are very much admired. The scenery is good. We left Major Whittte in Ireland, and his daughter has joined them there. They intend to winter in Ireland. We all saw you so frequently waving your pocket handkerchief at our vessel placed your tiny flower. We had a very good voyage. Miss Whittte and her son were both constant and unfortunately to meet a considerable part of their time in their cabins. I was not sick at all. The sea did not affect me in that way. Mr. Stone is quite well, he called yesterday I waited for him. This morning I saw you. You said he knew I was going to write to him this week. He has sent a kind message. They enjoyed reading your own book which you gave me. Many people acquire your photographs. The Exhibition seems to be making rapid progress. Mr. Haughton our late Minister has gone to Chicago to arrange about the Exhibition. Figures all sorts of dollars will be sent to represent our hospitality. I hope you will look out for ours.

I am trying to get along with one eye on the playfair pretty well. Some years ago Mr. Boshart of the War Department had a likeness done of me. I should value a likeness could be made such that Mr. Pallas would prize it.

I chased. It is an immense photograph which was taken last summer of Raphaelle Sistici’s Madonna. We are very proud of our picture, and hope it will only grow more beautiful as we study it. Have you a photograph of yourself?
