Maj Gen O. O. Howard
Dear Sir

Pardon my
presumption in calling your attention
to my case, but knowing your reputation
as a Christian and having seen you
several times and heard you make
an address at the 25th Anniversary of
the Military Order of the Loyal Legion
when your manner of turning your
manuscript produced considerable
applause. I will now state my case
and if you can help me I feel sure
that you will, some time in the winter
of 1864 in Dec or Jan, 1865 when in my
20 year I was made intoxicated by
some parties interested in obtaining
the bounty taken to Connecticut

(without the consent of my widow's father
since deceased) and enlisted she
was for some little time well nigh distracted
until she heard from me, I was in due
time sent South to Wilmington and then
to Raleigh N.C. to be attached to Co B.
5th Connecticut Regt. I remained with
the Regt. continuously until after peace
was concluded returning with them to
Washington and participating in the
Grand Review while still at Washington
awaiting transportation to Connecticut
to be mustered out. I again yielded
to the drink and went home, that
was the last of the drinking with me.
I was brought under conviction was
convicted and joined the Church
since which time I have tried to lead
a humble Christian life. I could give
you some of the very best men in the
City as references but I do not wish

to acquaint them with this dark spot of
my life, what I would like you to do
for me if you can do so without too
much publicity would be to aid me
in procuring an honorable discharge
from the 5th Conn Regt, if I had gone
away in the presence of the enemy I
would not ask this at your hands
but the case is just as I have stated it
some years ago this would have caused
me little concern but I find as I grow
older and advance in life it becomes
a very weighty matter, about a year
ago I wrote to Senator Hawley and
he told me to write him at the commence-
ment of the session of Congress (which I
did) and he would offer a bill for my
relief, but I have heard nothing from
it for a year so I presume that he forgot
all about it, perhaps a word from you
would start it on its course. I thought

General O. O. Howard,
Governor's Island, City.

Dear Sir:- A great mass meeting for the purpose of raising money to carry on the Grand Army Mission (of which you are one of the managers) is to be held at Chickering Hall, Saturday evening, December 17th, at which General Porter will preside.

This meeting has been suggested by several friends of the old soldiers, who think that this would be a good opportunity to arouse the public. We desire a full hall and realize the necessity of bending every effort to make this the greatest meeting that New York has ever held in the interest of the crippled veterans and their families.

If you approve of the meeting, please indicate by return mail the amount of money that you are willing to contribute towards the expenses of the meeting which will be, including the hall, the invitation tickets, postage, and newspaper advertising about five hundred dollars.

Since the evening named, was the only one upon which General Porter could preside and the hall was at liberty, I have ventured to secure the hall for that date, and Colonel Hadley, the secretary and myself are already at work to get up a meeting feeling sure that you would cooperate. Please answer at once and oblige,

Yours fraternally,

My dear Sir:- You will perhaps recall me as connected with the little poem of the poet, the late Mr. Whittier, entitled "Howard at Atlanta".

I am writing a history of the educational development of the colored people of Georgia for the past thirty years. As you were so intimately connected with the early work in Georgia I should be glad if you will give me such information as you may have, bearing on any phase of Negro education in Georgia from 1863 to 1870.

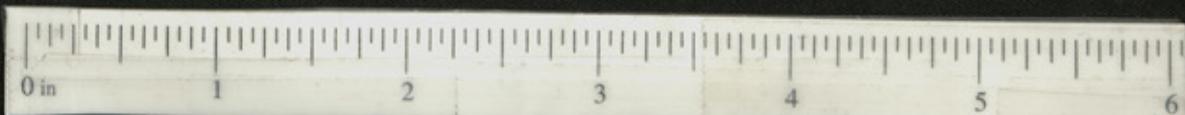

1- Under what supervision were the teachers employed?

2- How many male teachers; how many female teachers?

3- Were there any colored teachers. How many of these were from the north; how many from the south?

4- From your acquaintance, what do you say was the condition of the colored people of Georgia at that time?

5- How much money was spent annually for the education of the colored people?

7- Were the colored soldiers in any way connected with the money?

Please give me any other data in your possession.

I am quite anxious that my statement shall be full, accurate and a fair representation of the societies that have done such noble work for the elevation of my race.

My dear Sir

Although
a stranger to you, I
take the liberty to invite
you to speak at the
Annual meeting of
the N. S. Temperance Society
in Albany next
month. about the
20th Can fix date to
suit you. You know
it is hard to attract
people to such meetings
unless they are to be
addressed by well known
speakers. May we not
appeal to you to help us

The Society has fourteen lecturers in the field, all of whom are commissioned after careful tests have proved them worthy of confidence, and capable of good service, and some of whom will respond to calls for Temperance and Christian work, at any point, whenever, called through the Secretary Dr. Church, relying on collections for their compensation. Over 500 lectures have been given; 1,200,000 pages of earnest truth printed, put in the hands of the people. Our workers have done their full share in organizing and educating the State for Constitutional prohibition, and all are moved with indignation that the legislature should humbug us with a promise of an election, and balk us in the event, and say we bate not one tittle of our conviction that the prohibitory amendment should be submitted to a vote, and we hereby renew our demand that the legislature shall submit the amendment to the voters, as the Constitution says "it is their duty to do" and the Attorney General says they "can legally and properly provide for." The Society protested by emphatic resolution against opening the Columbian Fair to Sabbath desecration, and the sale of intoxicating beverages on its grounds.

Also urging the Senate of the U. S. to ratify the compact of the 17 nations of Europe for the suppression of the slave, opium and liquor traffic in Central Africa.

The meager and uncertain support given, the reluctance of fashionable and wealthy people to co-operate in any form of temperance work, and the jealousy of politicians lest anything be done in favor of prohibition make all our way up hill and discouraging; very much like the crosses and hardships endured when everybody was down on abolition forty years ago. The sacrifices and heroism by noble souls in battling for the right is as marked as in apostolic times. The rumseller rules with a rod of iron. The great majority accept his domination and do his bidding.

No cause or organization has a better claim to your confidence and co-operation.

Working for the public weal with unselfish devotion we have a right to ask you to open the way for our lecturers, show them a Christian hospitality when with you, and contribute to their support and usefulness. The enormous sums spent for liquors, (1,200,000.00 for 1890) make all done to advance temperance seem very small. Will you grudge us that?

We could greatly enlarge our operations and influence with more means. We invoke such unity and courage in action that we may double the work of last year, and see the temperance cause stand side by side with Church, School, and family, in your esteem and support. Till then "the wicked rule and the people mourn."

Very truly yours
H. Brown

Bronson, J. H.

REMARKS.

The object of this Society is expressed in Article II of the Constitution: "It shall be the object of this Society to advance the Temperance Reform through the use of moral, religious, educational, social and political agencies--that the young may be instructed, the church be inspired, and the commonwealth be aroused to hasten the time when Total Abstinence and Prohibition shall triumph. And this Society will co operate with all who work to secure a Constitutional amendment prohibiting the manufacture and sale of intoxicating liquors as a beverage."

The Society has been endorsed by Methodist Conferences, Baptist Association, Presbyterian Synods and other ecclesiastical bodies. The prominent Temperance organizations of the State have expressed their confidence in it, and their willingness to unite with it in the work.

It affords an open channel through which all temperance organizations may operate, and proffers its co operation with any and all such organizations as are designed to encourage temperance and suppress the liquor traffic. It employs State Lectures, men of acknowledged ability and sound judgment, whom the Executive Committee can endorse, and for whom they bespeak a hearty sympathy and support, and seeks to enlist pastors, educators and reformers to aid in the work, and set in operation as many other agencies and appliances to advance the temperance cause as their funds will allow.

An immense amount of general temperance work is called for in our state, such as is the province of this Society to engage in, and which demands the co-operation of all who would see the curse of drunkenness removed from homes and society.

We invite every one interested to organize some effective work in their own locality, pastors, teachers and others to preach and lecture, and to push the temperance cause by every available means, and report any special interest or work to us for the encouragement of others, and also to give our Society the benefit of a collection at some church service, temperance or social gathering. If you belong to no temperance body send us your own name with \$1.00 for an annual, or \$10.00 for a life membership, and to this extent encourage and help our Society in its work, and thus identify yourself with reform.

Comparative trials have been made in England recently between Harvey's Nickel faced steel plates, of American invention & production, & Brown's & Cammell's compound plates, in which trials Harvey's plates have proved to be infinitely superior to Brown's & Cammell's. The immediate consequence of such a result will be the adoption by England of Harvey's plates, to protect the line of flotation of its iron clad men of war, & the same will be done by all other nations subsequently. Since Spain is building its war vessels at home, a good business might be done with Harvey's plates, if the matter is properly conducted by

Dear General Howard,

Although I have
not yet been personally in-
troduced to you, I take liberty
to ask you a few questions about
the Naval Academy at Anna-
polis. For about a year I have had
a great desire to enter it. My
mother says she does not exact-
ly like the thought of it, but
if I really want to, she says she
does not want to spoil all the
fancies & pleasures of my future.

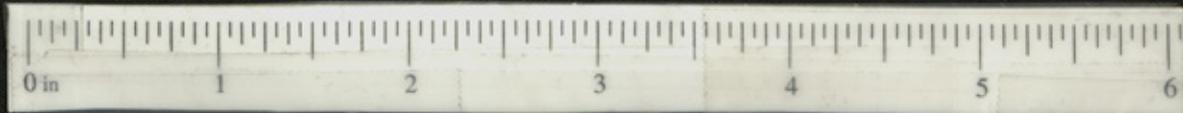

so I have the permission
from home.

Now at what age must
one enter, & which are the special
& most necessary studies that
one needs for the examination
for entering? Is the physical
examination very strict? On
the whole I am healthy & the
Doctor says I have pretty good
muscles for my age. I will be
fourteen next May & I have
been in the Exercierschule in
Lipzig for nearly two years &
have got a broad & strong chest
there, & I am no longer the
frail little fellow that Mr.
Howard remembers me to be!

I am up here in Davos
in boarding-school & like it
very much; it is the first I
have ever been in school, but
I have not been homesick once
since I have been here. If there
is anything of this sort in-
cluded in the examination,
I will add that I am not
very dizzy looking down over
a high place, I can climb
a rope, a pole & can swim. I love
to run up a rope-ladder
on a vessel & love all those
out-door sports.

Now I will not trouble
you any longer.

Please remember me to Mr. &

Yesterday a woman brought to the Legation, without leaving word as to who she was, or whence she came, a bundle of photographs addressed to you thus:

& in the corner

I took the liberty of ~~opening~~

what to do with it, and in
order to report the matter to
you - or in the case that a
note or letter or some indication
might have been within that
would give some clue as to
where it came from, or what
you intended.

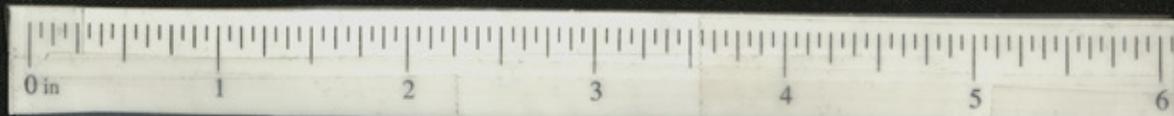

I found in a knot of the
twine about the package a
scrap of paper, yellow, with the
printed words "gran velocidad",
which looked as though it might
have been a bit of a label of

indicating what line, or from where
to where. I suppose the woman
may have come from some one who
was commissioned to bring the

that they were sent that you
might present them while here.

If you will drop a line to the

Dear Cousin: I know

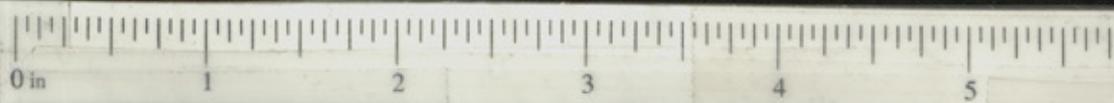

you are a very busy man, and I would not trouble you under any other than following circumstances-

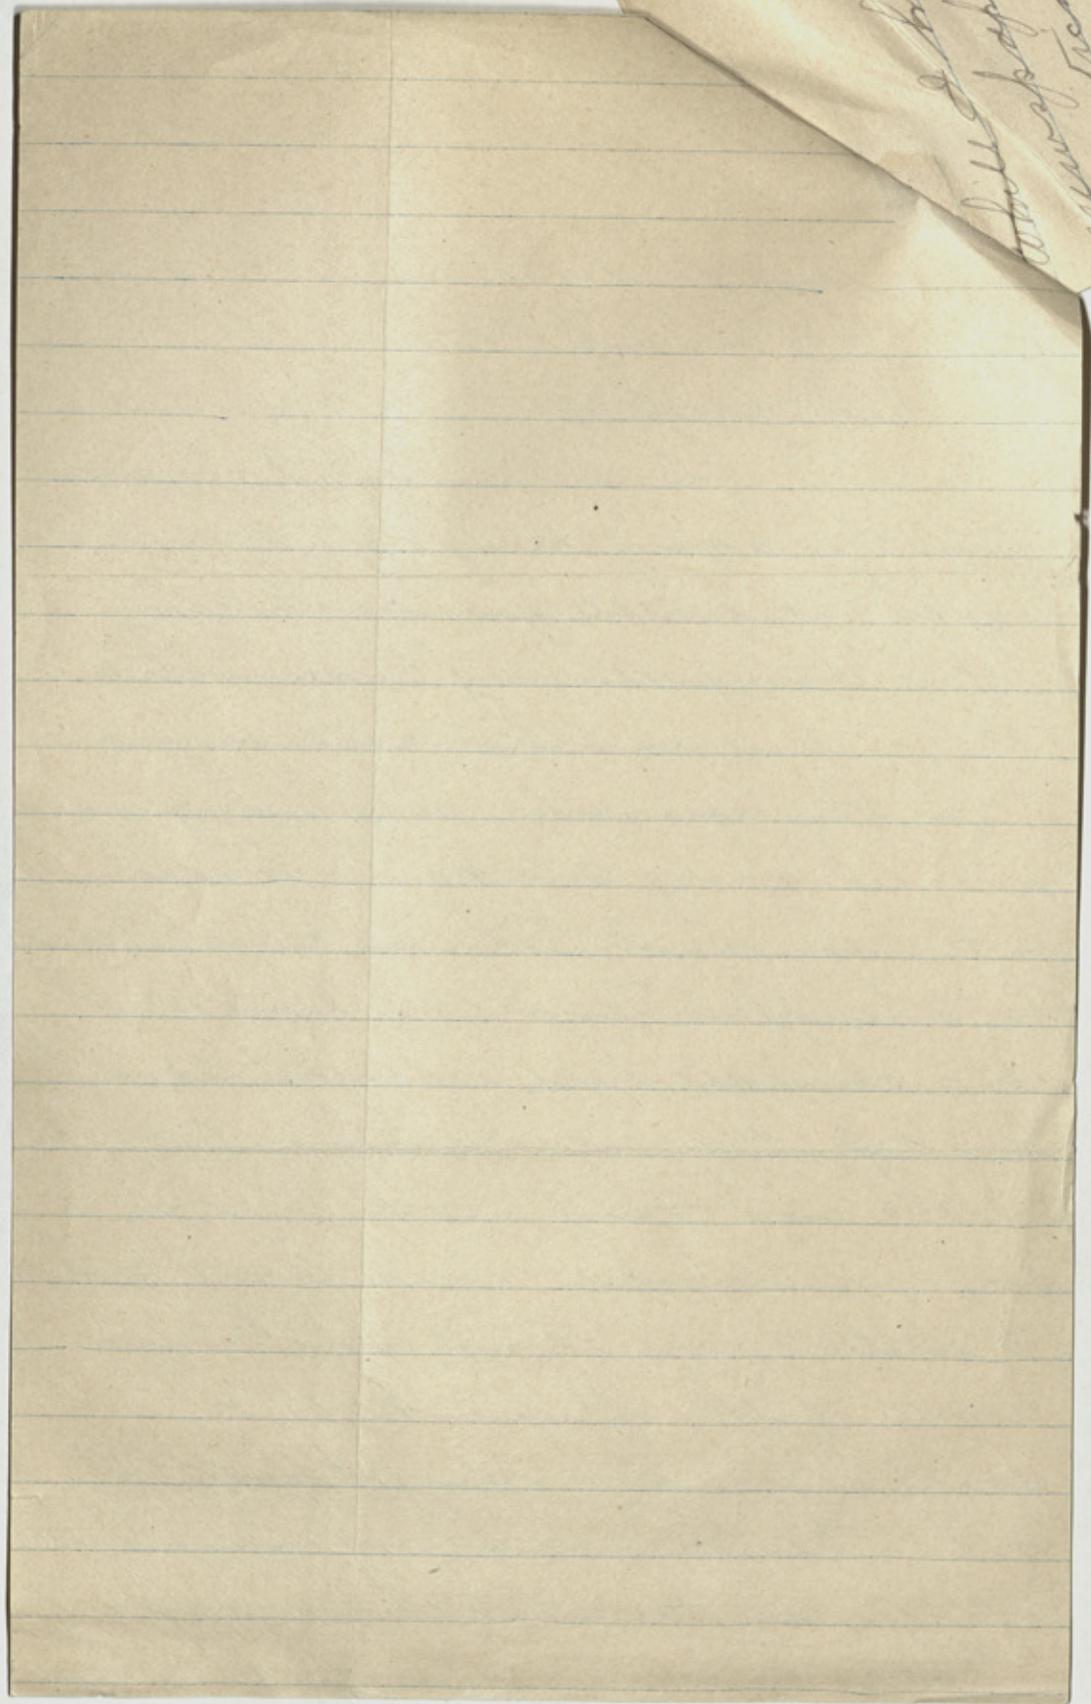

My wife was taken sick a year ago this summer and doctors advised going South, so I sailed out and went to Miss. and Tenn.

In Memphis, Tenn., doctors said this climate here might save her life. We have been here two weeks and I find work is my

sine, newspaper, over-done, and I write to you striking through some of the officiers here, or in some way, you might assist me.

The Commanding residing officier is Gen. Wheaton and Chief Quartermaster, Gen. Daudy.

While I have always been in the newspaper business, I have a practical business education.

There are so many visitors - health-seekers here, it is difficult to get employment and I doubt if I can succeed soon unless some other than my personal efforts are brought ^{to bear}, and I must get work soon as I've nearly exhausted all my means.

It may interest you to know that we brought suit for the California property. We gained the suit on first hearing and there is to be another trial in Dec. next. We were offered a compromise of \$20,000, but our lawyers advised us not to take it. Under present circumstances I would take it if I had chance to, as it may take along

to finally settle it.
Ex-Chief Justice McKimstry
is one of the attorneys and he
writes that we are sure to
win. Quaden, the main
witness for defense, died
this summer.

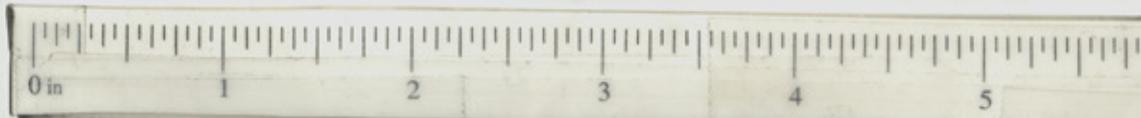

I only wish there was some
way I could realize on the
property now for it would
enable me to take advantage
of some sanitarium here for
my wife.

I am in hopes that
in some way you can as-
sist me in getting work.

Cas. Charles would, but he
is not acquainted with any
one here.

Eaton, Paul Weber

Washington, Nov. 28. 285
1892

Dear General:

Since writing you I have a letter of recommendation from one of the friends I mentioned who says of me, in part.

"Mr. Eaton is young, classically educated, has the breeding and instincts of a gentleman, was a good scholar, good writer, has good habits * * and I believe will prove an acquisition to it (the Service) in the position he seeks. I say this deliberately and on honor, after a service of over thirty years" &c.

I will send the letter with my application if you would like to see it all.

If you have handled as many business documents of Army officers as I have, you will remember the many serious errors which attention to business, and proper business qualifications would have obviated. Such

was Maj. Lydesdale's case which cost the District over \$1,000,000.

In that part of the War Dept. which has to do with the private affairs of officers, a number of cases came under my observation in a very short time, of moral obliquity, which would have been quite impossible in my case.

This shows, not that the Service is bad, but that it can be improved, and I think that I could serve creditably in every way.

Yours very sincerely

Paul Webster Eaton.

My Dear General,

I send you by mail today, the French book on Queen Isabella, which I mentioned to you while here. The two other books - Nervo's Isabelle la Catholique, and Don Clemencin's Dona Isabella - have not yet been found. As to the important Spanish work - Bernaldez Historia de los Reyes Catolicos / 2 vols. 4^{to} / - I wrote to Lieutenant Little to procure it at Madrid and to mail it either to you directly or send it to me here if he prefers it.

I would advise you to procure if you can, Mariana's Historia de Espana of which there is an English translation published at London in 1699. If you write to B.F.Stevens, 4 Trafalgar Square, London he will find it for you. I enclose herewith two letters addressed to you care of the Legation.

Seignaud, Henry.

Trusting that you are enjoying excellent health,
and placing myself at your command I remain,

Most truly and respectfully yours,

Henry Signaud

Secretary of Legation.

A. D. Worthington & Company

PUBLISHERS OF SUBSCRIPTION BOOKS.

Hartford, Conn. Nov. 30, 1892

Gen. O. O. Howard,
Governor's Island, New York.

Dear Sir:-

A newspaper paragraph announces the fact that you intend shortly to visit Spain for the purpose of collecting material for the life of Queen Isabella. Can we not arrange with you to furnish a few articles, descriptive of Spanish life and scenes, for our new magazine? We inclose an announcement recently sent to literary editors, which will give you an idea of its scope and character. It will be essentially a home magazine, and first-class in all its appointments. We would like a series of three or four, possibly more, articles from you on the subject mentioned, if they can be well illustrated. There would be no difficulty, we imagine, in procuring photographic material.

Rev. Dr. Clark, President of the United Society of Christian Endeavor, is now making a tour around the world, accompanied by his wife and he will furnish for our magazine a series of descriptive articles which will be very beautifully illustrated. We are to publish a book for him on his return, next year. You will see by the circular inclosed who some of the contributors are.

Will you kindly let us hear from you and say whether you think

favorably of our proposition, and if so, our Mr. Worthington will call upon you very soon and give you further details.

Believe us to remain

Yours very truly,

A. D. Worthington
