Your kind favor of May 19th is at hand. I regret very much that we are not to have you with us on Anniversary day. No one else would mean so much at such a time, and, as it is to be our 25th Anniversary with a review of the work with which you have had so much to do, it would be especially fitting and appropriate that you should have a large part in the services. I appreciate also the need there is that you should have care for your health.

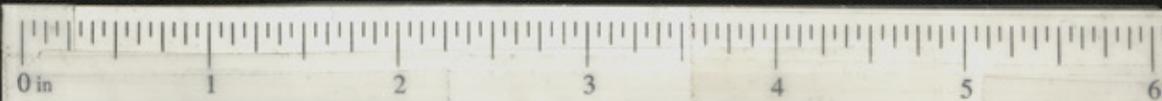

Please accept our thanks for your kind expressions of sympathy, which I have conveyed to Mrs. Armstrong and the young ladies.

In regard to an Apache student for an interpreter, I know of none that I can fully recommend. Robert McIntosh of San Carlos, has acted as interpreter at times. While he is generally reported as being good, we do not consider him one of our most reliable young men, and I would not be willing to recommend him to you for the position you speak of.

My dear General:

It is, I think, characteristic of most people, that they impose ~~on~~ their friends & try their patience more than they would upon those not their friends. I put off answering your letter acknowledging receipt of the mortgage wilfully knowing you would forgive the delay, as I was crowded with other work - I ask your pardon. I was quite certain that I put the note (original) for the \$3300 + odd inside the mortgage - if not please send me transcript of note as recorded or copied in body of mortgage and I will send another. It is very common in the west to paste a duplicate of the note, (which the mortgage is given to secure) into the mortgage over the place where it should be copied: - This is very bad form as the duplicate may be detached & validity of mortgage thereby made questionable.

[Faint, mirrored handwriting, likely bleed-through from the reverse side of the page. The text is illegible due to fading and mirroring.]

So if by chance you have one not
and that one is copied into body of
mortgage all is right. otherwise let
me know as I desire that all
shall be formal.

I have been so busy straightening
out old matters that I have had
no time to attend to my proper
business. Must make a change soon
and throw old things behind and
let them take care of themselves.
Have not heard from Harry yet.
Concerning the land scheme - Fruit
lands are going higher & higher not-
withstanding the financial depression.
Land I sold last year at \$100 per
acre is now actually selling at
\$200 + \$250 per acre, and hard to get.
I think the Worlds Fair is going
to hurt Oregon & Washngt. not less
than \$15,000,000, unless our visitors can
induce a great many people to come

here and settle. The Chinese expulsion
if carried out is going to hurt the
California fruit interests greatly, as
she employs 60000 Chinese in agriculture,
especially fruit culture. Oreg. & Wash.
will be advanced correspondingly as
we employ practically no Chinese,
and California will have to raise its
selling price of her fruit to pay
for the difference in cost of labor.
This will enable us to compete suc-
cessfully for markets.

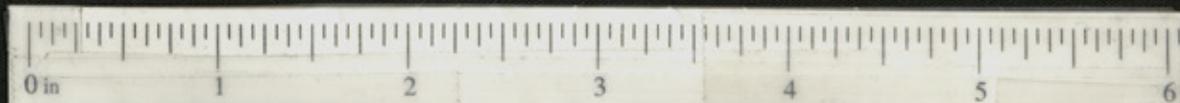

Pomato crop will be good this year.
Grass is quite well, but easily
trod. Children all going to school,
and fairly well. System of instruction
I think, imposes much unnecessary labor
upon them, too much detail continued after
knowledge of principal is acquired. ^{one} lot
across the street from Grass property in Rau-
cannon sold a short time ago for 1600 -
This would make her worth without improvements
not less than \$5700⁰⁰. I'm much here to
all. Sincerely yours
