Dear Father,

Dr. Pickett's family came all night, and stayed with their address. He came to answer a letter and we sent the thanks to him the same night for a thank note. The weather is cold at the face yesterday. I am glad...
he got the detail in he had said.

He talks a good deal about his
marriage and the wedding, just as
leaving off like if he will have to buy.

We are all well, I am so glad
the time of one day here is half
over, January being the day still
not yet back yet! It is hot invisible
like in Chicago!

When are you coming? Uncle
should reach the other day, you would
be here by the 28th of September, that
is still a good while off.

Jamie has gone to the lake. He
used to ride the bicycle on the road
opposite from the house. She
sends a kiss to Grandma. Write me
to Bemie and yourself.

Yours affectionately,

Dear General,

I received your message and deemed it important to yourself as well as Company's interests. I wired Mr. Nelson that you and self would call at his faculty School Church. The Reverend @ about 2 p.m. and return not later than from requesting a telegraphic reply not later than 10 a.m. To arrive morning up to 6 p.m. I have no reply which is postally caused by Mr. Nelson being away from faculty I stated in my Despatch. I wish such letters of the visit could be deferred to seem to understand the importance of our mission. He is not only a man after your own heart but of great influence and warm and strong in his friends for you was to have met him a year ago. I have no personal at hand in the premises as I have enjoyed his confidence and trade for 15 years past but I think it with 15 unordered arrangements he can benefit our Company Cherubino and Armstrong the better.

Dear General Howard,

I regret I was absent when you called. If you can, go to Washington this week. I think it will be best to go to New York, Philadelphia, Providence, and Washington. It is very hot here, and I think it would be best to go to Washington. 

The train departs from the main line at 3:30 p.m., and arrives at 5:15 p.m. After inspecting the schools, churches, etc., he will ask us to come to his house where the real work for me will begin. I must ask the State by telegraph whether this will suit you or not. After I hear from you, I can return same night or stay over and go to Baltimore. Washington of course

IRSH FRANCIS,

August 9th 1898.

Dear Mr. Francis,

I am writing this letter to inform you about the recent developments in our farm. The harvest is almost complete and we are expecting a good yield this year. The quality of the produce has been excellent, and we are confident that it will meet the demands of the market.

The weather has been favorable, with only a few days of rain, which has helped with the drying process. The crops have thrived under the warm sunshine.

I am enclosing a list of the produce we have, which includes:

- 1000 bushels of wheat
- 500 bushels of corn
- 2000 bushels of potatoes

We have also set aside a portion for our livestock, which will be fed on a controlled diet to ensure their health.

Please accept my gratitude for your continued support and cooperation. I look forward to your visit and your feedback on our produce.

Yours sincerely,

Dear Sir:-

When the writer called on you Monday you referred to a new book, of which we understand you are the author, entitled "The Christian Hero." We have thought since then that probably arrangements could be made through which we could sell it for you by subscription. We believe that by changing the title a little and pushing the work vigorously this fall a large sale could be effected. We should be glad to hear from you in regard to the matter.

If you have thought of any one else in connection with the history of the Congregational Church, we should be glad to have you make any further suggestions that you think will be of value to us.

Very respectfully,

J. A. Hill & Co.,

Dear Sirs:—

When we were writing you a few months ago, we understood you to have a new book on apple propagation and the culture of fruit," the publication of which we solicited your attention. We have now received a copy of this work,

which is most interesting and valuable. It is well

written, and the illustrations are very

clear and appropriate. We think it will be a

great help to all who are interested in fruit growing.

Dear General: Your kind letter received with picture of yourself which Ms. Kennedy is having framed to hang above the bed of our son. It is odd that you were writing of General Tyler when you received my letter. We thank you for your kindness and trouble.

Ms. Kennedy joins me in wishing that you may be spared many years of good health.

Very truly yours,

While temporarily in the City, I have been solicited to take a garrison of the "Regular Army stationed there." It will be composed largely of men who are versatile and civil life.

It is our practice, never to start a garrison near a military post within acquainting the Commander with the fact and to ask his approval, and with this object in view, it will afford our order a great pleasure to send a delegation to your head quarters at such time and place as you may direct.

My dear General

I have been to Bank to renew some Col. Me Lunevany the President wants to cut it down again $500 and interest which as the former loan would go out of my A/C in Bank and which I cannot afford while I have endorsed the Company paper with my individual name and gave it Mortgage to me as collateral yet I am not able to have this cut made now even if it must go by default Monday when it is due.

The President pleased the Directors as wicked partners and insist on this being sold and like all corporations and governments say never mind the previous good record which it is new etc. I think if you will be here either with or without me Saturday before 12 1/2 p.m. he will relent and cancel the note for sixty days I told time you gave me is nearly valid and long ago to help us along the in our Confederate Georgia and a financial
