Governor's Island.

Dear General:

Next Friday afternoon, in place of the lecture that was to have been delivered by General Stocum, we are to have a service commemorative of the hero. There will be several Generals present who will make brief addresses. If you could be present we should greatly appreciate the favor. You have already been so kind to us that we do not wish to unduly urge you in the matter. I am sure the children would be very glad to meet you again and there is no one that ~~that~~ we would prefer to have present on that occasion than yourself.

It has occurred to us that it would be very appropriate, at the

Reading the "Voice" today  
recalls to my mind something  
intended to years ago, but  
gl<sup>600</sup>ected, <sup>that is to say</sup> in 1861, I organized  
in this city the "Union Relief  
Association," for the purpose  
of looking after the troops  
marching through. I kept  
a record of the Regiments  
we tried to make comfortable  
by furnishing water and  
also food as far as our  
means would permit. That  
record after I joined the  
army was mislaid, but  
I remember a Col. Howard  
of a Maine Regiment I think  
he was) who refused to accept

anything until he saw his men  
sawed fir. I have often wondered  
whether you and the said  
Colonel are identical? Will  
you tell me? Do you remember  
your trip through Baltimore?

To the Regt I refer to, my wife  
aided by some of our neighbors  
near Camden Station after the  
Bro RR furnished Sawdust  
& Coffee and took many of  
the officers to a little house  
near by for a lunch. Do you  
recall such a meeting?

We are engaged in the same  
army again though fighting  
a different enemy. I hope we  
will be as successful as before.

I would like to hear from you.

Yours truly

# PREAMBLE.

WHEREAS, The evils of murderous competition; the supplanting of manual labor by machinery; the excessive Mongolian and Pauper immigration; the curse of alien landlordism; the exploitation by rent, profit and interest of the products of the toiler, has centralized the wealth of the Nation into the hands of the few, and placed the masses in a state of hopeless destitution.

We have only to look upon the history of the past—like causes produce like results. These same causes led to the downfall of Persia, Greece and conquering Rome. The end came when two per cent. of their population owned all the national wealth.

We have reached that point on our own road to ruin where three per cent. of the population own seventy-six per cent. of all the wealth. Witness the abandoning and selling of children by their parents in San Francisco, on the Western shore, and the protest against the slave traffic in children from Italy by New York, on the Eastern shore of our Nation.

This is one of the signs, history tells us, preceeded the downfall of all the past great Nations.

The daily grind of pinching poverty, linked with the thought of a hopeless future, kills even the deep maternal instinct. The greatest crime perpetrated by a Nation is to allow her people to be idle and sink into debauched servitude. The strange tragical questions confront us on every hand.

Why is it that those who produce food are hungry?

Why is it that those who make clothes are ragged?

Why is it that those who build palaces are houseless?

Why is it that those who do the Nation's work are forced to choose between beggary, crime or suicide, in a Nation that has fertile soil enough to produce plenty to feed and clothe the world; material enough to build palaces to house them all, and productive capacity, through labor-saving machinery, of forty thousand million man-power, and only sixty-five million souls to feed, clothe and shelter. Recognizing the fact that if we wish to escape the doom of the past civilization something must be done, and done quickly.

Therefore we, as patriotic American citizens, have organized ourselves into an Industrial Army, for the purpose of centralizing all the unemployed American citizens at the seat of Government (Washington, D. C.) and tender our services to feed, cloth and sheiter the Nation's needy, and to accomplish this end we make the following demands on the Government:

1st. Government employment for all her unemployed citizens.

2d. The prohibition of foreign immigration for ten years.

3d. That no alien be allowed to own real estate in the United States.

# CONSTITUTION.

So. Leeds Me. April 30,  
Gen. W. C. Howard

Dear Mr. Howard,  
The voters of South Leeds  
have purchased a  
national flag and  
it is to be placed on  
the school house May 10.  
I am teaching the school  
here so the programme  
of exercises falls to me  
and I am sure of  
your interest in the  
matter and knowing

how glad the people  
here would be to hear  
from you, I venture  
to ask you to write  
us a letter that shall  
be read on that occasion.

We do not have  
many public exercises  
in connection with  
our country schools  
and I would like  
to make this mean  
as much as possible  
to both old and young.

I should regard  
your letter as a personal  
favor, and I know it  
would give pleasure  
to the public to hear

from one whose early  
school days was spent  
here and who has given  
so many years of  
service under the  
flag.

Yours respectfully  
J. Jora Howard King
