I do not doubt that my timely recognition of that error saved many lives and may be a break in our hard pressed line.

2^d In the evening awhile before dark, my Captain was ordered to take his Co. to our left front, at the head of, and beyond, the ravine and make a charge. My tactical place in making the charge was in rear of the left center of the Co. but in the effort and excitement of urging on the men I got in front and after driving the Indians before us and to cover, I found myself as the twilight was failing, with one man on my right and two on my left, and the rest of the Co. well back and out of our view. A little later I missed the three men, who crawled back to the Co.

Then I heard voices 20 to 30 paces in my front. Some were squaws. They were talking in muffled tones and I plainly heard them piling up stone breastworks.

I called back to my Capt. to go and have the Howitzer fire a shell at a point

Captain W^m W. Wotherspoon - 12th Inf.

Aide-de-Camp -

Air:- Replying to your favor of 28th instant, I have the honor to furnish the following details of my part in the battle of Clearwater Idaho, July 11-12, 1877.

1. Very soon after the Indians opened fire my Company ("B" 21st Infantry, Commanded by Captain Jocelyn) was deployed as skirmishers with its right on the high bluff of the Clearwater. A deep ravine was in our front. I superintended the left of the line.

My Captain twice gave me peremptory orders to lie down instead of walking up and down the line.

After a time the Capt. and I noticed that

The Indians were coming up the bluff from the river and infiltrating our line, and getting to our rear which was guarded only by the river.

The Captain finally went to Headquarters and reported the facts, and soon after Captain M P Miller 4th Art. came out with his Company and posted it as skirmishers with its left on the river, and facing in the opposite direction to our front. The men were deployed

with pretty wide intervals thro' the grass and little hollows. They kept passing word along keeping in touch with me and each other.

Private Wickoff was killed near my right and others were injured. I was directed to go to Headquarters and get members of the Hospital Corps and also more ammunition.

While I was gone the men got to jumping up to look around, quickly dropping again.

Capt Miller's men took them for Indians and began to jump up and fire at them.

They thought Capt Miller's men were Indians and returned the fire. This was going on as I was returning to the open ground between the Cos Lt Peter Leary 4th Art. who was then acting as a c.s. I believe, thought they were all Indians or being driven by Indians from the river and ravines, and rushed out yelling "Packers to the rescue".

I fortunately realized at once the fatal error and rushed on past Lt Leary yelling "Cease firing - you are firing into your own men". In a little while order was restored but I was shocked to find between the two Cos Private Winters with a dreadfully shattered hip, and declaring over and over that "our own men did it".

I told him he should not say that as the bullets were coming like hail from every direction. (We were actually surrounded by the Indians.)

Encouragement I got the three or four
 Co^s formed. As an incident — away
 to the left I found the late Capt Haughey
 21st Inf and Lt Eltonhead lying down with
 a slight earthwork at their heads. I gave them
 the orders for their part of the line & I was
 standing up and they were forcibly ordering
 me to lie down as I would draw fire on
 us from a tree in their front. As we were
 speaking of it, there was a puff of smoke
 from the tree and a bullet struck the earthwork
 a few inches from Lt Eltonhead's head and about
 the same distance from my legs. I got down
 quickly and apologized heartily for having
 been so thoughtless.

During the final charge I urged
 men on according to their need by threats
 of shooting or by encouragement. I helped
 the late Capt Sinters 1st Cav. to get some of his
 men forward from behind trees in the ravine
 by throwing rocks at them! The living officers
 named and others are witness of most of
 these facts.

Very Respectfully
 J. Bailey
 1st Lieut 21st Infantry.

50 yards in front of ^{me} meaning the Howitzer
 on low ground to our left. The orders were
 evidently given to the howitzer on the hill
 directly behind me, for after awhile there
 was a flash and boom from that howitzer
 and I saw a blazing shell coming directly
 at me. I lay very low and it passed over
 me so near that I believe I could have
 reached it! It ploughed straight in front
 of me and exploded at the very point
 I desired. All sounds there ceased. Next
 day I saw ^{a dead} Indian there with a large three
 cornered hole in his forehead. After waiting
 some time for more sounds I called back
 for permission to join the Co. which was
 granted. Getting up and turning in a half

stooping position to go back, a gun flash
cast my shadow before and I seemed to
feel a bullet thro' my hair, tho' I think
it was merely close. I dropped and turned
and fired my rifle at the place of the
flash, and then drew my revolver and
waited. I heard no more. After firing
a time or two and waiting ten or fifteen
minutes I rejoined the Co. I had the
pleasure next day of hearing Lt Eltonhead
and others speak admiringly of that Charge.

3^d The morning of The 2^d day's
fight found Capt C F Humphrey (then 4th
Art. now a gnr.) and myself alone with
quite an extent of line to watch.

The officers had gone to Hdqrs for
something to eat. After polite urging
we "drew cuts" to decide which of us
should go first for the same purpose while
the other remained on the line. The firing

at this time was light, only two or three
bullets coming a minute along our front.

I won and went for my Coffee and bacon.
None of the officers were ready to go out
with me and as I was returning alone
Capt Evan Miles, Battalion Commander, asked
me to execute certain orders he had re-
ceived from Gen'l Howard. I said I would.

I relieved Capt Humphrey and walked
along the line to the left or from the river
visiting every pit and every man and
ordering the groups of two or more in
the pits to move out and along to the
right in proper skirmish line, as we
were soon to make a general Charge
(and, as it proved, a finely victorious one)
I had great difficulty in getting the men
to take and keep their places as an
occasional bullet would come and run
them back to the pits. By threats and

Sir:

In reply to your letter of May 26th stating that the Major General Commanding desires that I furnish a specific recital of the details connected with the act of Gallantry for which I recommended Lieut W. L. Bailey 2^d Infantry for promotion by brevet, I respectfully submit the following:

The action with the Indians at the Char-
coater Idaho took place of July 11th 1890 was
fought with the men under cover in the
tall grass and behind earth works and trees
Lieutenant Bailey exposed himself fearlessly
by moving up and down the line under
fire encouraging the men ^{of his Company} whilst downy

this Lieut Bailey discovered a movement of the enemy around the flank ~~which~~ he reported and when a little later our troops were under a misapprehension firing into their comrades it was Lieut Bailey who stopped the fire. Lieut B also did excellent service, charging at the head of his platoon, ^{and} when the men halted in the charge he was left in advance of the line, ^{there} discovering the fact that the enemy was erecting works within 50 or 60 yards of him he sent word to have ~~the point shelled~~ ^{shell fired in that direction} which was done with effect - checking the operations. This was during the fight of the 11th. On the 12th of July Lieutenant Bailey again exposed himself fearlessly encouraging his men, particularly in the final charge which resulted in driving the Indians from their lines and a victory for ~~us~~ us.

My dear General

I served in the Army of the Tennessee, from its organization, until it was mustered out of the Service.

Like many others I have a hobby, After compiling the History of my regiment, I hunted up, borrowed and had copied photos of each of the 91 officers that served in the regiment. I secured them all in eleven months, This led me into making a Collection of Portraits of all Iowa Generals, Colonels and Lieutenant-Colonels, of whom I now have 263, and need 39 others to complete the list. Among the latter, I wish one of Samuel L. Jaggart, Capt, and Asst. Adjt. Genl. Army of the Tennessee, Brig. Maj, and Lieut-Col. Vols.

I shall be very grateful, if You would loan me a photo of Col. J. to have a copy taken from it. I will take good care of it, and return just as soon as copied. Should You not have one, Please give me the address of some officer who was at Hd. Quarters, Army of the Tenn, with Col. Jaggart, and who may ^{have} his likeness.

Hoping that You will be pleased to grant my request I am General

Last morning I attended
 of R. exercises. the main feature
 which was an account of the
 great battle of Gettysburg by a
 participant. Rev Mr Green of
 Cl. I presume I have heard
 quite as vivid portrayal of the
 fighting &c. more than once,
 but his enthusiastic tribute to
 your sagacity, foresight, bravery &c
 quite won my heart, and filled
 me with a great desire to look
 into your face once more.

That desire culminated in a
 determination to write you a letter
 and tell you of this warm glowing
 tribute of praise. Hoping you
 will not think it an unwarrantable
 liberty on my part.

For many years now, you and
 our grand, noble Pops Fairchild

can each be enshrined in the hearts of both my husband and myself ^{as} and the two men whom above all other men we truly reverence, and as truly and devotedly love and esteem.

Our Fairchild pronounced the words that made us husband and wife and baptized our first-born son - deep and tender ties between us - while you many tokens of kindness and friendships endeared yourself ^{as} equally to us -

I want you to know that while life shall last you have no more loving or faithful friends in all the land than Mr Ellis and myself -

We have so appreciated all your goodness to us -

As you may know, Mr Ellis has been in Nebraska for nearly six months, and I have not seen him for that length of time, but I hope to see him within a month.

The Lord has seen fit to test us by many trying experiences of late - the hardest of which has been this long separation, but we are able to see his loving hand in it all, and realize that even our heaviest trials have brought us spiritual blessing, and so

we can truly thank him for
all his dealings with us -
If God permit, I plan to
join my husband in his
work in July -

Wishing that it were possible
to see you once more,
praying that God's richest
blessings may rest upon you
and all your faithful striving
I am now and ever,
lovingly and faithfully
yours friend.

at the convocation commencing Sunday
June the 3rd / 94 -

I am one like the impotent man
at the pool who for years desired to be put in
the water and be healed of all the people
he found none to help him

Such is my case to day broken down
in health impoverished in circumstances
I am unable to carry out my desire of
reformation as I would wish

I am a barber by trade to follow the
business I would be compelled to use
stimulants on the account of my nervous
and debilitated condition

There is only one other occupation
open to me that is Teaching primary School
being affected with Bronchitis my Throat
soon becomes irritated especially if I should
undertake to teach singing

Therefore I have for a long time
desired a Magic Lantern instrument that I
could show small panoramic scenes
among my colored race who would be
more benefited by such views that
occur from intemperance and drunk-
enness than they would be by lectures

That is in this section of the ^{less} country for the colored people are ^{less} intelligent and more susceptible unto the evil of intemperance in the south than they are in the northern states and especially South Florida

I have written unto other parties sometime ago failed to receive any ^{support} whatever I suppose they thought that I was some crank or an imposter trying to raise money in slang phrase trying to raise the wind

That is not my case for God knows there is not a man or woman actively engaged in the cause who has a deeper interest than I have and a ^{more} greater desire to do good unto suffering humanity and the cause of Christ

I am the youngest out of ten children my oldest Brother who is next to the oldest one of all was alive last November and living at 103 McDougal st New York city can testify that I am one who have been a periodical drunk ^{ard} upwards of forty years

could and would have been blessed with health and happiness only for the evil practice of intemperance and now when I would do good evil is present to

Prohibit my progress and hinder my usefulness in a cause that I feel to have as good if not the greatest right of any man living because I have lost my all except my soul which I feel at times to be quivering in the balance

I have just past my 54th - birth day on the 3rd day of April last should be according to the record of our family good for at least fifteen years yet I feel very much in doubt if three years from to day finds me a living mortal among men

After leaving the Soldiers Home Hampton-Vt- from a very severe attack of Rheumatism and inflammation of the lungs I was advised to come to Florida that was in the winter of 76 & 77-

I improved so much in a couple of years that I fancied myself well and to live an upright life I got married succeeded very well until the yellow fever broke out in Key West Fla- I became a refugee for Tampa on our way my wife step daughter and myself fell victims to the scourge

We all survived leaving my system in a very debilitated condition from which I never have recovered and feel myself to day failing causing me to set my house in order and leave a living testimony that all is well although a 11th hour candi

date

I arrived in Tampa seven years ago on
The 26th of July next The authorities ordered
all of my effects burnt up promising to
reimburse me for them but failed to do
it although they gave me a bed and something
near \$10-00 and a situation to teach a
primary school at \$25-00 ^{for six months} per month

Last October I was taken sick again
compelled to give ^{up} my little Business of Barber^{ing}
and sell out for four months I was con-
fined in my House although I am now
able to knock about I am unable to work
sufficient to be of very much benefit

I lost one of my little boys after
coming to Tampa from the Yellow Fever
I have three children of my own left the
oldest is his Thirteenth the youngest four
years old my step daughter is her sixteenth

Unfortunately is about to bring trouble
upon me in my straitened circumstances
which is a source of grief and distress &
my affliction nevertheless I strive to bear
with a Christians forbearance

I must state that I am in receipt
of a Pension of \$10-00 per month for all
of that I suffered this winter for nourishment
as well as medicine The times was not as
hard as in the north my health failing me
as well as my step son leaving me on
my bed of sickness to live with a prostitute

causing me to apply on the following Sunday unto a neighbor for something to eat for my family Thank God I have not had resource unto the same method since.

My little boy could not get any work. Blacking shoes is his occupation My family ~~and self~~ ~~are getting so bare of clothing~~ That it seems to me we will be an object for observation if I continue in this condition for a much longer time.

Therefore I am desirous of doing something whereby I can obtain a little help to lighten the burden of which my wife is failing under the heavy strain of providing and that only in part.

We have not any charitable societies or free institutions whatever in Tampa like there is in Northern cities and countries the sick and afflicted must be provided for by relatives friends or benevolent organisations.

I went to Key west with the express purpose of ^{re}uniting with the G. A. R. was compelled to leave before I could accomplish my intentions.

When you was here last winter I tried to get to see you before you went away to see if you could prevail upon congress to erect a National Home for such invalids can not stand the winters

Pilgrimage to Lowell's Return.

I may call myself a stranger in a strange land and far away from home my birth place is Philadelphia - P-A- partly raised near Princeton - N-J- where my parents hail from which makes my case worse having no kind folks

My reason for selecting you to write to at this time I was looking over the columns of last Sunday's World and seen the notice of your meeting of delegates on Sunday next June the 3rd

Also seeing the names of so many eminent I felt that you was the most prominent one to apply to because you having been a soldier yourself can sympathise with their needs as well as their failings

Hoping that you will excuse all mistakes of the rules of literature and remember my request and case unto those great lights and leaders of Temperance

Gen. O. O. Howard.

Dear Sir.

Please excuse the liberty I take in writing to you. You have addressed different Churches where I was present and this gives me the boldness to ask you a question. My boy (15 years) wants to join the navy he has studied electricity two years he would like to follow that if possible; he is determined to go I would give my consent, but I know so little about it.

Can you tell me what influences a boy has there? is he any more liable to get in bad company than in N. Y.?

He is a good boy now and a Christian Endeavor and God now I would like him to become a honest Christian man. You have a large experience both as a Christian and the life of some of these boys or men and the navy, therefore I will be very thankful for your advise. O, forgive an anxious mother for troubling you, who wants to do the best for her boy.

Yours with respect
