Rockton, Dec. 12, 1874

333

Dear Ben Howard,

I'm enclosing for your copy of Mr. Nashpy's 1874 Annual Report to the Trustees. The meeting was of unusual interest. The Southern men showed great sympathy and one of them introduced a resolution in favor of Mr. Nashpy and his associates and their.
approving of the school's methods with thanks to Robert Gross for this letter. Mr. J. C. Brandt of the Harvard School Chicago. I was elected a member of the Board from its beginning.

Mr. Hayne's name is very long and he is nearly short. This is a brief line of sympathy and approval from your friends. So much to help his friend. 

R. Goddard Dec. 13 78
To the Trustees of the Tuskegee Normal and Industrial Institute, 
Tuskegee, Alabama.

Gentlemen:

This report marks the closing of the thirteenth year of the history of the institution.

Beginning July 4th, 1881, without a dollar except an annual appropriation of $2,000 from the State for tuition, during the thirteen years there have come into our treasury, $421,955.42 in cash from all sources. Of this amount, $37,000 has come from the State, $3,162.50 from the Peabody Fund, $15,500 from the John P. Slater Fund, $51,450.91 from the students toward their expenses. The remainder, $312,842.01 has come in the form of gifts from individuals, organizations, concerts and the county of Macon.

During the thirteen years, the students have done labor for the institution to the value of $137,612.52.

Beginning in a small church and shanty with no property, the property of the institution, including land, buildings, livestock, outfit and apparatus, is now valued at $200,000 and there is no mortgage on any of it. In all the school owns 1510 acres of land. Counting large and small, there are thirty-one buildings used for class work, industrial training and dormitory purposes. There are 258 head of live-stock, consisting of horses, mules, cows, calves, hogs etc.

The first enrollment consisted of thirty students and one teacher. The enrollment for the present year is 790 students, and 43 instructors.

Including the present class, 166 have graduated and are do-
TO THE TRUSTEES OF THE TRUSTEE HOSPITAL AND INFIRMARY

Respectfully,

Gentlemen,

The report which has been made of the inspection

performed 14th Day of 1967, shows a general excellence in every

aspect of the hospital. The administration is efficient and

disbursements are accurate. Theוכל comes from the pledge for

renovation and the work has progressed in a satisfactory manner.

In summary, the hospital is in a better state of repair and

maintenance than it has been in recent years. The trustees have

made a significant investment in improvements and the results are

very gratifying.

Respectfully yours,

[Signature]

[Note: The text is readable and need not be transcribed.]
ing excellent work as teachers in the class room and as industrial teachers in other schools, farmers, mechanics, housekeepers etc. Besides at least 400 undergraduates are doing excellent work in the lines just mentioned. The demand for our graduates is usually greater than we can supply. There are no loafers to be found among those who have graduated at Tuskegee.

Since May 31st, 1893, the close of our last financial year, to May 31st, 1894, the income of the school from all sources has been $64,107. Of this amount, two-fifths have gone into the permanent plant, and three-fifths into the current expenses of the school. $8,911.28 has been paid in cash by the students toward their own expenses. $3,000 from the State, and the remainder has come from generous individuals and organizations. Students have done work to the value of $34,493.20 for this year.

The average salary paid the teachers is $395.53 per year.

In connection with the growth of the institution, it is encouraging to note the following: During last year, the John F. Board Slater Fund Trustees increased its appropriation to this school for the present year from $2,000 to $4,000. During the month of February, Dr. J. L. M. Curry, Chairman of the Educational Committee of the Slater Fund, in company with Dr. D.C. Gilman, the president of the Slater Trust, visited and thoroughly inspected the work of the school, and as a result of their visit and report, the Board has just notified us of its decision to increase the appropriation for the coming year to something over $6,000.

Phelps Hall, the beautiful and commodious building given by Mrs. Claris E. B. Stotes of New York City.
The Board of Trustees of the University of North Carolina at Chapel Hill, in accordance with the provisions of the Constitution and Statutes of the State of North Carolina, hereby announce that they have determined to make an appeal to the legislature of the State of North Carolina for an increase in the general fund for the year ending June 30, 1936, to provide necessary funds for the operation of the University.

The Board has carefully considered the financial condition of the University and has determined that the current budget of $1,500,000 is inadequate to meet the expenses of the coming year. Therefore, an increase of at least $500,000 is necessary to ensure the continued operation of the University.

The University has a long-standing tradition of excellence in education and research, and it is essential that this tradition be maintained. The Board of Trustees is committed to providing the necessary resources to ensure the success of the University.

The Board of Trustees humbly requests the support of the State of North Carolina in this important endeavor.

Sincerely,

[Signature]
Board of Trustees, University of North Carolina at Chapel Hill
Miss Olivia E.P. Stokes, of New York City, for Bible study, has been completed and furnished at a cost of about $12,000,—the whole expense being borne by Miss Stokes.

A lady who wishes to be known simply as an "Elderly Northern Friend" has given $2,000 toward a permanent fund of $10,000 to endow the Nurse-Training Department. $10,000 of this is invested in the Macon Co. Bank at 6% interest.

Following is an explanatory letter from the donor of this fund:

To the Trustees of The Tuskegee Normal and Industrial Institute,

Enclosed please find one thousand ($1,000) dollars toward the ten thousand ($10,000) dollars needed for the establishment of a Permanent Fund for the Nurse-Training Department of the Tuskegee Normal and Industrial Institute. This Fund to be designated as the "Lafayette Fund".

"One half of the annual interest on the above one thousand ($1,000) dollars,—and also, on whatever sums may be added to this "Lafayette Fund" from time to time by the present donor, or by other donor or donors, or by accrued interest, is not to be expended, but to be added to the principal, until the needed amount of ten thousand ($10,000) dollars, accrues.

"Meanwhile, the remaining one-half of the annual interest is to be used annually for the benefit of the Nurse-Training Department of the Tuskegee Normal and Industrial Institute."

"After the required sum of ten thousand ($10,000) dollars has accrued then the entire interest thereof, shall be used annually to defray the expenses of the Nurse-Training Department of the Tuskegee Normal and Industrial Institute."

"Or, at the discretion of the trustees of said Tuskegee Normal and Industrial Institute, part of the annual interest of this Lafayette Fund of ten thousand ($10,000) dollars, may be used for Hospital needs of said institute.

May 12th, 1895,

Miss Mary E. Berry, formerly of Macon Co. Ala., but now residing in New York City, has given the institution a deed to a plantation ten miles from Tuskegee that contains four hundred acres of land; has on it several buildings, including one brick building with nine rooms. The estate, with improvements is valued
at $10,000.

The Fund, $2,000, given some time ago by Miss Olivia B.P. Stokes, for investment,—the interest to be used in helping students having the Christian Ministry in view,—is invested as follows:

$1,200, temporarily invested in the supply farm, "Marshall" Farm; $800 lent to A.A. Torbert, for building.

A gentlemen and his wife, residing in Boston, who do not care to have their names made public, have established the "Dizer Fund", the object of which is described in the following letter:

"To the Trustees of the Tuskegee Normal and Industrial Institute, Tuskegee, Alabama.

I hereby donate to the trustees of the Tuskegee Normal and Industrial Institute, Tuskegee, Ala., ($1,500) One Thousand Five Hundred Dollars, to be known as the "Dizer Fund", and to be used by them in the following manner:

As fast as practicable, I desire the trustees to lend the above named amount to colored people in sums of $50. to $500. in a way to enable them to secure comfortable homes. In all cases where loans are made, I desire that the Tuskegee graduates or students be given the preference. The loans are to be secured by mortgage on the real estate, and the rate of interest charged is to be 5% per annum. It is my further wish that the trustees lend the money as to cause to be built in as many different communities at least one model Christian home.

The annual income from the Dizer Fund is to be used by the trustees of the Tuskegee Normal and Industrial Institute in any manner that they deem best for the benefit of the institution, and if at any time, in the judgment of the trustees the good of the institution requires it, they are at liberty to use the Dizer Fund for the immediate wants of the institution instead of in the manner specified in the foregoing".

At present this fund has all been loaned to graduates and others on the conditions named, and is accomplishing great good. It is early sought after by the graduates, and there are many applicants now waiting to secure a loan.

Miss Mary E. Stearns, of College Hill, Mass. has established
the "Henry L. Stearns" Scholarship, by the gift of one thousand dollars which has been invested at 6% interest.

A few years ago Rev. Frederick Frothingham, of Milton, Mass., who had been interested in this institution almost from its beginning, left by will $20,000 to the American Unitarian Association of Boston, the income of which was to be used for all time to promote education among the colored people. The American Unitarian Association, at a meeting last Fall, voted unanimously to give the income from the Frothingham Fund to this institution.

The $10,000 left the institution some time ago by the bequest of Mr. Horace Smith, of Springfield, Mass., was paid by the executors during the month of March.

Mr. A.H. Parker, of Brooklyn, N.Y., has recently given us a second mortgage for $1,000. The money, when collected, is to be used in erecting on the school grounds, a Model Home, to be occupied by the girls of the Senior class. The mortgage is at present in the hands of Mr. Parker, as a matter of convenience for collecting interest and principal.

Three new cottages for teachers' residences have been built on the school grounds during the past year.

In connection with our literary work, there are at present 22 industries in operation, which are as follows:

There has never been a year in the history of the school
for the promotion of national co-operation by the United States, and in the interest of international co-operation. A joint committee of the National and the American Association, the American Institute of Electrical Engineers, and the American Chemical Society, has been appointed to conduct the work of the campaign. The campaign will be conducted in cooperation with the American Association for the Advancement of Science, the American Institute of Electrical Engineers, and other organizations interested in the promotion of national co-operation.

The campaign will be conducted in cooperation with the American Association for the Advancement of Science, the American Institute of Electrical Engineers, and other organizations interested in the promotion of national co-operation.

In order to carry out the work of the campaign, it is necessary to secure the co-operation of all sections of the country. It is hoped that every section will make a generous contribution to the campaign. The campaign will be conducted in cooperation with the American Association for the Advancement of Science, the American Institute of Electrical Engineers, and other organizations interested in the promotion of national co-operation.

when so much improvement has been made in the teaching of the industries. Most of the industrial work now has as its foundation, a thorough course in mechanical and architectural drawing. The article to be manufactured in the shop is first drawn by the student and then manufactured in the shop. Every student now receives 3/4 of an hour each day bearing upon the principles and theory of his trade or industry, in addition to the practical work. This had greatly increased the interest of the student in the industrial work, as well as added to the value of the industrial work.

One of the greatest needs in the industrial work is more teaching force so that the Head of the department can have more time for planning, research and study.

The colored people throughout the country are beginning to demand in industrial education in a way that they have never done before. All of our industrial departments have been full, and many students refused for lack of room.

A large number of other schools and individuals are applying to this institution for information that will assist them in starting or improving any industrial department, and this furnishes another reason why everything at Tuskegee should be done in the best manner. In a word, an increasing number of institutions are using us as their model.

The Bible Training School, founded by Miss Olivia B.P. Stokes, of New York, about 18 months ago is meeting with very satisfactory success. The enrollment for the present year is 43. consisting mainly of ministers, or those intending to be ministers.
Perhaps the most interesting and unique feature of the Bible Training School is the fact that Theology in the usual sense is not taught, and the question of denominations is wholly ignored. The students, as a rule are about equally divided between the Baptists and Methodists, but other denominations are also represented.

The teaching, as far as possible, is confined to the simple truths of the English Bible. Special stress is laid upon having the students receive practical training in applied religion, especially in its relations to the industrial and moral needs of the masses of colored people in the "Black-Belt". The simple presentation of the abstract truths of the Bible, from the pulpit is not all that the masses of the people need. Not much religion can exist in a one-room cabin and in an empty stomach. The prospects now are that the attendance in this department will be greatly increased next year.

This institution, perhaps, never did a wiser or more helpful thing than when it inaugurated what is known all over the country as the "Tuskegee Negro Conference", which has now held three meeting, the objects of which have been the bringing together for a quiet conference, not the politicians, but the representatives of the hardworking farmers, mechanics, teachers and ministers, to find out the actual condition of the race industrially, educationally, morally and religiously, and to suggest remedies for present evils. The conference devotes itself, not to the discussion of wrongs perpetrated upon the race, but to the opportunities to better their condition.
the race's opportunities to better their condition. The good that these conferences are doing is very apparent.

Some of the most urgent needs of the school at present are closer attention to the improvement in matters that concern the minor and smaller details of the work in every respect; also during the coming school year much attention should be given to making the literary and normal work more thorough and effective.

A building to contain sleeping rooms for young men and recitation rooms is badly needed; also a chapel that can be used for large gatherings.

Greater efforts should be put forth in the future to securing an endowment fund, and upon which the school can rely, in a large measure for its income.

Boothe T. Washington.

Principal.
The need for opportunities to obtain more experience and grow in your employment. The goal of the work is not only to gain experience but also to prepare for future roles. The importance of gaining experience in different areas is crucial to your development. The more exposure you have, the better prepared you will be for any position.

Sir,

Permit me to return my thanks to you for your reply to my letter to Gen. Howard, I saw by papers he was to deliver an address in 3rd on the 3rd & 4th having impelled one to write to him. I have nothing to prove the truth of the claim when I repeated the cotton I made an effort to get it.
I was aware if I was not willing to give it up, one of Gen. Howard's A.G.C's replied the Gen. thought it possible for one to retain the cotton, a few days after said the cotton had been sent North by mistake.

The head clerk in my father's employ came to me, and told me the head reported all the cotton at Henry Lathrop & Chaplin's store, Gen. Congress & Whitaker Co. last belonging to Frank Lathrop of Northampton, Mass., is dead.

When claims were issued for claims to be made for property confiscated by the U.S.G my father always did, all money in the treasury immediately I (Ida M. Chaplin) reported the cotton to Gen. Howard as belonging to my father. When I heard about the money in the treasury for the cotton, I went to the clerk but he was too old, too old by grief at the death of an only son.

I went to the clerk but he was too old by grief at the death of an only son. I gave up any information, he has since passed away.

He was a loyalist, and perhaps could save the cotton.
information here though have been trying since last summer, at last decided to trouble Gen Howard as he had troubled one some years ago about the cotton. My brother is 73 years old, & I want her to enjoy the money in her declining years. I feel that Gen Howard's influence will enable her to recover it. I feel also that he will use that influence in obedience to His command, 'Bear ye one
mother's burden, if so fulfill
the Lord's choice,
again let me thank you for
your attention, i. f. at any time

To General Howard,

Dear Sir: Howard.

The annual encampment of the Co.

Soldiers will be held from July 29 to Aug. 5, at one time or other almost on this congregational day, in honor of our civil and military soldiers. Cities all over the state have accepted invitations to be with us on some of the days mentioned. I must go the 25th. At noon I have not as fully been considered that the invitation was not made by you. It would be a great pleasure to have you with us. If many of our old comrades are resident of the state and could be on hand for a brief period to greet you, we can assure you of an audience of from 1,000 to 2,000 of the best people in the state.

Yours truly,

E. R. Matteson

President.

Dear Sir:

The Citizens' Committee of Asbury Park, New Jersey, desire to extend to you a very cordial invitation to be present at the opening of the Tenth Annual Convention of the National Editorial Association on the morning of July 2, 1894.

In addition to the delegates to the National body there will be present about twenty State Press organizations, numbering in all some 15,000 people.

The Committee trusts that it may have the honor of your acceptance.

Very truly yours,

Secretary.
Dear Sir:

The Citizens' Committee of Asbury Park, New Jersey, desires to extend to you a very cordial invitation to be present at the opening of the Tenth Annual Convention of the National Agricultural Association on the morning of July 6, 1894.

In addition to the delegates to the National Pork sicher, we will be present about twenty State Press organizations, comprising in all above 500 people.

The Committee hopes that it may have the honor of your society.

Very truly yours,

Secretary.
Major General O. O. Howard,
Governors Island New York,

Dear Sir:—

I would very much like to have the privilege of calling upon you in the near future relative to a tour of lectures in this country and possibly Europe after your active service is ended. I think I could suggest new and novel features that would be very much to your liking and that the tour would be conducted upon a plane high in tone and to your thorough satisfaction.

I conceived the idea of the great Silver Statue for the state of Mon, and it is today the most widely advertised thing on earth and has been the only thing out of the millions of exhibits at the Worlds Fair that has kept right on after the Exposition was closed drawing thousands to see it and advertising the state more widely than any or all other of the states were, I have made considerable money out of the enterprise and could carry out any contract I would make with you to the letter,
Montana Silver Spur Co.

Date: January 1, 1923

Dear Sir:

I want very much to have the privilege of seeing

you now in the near future. I write to that end.

You are aware that your company's services are

essential to our work, and I am eager to learn

more about your intentions.

I think I may suggest that you consider this letter

as a formal request for your assistance. I am

ready to discuss any matters that may arise.

Thank you for your generosity and cooperation.

Yours truly,

[Signature]
I had thought of getting letters of introduction to you but believe that it would be better to see you first and then if any references were needed to get them as I can in profusion.

Business will call me to New York in a few days and I am inclined to think that if you will receive me for a hearing as to my plans they would be at least novel and original enough to make the time spent in hearing them not wasted, hoping to hear from you, I have the honor to remain,

very truly yours,

J. D. Higbee
Montana Steel Company

CHIEF ACCOUNTANT MANAGER

I am sorry to be writing to you under the circumstances of your position. I have no reason to think that you will receive me for a position on your staff. I am in the hope that you will accept the position and take the necessary steps to make the proper arrangements for serving your office. I am sure that you will do your utmost to assist me, and I have the honor to remain,

Yours truly,

Dear Mr. Howard,

We should be glad to have you speak again in the fall for us. Please let me know if you can and when you might come between Oct. 1st and Jan. 1st. I want to have a meeting of 700 or 900 when you come again. Please let me hear from you.

Sincerely yours,

Chas. H. Harrington

Genl Ol Howard,
My City

Dear Genl Howard

A number of prominent
friends of the Indian at
New York, decided to
issue a protest against the
abolishment of the Board of
Indian Commissioners, a copy
of the protest is enclosed.

Your signature is earnestly
desired, and its prompt return
would be greatly appreciated.

It is expected to procure the
signatures of the Secretaries
of the Home Missions of the
different Churches and of a few
representative men so as to
give the protest the greatest possible
weight.

Very truly yours,

To my dear friend, Mr. Cadell:

I am writing to inform you of the sad news that Mr. Howard, a dear friend of mine, has passed away. I am enclosing some of his belongings, which I believe may comfort you in your time of grief.

Please accept my deepest condolences on the loss of a dear friend and colleague. Mr. Howard was not only a respected member of our community, but also a mentor and confidante to many.

I hope that these small tokens will serve as a reminder of his kindness and the joy he brought to all who knew him.

Yours sincerely,

My dear General,

Before you leave Governor Island, I want to have part of a boy with you to go over your Indian experiences in Arizona.

As I have already written you, I think I propose to write a piece of history of that country or a history from the time of the American occupation.

The material which I have accumulated is extensive, but I should prefer to receive direct from you a better account.
than dare home of your mission
to Cochise, and the results knew

Gen. O. C. Howard,
Governor's Island, N. Y.

Dear General:—

The matter of the Association Day at Chautauqua was placed in my hands some weeks ago. I am glad to inform you that arrangements are now complete, and that the prospects are good for a time of special blessing, and opportunity for disseminating broad views regarding our work among a large number of people. The plans regarding these are as follows: On Saturday evening, July 21st, a public reception is to be tendered to yourself and ex-Governor Beaver, who is to be one of the speakers on Sunday; On Sunday morning, Rev. Dr. Faunce will preach the Association sermon; on Sunday afternoon, a large popular mass meeting will be held in the Auditorium, at which you will give the principal address. Mr. Henry Bond of Buffalo— a prominent business man, will make a few remarks. The meeting will be presided over by Mr. Hurlburt—State Secretary of Pennsylvania; On Sunday evening at Vesper time, we are to have a Young Men's Devotional Meeting, and at 7.45 a platform meeting with an address by ex-Governor Beaver.

We believe that the day will be of great service to our movement, and are very happy indeed to have been able to announce your name. I shall take pleasure in calling on you within the next week or so, conferring with you further regarding the occasion.

Yours very sincerely,

Major Gen. C.C. Howard.

My dear and honored Sir,

We are about to issue our new circular and I write to ask if you could kindly allow the use of your name as one of our references.

We are thoroughly endorsed by Dr. J. W. Mitchell as well as by those whose names are in our
All your dear friends send their kind regards and thoughts.

We are all four well, and in good spirits.

Tell Laura to give our love to all her friends.

Circular, many of whom I presume are known to you. Alice Mitchell is to be a nurse this fall when the school year begins.

And I am writing to you from New Haven. She is in much better health than when she came to us last autumn. We hope she may return for another year of study. I am with the need of her further to accomplish any good and lasting work.

With love to you. Your affectionate,

S. C. Howard, U. S. A.
Governor's Island, N. Y.

Yours of the 23rd acknowledged in receipt of mine of the 6th of May, 1894, reached me on the 11th of June. The photo came to hand on the 14th with thanks.

I am as ever my delight, cultivating and enjoying the fruits, flowers and foliage of the garden orchard and vineyard. I am a busy worker in hand and foot, I now times are idle from in all my life. My mind, manner and every motion are in tune. I use to season, day that hour devoted. I am most kind when gardening or fruit raising. I think I was born in a garden, and I am a rose and always on the rise with the Sun. Holy we build a secret counsel whilst the children of darkness sleep. Everything grows upward for one, even potatoes. General, my best letters were essence from soil in garden. My mother was a good gardener herbal and floral. She and I knew beans when they were married with sensible names. I used to give her the Latin names for them, she generally said, "Ow!"
The Indians tell me that the waters are "kie-ya," and the "Salmon Checo;" Got the "Rotons Matawa Cova Cheekie"-hale houses, hale canoe, hale o-hutu. I think they mean to say that the Columbia river has got on the sour trail and houses and farms and towns washed away. My garden is all right so are my potatoes. It is now a question of roads and bridges. How are they? How is it in New York and our in "Old York"? I'd like a canoe several. This is going to be a war on the waters. A Sky man and woman for salmon—and brave their spirits steady. Thermometer ranged from 88 to 99° in the shade for two weeks in May, then came a summer storm, and more hotter than Brickinridge. My garden is all cool under the burning sun. I have a suspicion that the solar orb is firing the boys out. You see the Church pictures make a mean black on Jesus' head and put a woman's face on him; then being the Sun, at Concord and Hardwick, and all for the benefit of Rome. Pious and Religion. My garden never had a subject in it—all its fruit are choice. My people who gave me spirit thought devil in Celestine. The son of earth had my body carry by giving me poor wine. I soon made my own wine and grew my own grapes of the most dearest kind.
You will doubtless be surprised at the tone of this letter. So am I. The spirit in control of me is a man named at the table. I think it is Deacon.

Had a terrible, electric storm three weeks ago and a great flood in the Okanogan. Lost all my friends and horses, town, town, and capital. My garden has more tomatoes and potatoes growing than Adam ever dreamed of, or Cleveland ever knows.

How are you on U. P. Stock? I am now. I am trying to connect the line with Seattle and Silverton. Jay and I are good. I think I am. I am trying to get this line going with John Jay and I am tapping on Frank Marion's gold mines in Georgia, Okanogan. Smith is not happy. The telephone company notices will build a whole new system in more time than anyone ever thought of. That is, if John Howard will not prompt from a metaphor "Swain, Swiss, Brunswik, and Chaldean—all one man." Courage, Howard, Courage. Remember Zion?

Conscious in the multitude of purposes, original in the conception of things as they are, and apt to act quickly in an emergency. I am determined to mind the temple, not take away the ideal, and enforce Amos V. Chapter 5, verse 10. It is some consolation to know that Gricca was the templar...
I was sixty years of age on the Eighteenth day of May Eighteen Hundred and Ninety-four. I was born on a White Sunday—hence the name Ammon Corsica—a 3d Can Compromise the Black Red Popes Essay on War.

In case this letter should find you on the battlefield—read it to your wife after victory.

Chief Moses was in white shirt sleeves and wore a hat with four silver stars—when I saluted him the cavalry. Chief Joseph was in frock coat shirt—and in near head-platted hair certified with yellow ribbon.

The crowd up to one and we counselled a Sc-wip-hir act. No more foolishness allowed. I witnessed all drills and heard no voice of command. Silent eye movement—Sudden Spring and swift dart to weapons in sight. I saw over 500 men and women in one race. An old Umatilla Chief and I and four Indian maidens occupied the house.

In case of emergency—I am trained—Conrad-Chimer. I will protect General Marion and Commandery. The insults of civics and the degradation of the Aboriginal race in America my people give cause we will fight our enemies with fire from Heaven and floods from Earth. Our gardens are many our fishes and leaves more than 100 kinds.
Whenever our mothers, sisters and daughters are insulted, imprisoned, and defied, by an English court practice, it is time to close out the courts, hang a few lawyers. You see General, I get a mad on every time I visit the word English. It means our doom. The Greeks had their Spartans and the English have their Indians to contend with. It is not a name, any people worship—It is a feeling in air, in people. If I was not your friend, could I write thus for us? What is electricity but life in air? But Light in Space. What is magnetism but love of heat sincere from Sun in Space? Virtue, Everything has an affinity. Only kind creatures have affection. Will, pride in this letter, why? It is in the physical action and Sorcery from Khrista—or the Commander of the Solar System of Magnetic, can to influence through a wired instrument as he complex London electrified by the great and glorious, travels around the last forty years to honor Jesus as our Lord Christ. His commander in the Senate LXXI Isaiah which Jesus quoted when the slaves branded him a mock to read. The prophet General, if you are on the war trail, remember when this you see, Frank Marion.

Oroville, Okanogan County, Washington
Chicago, June 15th, 1894

General O. O. Howard,
Governors Island, New York City.

Dear Brother:

I found Burt at Glencoe on reaching home that evening you left. He had come in in the morning and seen cousin Arthur, but the latter supposing we had met him at the train, did not think to mention it to you and me. Burt passed us on the way from Glencoe. It seems he left your ticket addressed to Crowell, Y. M. C. A. rooms, Niagara Falls, just as you had directed us. I trust you got it all right. Would like to hear about your meeting there, its success, etc. I feel very thankful for your little visit, and trust you will never enter the State of Illinois without spending at least one night with us.

I have been reflecting more upon the subject of Chancey's proposed business. I am inclined to think he will make a success of it. One of the elements of success is an honest purpose, another is agreeable manners, another is an unquestionably good temper, another is an intelligent comprehension of the business and the advantages of advertising. Chancey will have all these. If he should prove to be a little too modest sometimes, that is a
quality that he will probably outgrow, and indeed it is a fair question whether it is not better than too much cheek. It is certainly better than any evident vanity and too much self-assertion. To test my sincerity and my estimate of Chancey's qualifications, I will propose that we will give him from this time forward 25% on any advertising he will send us; that is the largest commission we pay to anyone. I think he can go right out in New York City and make a fair compensation even with our paper alone at least for a season, but there would be nothing to hinder his working the other papers with it and I presume none of the other papers would object to his doing what he saw fit to do on commission, provided he works on commission with them, but if they pay him a salary they may object after he commences with them, under a salary, to his working on commission for us. If he concludes to try to do anything I will give him a list of advertisers whom we would like to have him visit.

Affectionately yours,

Genl. O. O. Howard,
Governor's Island, N. Y.

My Dear General:

Your letter of May 11th. came duly to hand and has had my careful attention. I am afraid that I did not make my last letter quite clear upon one or two points, because you seem to have misunderstood one or two of them. After conferring with Mr Muller, I received the enclosed letter from him, which will perhaps state more clearly the actual state of the present standing of this property, as regards title &c., and will also clear away the idea that the Road is in any way interested in securing the property to itself. The Canal Co. did send out a man, but the Canal and R. R. Companies are two separate and individual concerns when it comes to any questions about lands.

The steps that Mr Muller took were made necessary on account of the laws of this country, which state that property denoted and remaining unimproved for a certain space of time, or remaining idle for two years, also upon which the taxes are allowed to lapse, revert to the Government with all their improvements &c. From this you will see that Mr Temple's title has been lost on all three of these points; but through Mr Muller's action (if he is success-
Dear Governor: I am enclosing my letter of May 17th. I have only to say and I am not sure of the last letter which you may or may not have received. Since then I have not heard from you nor have I received a letter from you. In your letter of May 17th, I mention the matter of the property which I have offered to you for the use of the government. In your letter of May 17th, you indicate your desire to have the property for the use of the government. In your letter of May 17th, I mention the matter of the property which I have offered to you for the use of the government.

The above facts have not been fully explained in my letter of May 17th. In your letter of May 17th, you indicate your desire to have the property for the use of the government. In your letter of May 17th, I mention the matter of the property which I have offered to you for the use of the government.

Please let me know if you agree to have the property for the use of the government. In your letter of May 17th, I mention the matter of the property which I have offered to you for the use of the government.

Yours truly,

[Signature]
ful, and I see no reason to fear that these lands and their valuable deposits will be secured to the heirs of Mr. Temple, through you as their representative. Mr Muller says that there will be some slight expense, a few dollars, but just how much he is as yet unable to state. He is going up to the States in August, and I will then give him a letter of introduction to you and he can tell you fully anything that I may have overlooked in my letters to you.

There are no new phases of the question to report, as the matter will remain in statu quo until Mr Muller hears from the seat of Government in Bogota (and as you have passed some time in Spanish countries you will know that such things generally take time).

If an answer comes before Mr M. starts for the States I will write you its nature and what further steps are taken, based upon it. In the meantime if I can be of any service at all you know that I will gladly respond to any call.

With kindest regards to your goodself and all under your roof.

Sincerely yours,

[Signature]

PS: You are to retain Mr Muller's letter as it will be better to place it among those papers which you now have.
...

I am sorry there are no reasons for your trip will not be on these lines.

and their valuable properties will be measured to the patient. Mr. Miller says the

poor thorners you as their representatives.

I will now go to the State in

Calon, 15th June 1894.

Dear Gazzam Ege.

I am pleased to hear from you. It seems that you have not quite understood what has occurred regarding the Rio Inclio mines, and which is as follows:

When I inquired at Government offices in Panama about some leases held that Allan George Stupple's ownership of them had been forfeited and I apprised you accordingly at the time. A short time afterwards a change party was recommended to me in order to obtain information regarding these necessary to facilitate & obtain the possession of lands, which I soon found out were these very mines and during the same week it came to my notice that a company of several Iroquois residents of the Stupple was being formed also with the object of applying for
these mines. In view of this and knowing that the mines were of value, I decided to make good of my friendly connections with the government at Panama and to apply for them for myself rather than see other people secure them.

I consequently made the necessary application, which has been forwarded by the Governor of Panama to Bogotá for approval and I currently expect a favorable decision. As my first interference in that matter originates from the steps I took in behalf of General Howard I consider it my duty first to place my right to these mines at the entire disposal of this gentleman and if he should decide to abandon his project then I will act for my sole account.

Yours truly,
