My dear General:

Your letter of recent date in reference to the Chautauqua engagement came some days ago during my absence. The decision to which you have come is a source of great regret to us. The Chautauqua Management have advertised your coming, and the Association bulletins throughout the State have also given prominence to the programme as we have laid it out. I sincerely wish (as does Dr. Warner—our Chairman) that you could see your way clear to aid us in carrying out the programme as arranged. At this late date it will be exceedingly difficult to fill your place for the afternoon address. We are unable to offer any remuneration for the reason that we have no resources, the Chautauqua Management simply allowing us enough to cover the railroad and hotel expenses of those who speak; and as you can readily understand, that is no direct return to the State Committee. Our only purpose in accepting the invitation of the Chautauqua Management to arrange for an Association Day, was that we might thereby aid in extending in a very general way information regarding the Association and its work. Chautauqua, as you know has a representation of people from all parts of the eastern and central states, and I believe good could be done to the work throughout the country although the direct return to us would be very slight. Dr. Warner, with whom I have just conversed, regarding this matter, joins me in the hope that you may be able to be with us on July 22nd. I called at Governor's Island this morning to see you, but regret that I have to write instead. Trust to receive a favorable reply.

Yours very sincerely,

Your letter of recent date is referred to the Committee on Publicity and Marketing. The committee of which you are a part have expressed the opinion that the Association could benefit from a reorganization of the entire organization.

You have expressed your desire to know more about the association and its activities. I am happy to hear that you are interested in furthering the work of the association.

As you may recall, the Association was formed in order to promote the interest and development of the outdoor recreation movement. It has since grown in size and activity, and now has a membership of several thousand. The committee has been working hard to bring about a reorganization of the association that will better serve the needs of its members.

I am confident that with your support and involvement, we will be able to achieve this goal. If you have any questions or concerns, please do not hesitate to contact me.

Sincerely,

My dear Sir:

Yours of the 22nd inst. is at hand. I thank you very much for your prompt reply to my letter of the 21st inst., regarding the sociological talks contemplated at the Brooklyn Association. I am very glad we have some of the "old fashioned" ones left, and that you happen to be one of them. Perhaps some of us younger fellows may think you a little bit too conservative, but perhaps you are conservative in the right direction. Do not understand that we have decided on the innovation, for it is an innovation in Association work, to discuss such matters from our platform on Sunday, but we are merely getting the consensus of opinion of the most faithful friends of the Association. We are very much obliged to you for your opinion and it will not doubt have weight with our management in finally deciding the matter.

Yours sincerely,

W. L. Ammon 90

Dear General United States Army

Honorable Leland, N.Y.

My dear Sir:

You are one of the 143d Letter of the field. I thank you very much for your kind offer and cordiality to my letter of the 11th instant. The importance of the Association to me and to the larger body of the Brethren is of the utmost importance. I am very glad we have some of the "old tradition" of our kindness. Perhaps some of our younger fellows may think you a little bit too conservative, but perhaps you are conservative in the right direction. Do not be impatient with us regarding our "inconsistencies." For it is on the one hand, that we have no regimental or any other conscription at all, and on the other, that we have, for the most part, National, if not national, conscription. We are very much obliged to you for your opinion, and I will not go on.

Yours sincerely,

Dear Mr. Howard,

Being skilled as an expert accountant by years of systematic and practical training as a Chartered Accountant in England and since then having practised with success in this city from 1883 (eleven years) as a Public Accountant, I can assure you the prompt, accurate and expeditious adjustment of all matters relating to books and accounts.

Allow me to call your attention to the enclosed memorandum and card stating terms.

Yours respectfully,

The planning of Books and Accounts so that they shall be adapted to the requirements of any particular business, and so that, with the least amount of labor, they shall show the working of the various departments of the business and everything requisite for its advantageous conduct; including (where desirable) books of a private nature for the use of principals and their confidants, recording the increase or decrease of Capital, profit and loss, etc.

The critical examination and auditing of books. Systematic audit at frequent and uncertain intervals prevents or detects errors, cash irregularities, false and hidden entries, etc. An audit by an independent expert is systematic and thorough. Taking nothing for granted, it verifies everything, and is both a satisfaction and safeguard, as well to those in charge of the cash and accounts, as to those most interested in the profits. The organizing and taking charge of the Books of Estates in legal form; and also making schedules and accountings for Administrators, Executors and Trustees, and for Assignees to file in the Surrogate, and other Courts.

The investigating and adjusting of Books and Accounts, when the results shown seem suspicious, or when complicated through incompetence, carelessness or fraud.

The examining and reporting upon statements and conditions set forth in proposals or prospectuses of commercial, manufacturing, financial and other undertakings.

The preparation of Balance sheets, and Trading, and Profit and Loss Accounts, with due care that provision be made, or has been made, at the end of each fiscal year, for depreciations, renewals, discounts, drawbacks, doubtful debts and other contingencies, and that the accounts comply with the requirements of partnership agreements, Corporation acts, etc., preparatory to determining the net profits for the period.

The arranging and adjusting of Books and Accounts on the formation or dissolution of Partnerships, on Joint Ventures, Arbitrations, or any other form of agreement.

The ascertaining or verifying the facts in disputed questions, the elucidating of facts from Books and Accounts in the settlement of questions of law, where accounts are involved.

The examination and statement of the accounts of insolvent businesses; and the preparation of statements of affairs, and deficiency accounts, for the purpose of displaying the condition of the estate, so that creditors may be guided thereby in the determination of their interests.

Dear Sir,

It will be a great favor
if you will write me something of the
Christian men you have known
in the Regular Army. There is
a general impression that the
West Point men, coming as they do,
are many of them not thus, &
that the influence does not foster
Christian life; but if on the
other hand, one is a Christian,

My dear Howard,

Many years ago we had differences very unpleasant, and those few unpleasant memories.

And years I harbored resentful feelings in consequence — But I have thrown better of all that — You and I are to leave active service soon, and why should we not leave it friends? 

Obtaining both were a little at fault for all the trouble that arose — I have laid aside all making feelings arising from us differences, and I want you with the same — And I exerted myself through the peace that God gives us the beauty of kind thoughts and good fellowship,

Very friendly & truly,

Dear General,

The remittance check of the St. Michael Society, called in reference to the unveiling of the colossal cannon, Sept 17th, and the general wish for your presence at the ceremony.
Permit me to also add our hope that your engagements will permit this. It will be a gratification to your many friends of the Army and of the War.

Always Yours sincerely,

My dear Genl. Howard:

In several occasions during past years in our personal interviews, you have kindly referred to the possibility of a star falling upon my shoulder before I passed from the active list of the Army.

Within the next fifteen months, there will be three vacancies among the General Officers in command of troops and I am thinking of asking that my name may be considered.
For one of the appointments to be made.

I have had service with troops, my career has been I think without reproach and I enclose herewith a statement of my military record, with respect, that if consistent with your views, you will send me a short autographed letter, addressed to the President and request me to write to the President was receive

mending me for promotion to the rank of Brig. Genl.

Of the old officers of the army, now on the active list, there are only from fifty to sixty who entered the service before I did and of those nearly two thirds are Staff Officers or Officers of Staff Corps or Departments. Based upon an acquaintance of over a third of a century, I venture to make this request.

Yours very sincerely,

Dear General,

After I left you yesterday I thought over what you said to me.

Once you can imagine how thankful I feel to God for directing you to me to help me, and for his puttingizing your heart to do so, as a Christian helping another Christian.

I am sorry I could not make myself useful to you in your Son's advancement from a Business standpoint.

I know what my trouble has been when I called on Business people to put money in this Business, they would want me to show them a revenue from the Business, or that we were manufacturing and selling an appliance and that
and that there was a demand for the application
that there was a demand
for 60 and was our Manufactory.
But I was looking for means to l
ay to the market. As well if
the thing is so good why have you not
done something with it. But notwithstanding
my printing and Enterprises
which have had the same as aid
as travel for instance Telephone,
telegraph, Elevator & R. C. Etc.
The former was four years getting on
the market, but one of this period
has no effect on the Business
Man or Man of Gold. The Business
was not established and could
only be established in getting the
goods on the market, which until
I hope to do in a few weeks.

Do not think you need be the
least uneasy other parties about the
money you advanced me for the same
hearty father who guided me to give
will I feel confident to direct any
way that I have been able to repay
you the money at the same appointment
just not his kindness. But I hope to be
as some was useful to you only being
to reciprocate the kindness I hope
your may have our enjoyable accommodation
come back superior in both body and heart.
I send our Pastor word he was not well.
May God bless both of you and bring you all the joy that your hearts wish.

May in Christian faith and love

Headquarters of the Army,

ADJUTANT GENERAL'S OFFICE,

Washington, June 26, 1894.

Major General O. O. Howard,
Governor's Island, N.Y.

Sir:—

Referring to your recommendation of May 8, 1890, for a brevet for 2d Lieutenant Guy Howard, 12th Infantry, for gallant service in action against hostile Nez Perce Indians during the action of Camas Meadows, Idaho, August 20, 1877, etc.; I have the honor to inform you that the Major General Commanding the Army desires you to furnish this office with a specific recital of the details connected with an act of gallant service on the part of Lieutenant Howard in that action.

Very respectfully,
