General O. O. Howard,

Governor's Island, N. Y.

Dear Sir:-

Lieut. Geo. W. Quinby writes to ascertain from me some dates as to his leaving the Army of the Tennessee at Goldsboro, N. C., and going down to Beaufort, S. C., when he was appointed a lieutenant in my regiment. I secured two lieutenants from your army at the time I visited you. Can you fix that date? I think they were probably ordered to report to me. Lieutenants Bedoll and Quinby were then either privates or non-commissioned officers and must have had either furloughs or, in some way, orders or they could not have left your department and joined me in the 128th, U.S.C.T. I was mustered in as Colonel of the 128th on the 6th of April, 1865. My commission was dated March 14th previously. My visit to you must I think have been between those two dates. If you have any data by which you can fix the date of my visit or the date of the leaving of these two men, it will be doing them a kindness if you can have it looked up.

Affectionately yours,

C. H. Howard

P.S. Arthur writes from Bangor that he has been unable to find work and will, therefore, leave Bangor about July 1 & come home. So you may see him for a brief call at Governor's Island, if you are home.

Dear Sir:-

Lieut. Gen. W. G. Gentry writes to assist in the  
dates as to his leaving the Army of the Tennessee at Bolivar,  
N. C., and going down to Beaufort, S. C., when he was appointed a  
lieutenant in my regiment. I secured two lieutenants from your  
Army at the time I visited you. Can you fix that date? I think  
that were probably ordered to report to me. Lieutenants Sadoll and  
Gentry were not in the practice of non-commissioned officers and  
must have had either furloins or, in some way, orders, or they could  
not have left your department and joined me in the 138th, U.S.C.T.  
I was mustered in as Colonel of the 138th on the 24th of April, 1862.

Dear General:

Your favor of the 22<sup>nd</sup> inst. reached me while sick in bed. I thank you most kindly for your prompt reply.

I was emboldened, Genl., to make the conditional request in my last letter by what you said in your favor to me of May 7<sup>th</sup> 1894 i. e. "Hang on as you are till after the hard times have subsided and I will try my hand with your chief."

Knowing that "an ounce of prevention & q.", I thought to write you as I did. I hadn't the re-

Dear General:

May I be permitted in  
this informal manner to call up  
an old report, now seventeen years  
old, (copy enclosed,) and to invite  
attention to its concluding para-  
graph, touching the gallant conduct  
in action of Second Lieutenant H.  
L. Bailey, 21 Infantry?

This request is not made at the  
solicitation of Lieutenant Bailey  
or any of his friends, nor with his  
or their knowledge. It is prompted  
solely by my remembrance of his

sturdy qualities as a newly  
graduated lieutenant under  
fire for the first time — qual-  
ities exemplified by conduct  
deserving the approbation of  
his superiors and Congress, if  
deemed advisable by you to  
advance these papers for con-  
sideration.

In reply to circular dated the 1st instant, from Battalion headquarters, I have the honor to report, that the gallant behavior in action of each enlisted man of this Company, during the present campaign renders it difficult to particularly mention individuals without including the entire list. The whole Company participated in the engagement on the Clearwater July 11th and 12th, taking part on the 11th in the first and important charge on the enemy's position, from the right of our lines, Private William <sup>AR</sup>Beaton being seriously <sup>o</sup>wounded in the movement. Just prior to this charge the position of the Company was particularly exposed and Act'g 1st Sergt John Donovan and Privates David Day and Frank P. Ward were conspicuous in desperately resisting a party of indians approaching from the right. Private Edward Wyckoff was killed and Private Francis Winters wounded at this juncture, on the extreme front line under a severe enfilading fire. Towards evening of the same day, the Company under a hot fire was transferred to reenforce the left and again charged the enemy in front of the howitzer battery, taking and holding a position 150 yards

of Indians approaching from the right. Private Edward Wyckoff was

killed and Private Francis Winters wounded at this juncture, on

the extreme front line under a severe enfilading fire. Towards

evening of the same day, the Company under a hot fire was trans-

ferred to reinforce the left and again charged the enemy in front

of the howitzer battery taking and holding a position 180 yards

in advance of the former intrenched line until withdrawn by order. Private William Buchow was seriously wounded and the gallantry of Private Frank Martin was noticable in this movement. Private Samuel Essig deserves mention for having voluntarily remained upon the skirmish line although wounded in the face.

I cannot too highly commend the coolness and bravery displayed by 2nd Lieut H. L. Bailey. He was constantly with the Company which was continuously under fire from the beginning of the engagement on the 11th until its close on the 12th.

Major General O.O. Howard,

Dear Sir:

One year ago I made a carefully prepared address at the anniversary of the National Temperance Society. In it I had occasion to consider the relation of the cures now so common to our work in general. Without absolutely condemning them, I showed first that some of them deny the power of divine grace to affect a reformation; second that others attack pledges, appeals, and all the means used by the Church and Temperance Associations' thus far; third, that others take the ground that in every case drunkenness is a disease. I then took up the question of cures, and availing myself of statistics carefully compiled, in most instances by disinterested persons, and of knowledge acquired by me in connection with the management of several large lunatic asylums, showed that there were many relapses, and often incidental evil results.

The address in substance was published in the paper of the Association. I have resided continuously in this vicinity during the entire year. There was ample opportunity to call my statements

Without explicitly condemning them, I showed first that some of our own day the power of divine grace to affect a reformation; secondly that others attack whiskey, sugar, and all the means used by the Church and Temperance Association thus far; third, that others take the ground that in any case drunkenness is a disease. I then took up the question of crime, and finally a list of scientific results which were applied, in my judgment, to the temperance cause. I also alluded to the fact that in some instances the management of social reform is in the hands of persons who are not only uneducated but who are also unscrupulous. I then alluded to the fact that in the management of social reform in the United States, words that were very many years ago, and other incidents will result. The address in substance was published in the paper of the Association. I have written continuously to you since the first of the entire year. There has been especially a well organized

Had any statement made by me been disproved, it would have been my duty to correct it, and I should have been glad to do so in print.

I learn from the report, and from the testimony of many persons present, that you read in your address publicly an attack upon my statements without my name; but as no one else referred to that subject, it was definitely understood by the hearers that the reference was to me.

I consider it an impropriety to admit that letter, and to read it without my knowledge, open to serious objections both from the point of view of the interests of the Society, and what is due to a preceding speaker. Had you been addressing the assembly in your capacity as an individual, and had your experience differed from that of a preceding speaker, and if after carefully reading what the speaker had said you felt that an injustice had been done, it would not have been in any degree out of place to defend those curses, though to advertise one as distinguished from the others might

But as President of the Society to introduce such a matter without ascertaining whether the attention of the preceding speaker had been called to it seems to me discourteous; and by personally endorsing these cures you have committed the Society in a certain sense to them, and also in my judgment have done me an injustice.

According to the Gospel, which we both I am happy to say profess to make the rule of our lives, it is my duty to communicate to you my feelings upon this subject in person, rather than to discuss the matter publicly, or to cherish a sense of injustice without informing you of the view I take of the matter.

During the battle of the Clearwater when bullets were flying like hail, I noticed that you were riding about without apparent notice of the constantly shrieking bullets while I and others were compelled to dodge every few seconds, involuntarily, in spite of knowledge that the dodging was after the danger. I called the attention of the men to your cool and fearless movements as an example, with good effect, telling them that generally the men who got hurt were the skulkers.

Upon myself at any rate the example was great, as it has been in other trials which you had to brave. Out of your great war record and many experiences these days are but incidents half forgotten but to me they were the important lessons

In compliance with the request contained in yours of the 2<sup>d</sup> I have called on Mrs. German, and conveyed to her your sympathy for herself & family in the loss of the husband and father. She seemed to be very much gratified to think that you remembered the Doctor after these many years, and desires me to thank you for your kind remembrance. The Dr. resigned from the Hospital Apr 16<sup>th</sup>. I presume his resignation was requested. After that he seemed to be lost, or as his wife expressed it "dazed". He had been there so long that it had become his life, and when the daily round of duty was broken up, he was at sea. He at once began to adjust

Thirty years ago we were on the West  
bank of the Chattahoochee with the  
City of Atlanta as our objective  
point, soon after to be "ours and  
fairly & won" - The recollection of those  
days seems to be more like a dream,  
than reality. Mrs. Safford (May),  
is still confined to her bed with the  
same knee, but we trust she is on  
the mending scale. My wife is quite  
worn out with her many cares. The  
weather is excessively hot and de-  
bilitating. Give our kind regards
