Dear Sir -

We are getting a collection of autographs of eminent persons, and, as we have a number of the signatures of other generals of the United States, we thought perhaps you might be so kind as to give us yours.

Note: The enclosed autographs
was not sent because of lack
of address.

Dear General:-

I do not know whether you are at home or not, not having heard from you for more than a month. I want to see you whenever convenient and talk over matters of this Society. We do not expect to do much these hot months.

My only daughter was married last week, and that has taken some of my time. I am arranging for our great meetings at Ocean Grove and Long Beach, and want to see you about both meetings, as we have you down for an evening at Ocean Grove and a day service at Long Beach. We must make these meetings at Ocean Grove the best meetings ever held by our National Temperance Society. You will see notice in the Advocate. I also call your attention to a little item I wrote about "Membership" which covers the ground of Christian Endeavors, &c., which we were talking about, and which when the Fall comes we ought to be able to work to a considerable extent.

I leave to-morrow night to take my wife to Lake George where she will spend a few weeks, and I go on to Waterville, Me., for the Annual Meeting of our National Division Sons of Temperance of North America. I expect to return to this city on the 13th of this month.

I have a good Wood Engraving of you just made and want to put a sketch of your life into the Advocate, and should like an article from you if you feel like it also. Can you give us an article for next month's paper? Mr. Powell has gone to Europe, and I have the whole charge of the paper for next month, and I think preparatory to Ocean Grove and Long Beach, it would be well to put your Engraving on one page of our paper, either with a sketch and an article, or an article alone or a sketch alone which ever you would prefer. I shall be here till 4 o'clock to-morrow afternoon, and if you get this letter in season, would be glad of a reply if convenient.

Yours very truly,

Dear Genl:

I'm sure you will be pleased to learn that our Supt. has assured me that I will not be disturbed so long as he remains at the head of the R.L.O. I had a very pleasant interview with him this A.M., at which I told him frankly my fears of removal; my financial embarrassment; and my inability to perform any manual labor by reason of disabilities received while on active duty in the P.O. Dept. He seemed to sympathize very much with me, and said:—"Well, Mr. Ludlip, go back

My dear General:

Referring to our conversation about the Brigadiership I enclose you here with some copies I have had made of a synopsis of my military record. It is of no great brilliancy I regret to say but it covers an immense amount of hard work and I think not inferior to the records of my present contemporaries.

I have no great

hope of success, but the prize

I have had an encoura-

You will permit me to express a little of the satisfaction with which I have just read your history of the life of Isabella of Castile. And at the same time I may not refrain myself from noting that in the book there is much to remind me of the simple lessons of a genuine and liberal christianity which so much interested me when I was an attendant of your class for bible study when you were in command on the Pacific and gathered about you many of the young men of Dr. Barrow's church in San Francisco.

In all comment in this book which bears on traits of character of this queen to whom we are so much indebted you impress me as being indeed catholic in the fullest sense of the term. Where it would be easy to condemn I find you always charitable and forbearing, ever regardful of the difference of ideas between the fifteenth and that which is almost the twentieth century. That you should uphold on almost every page the belief of the interposition of an overruling Providence concerned with the affairs of men is in refreshing contrast with much of the modern rationalistic school of history.

Of course I recognize that you are writing this book for a general audience, but at the same time I regret that you have not felt at liberty to dwell more fully on the military events of the career of this great lady. You have sufficiently proved her mastery of logistics and her military superiority to her husband. As something of a military student I feel it keenly that you were not free to present the analysis, surely ever present to your own mind, of the grand strategy by which she closed her armies in about Andalusia and drove the infidel from her catholic realm and from his last stronghold among the Christian nations of western Europe.

Very sincerely,

Commanding Dept. East

My Dear Sir!

I sincerely hope, you will forgive my apparent rashness, in writing you this letter, but I trust, you will generously excuse my indiscretion, upon reading my plea, in self-defence.

Sir, I am a prisoner here in Leavenworth Prison. the object that compels me, to make this appeal, to you, is my dear Mother, up till about two months ago she did not know of my whereabouts, in my sad position, it was through a young clergyman, stationed at St James, Parish, Baltimore, Md. Rev. Fred. Young, C. S. R. an old comrade, and College friend, with whom I studied years ago. it was him, who informed my mother, I had written to him, it grieved me a great deal, when I learned of it. for I well know, how it must pain my dear Mother, who was always from my youth, so kind.

and eager to assist me. I received a very good education, my mother who is a widow, father died five years ago. is at present in need of me, at home. for I am her main support having two smaller sisters, and one brother, at home. my brother who is two years younger than I am, is disabled, because he is was born very near sighted. which sad affliction, prevents him from making a very good salary. My father, on his death, left the piece of property, in which my mother lives. he failed in business, when I was twelve years ago in a transaction, from which he never recovered, till finally, worry, with a contracted sickness, caused his death. it is to keep, this little remaining property from being mortgaged, that I wish to assist my mother, in her present need, my dear Mother, is over fifty years old, and her health is growing worse, I am 27 years of age. My father was a learned Mechanical Marine Engineer, in Baltimore, Md having been a Licensed and qualified Engineer over thirty three years. He ~~served~~ served in the late war, on the Government Transports, as Engineer, I think it was under "Purviside".

I received a good education. having studied for for the ministry. I studied till I was seventeen years of age. I studied at St. Mary's Institute, near Dayton Ohio. also at the College of the Order of the Most Holy Redeemer, "North East" Penn. —

I returned home and learned the trade of Machinist, & Engineer. at which I am capable of making very good salary. I can make a very comfortable living for my Mother and sisters, which I consider my sacred duty. having promised my father, on his dying bed, to contribute to the support of my Mother as long as she lived — —

It was in pursuit of this promise. that I went to New York, December 1892, to join the U.S. Navy. as Machinist, it think it was, on the 17th of Dec. 1892 I passed the examination, before U.S. Engineer Hennon, on board the U.S. Receiving Ship "Vermont". I passed credibly, but I failed on the Medical Examination, on Eye-sight. I am color blind, in the light shades, of Green and Red. I was disheartened on the result, and being without money - also. I failed to obtain employment. I enlisted in the Army, on Fulton Street, Brooklyn. and was

(P.S.) Sir I have over ten months the record, on my sentence,

years, which will be a mitigation of 18 months.

sent to Davis Island, N. Y. H. from where I was
assigned to Co. "B." Battalion of Engineers, at
Millet's Pt. New York. Sir. Had I been taken in
the Navy, I intended to send Mother fifty dollars
each month, my pay in the position being \$70.⁰⁰
I remained over pass, 48 hours, during the naval
review of April, 1893. for which I received \$10.⁰⁰ fine,
and thirty days in the Guard house, while serving
in the Guard house. I was told, I would be tried for
fraudulent enlistment, so I escaped, and on being
apprehended in Norfolk on July the 7th I was taken
from Fort Monroe Va. to Millet's Pt. for trial, charged
with Fraudulent Enlistment and Desertion, the
proceedings were approved by General Schofield,
but no comment was expressed on the case, which
I have often thought should have been done. -

Dear Sir! I am convinced of the fact, had
my case come before you, the result would have
been otherwise, I was sentenced to four years, at
hard labor, all the officers, on my trial, were
Engineer Officers, I reasonably believe, the court

that gave me my sentence, were all severely prejudiced against me, and in consequence thereof, gave me such a extreme large sentence. Notwithstanding the great defence I made, in my own behalf, I respectfully refer the General, to my statements, before, and after my trial which are included in my proceedings, in view of which, I can safely say, if my ^{case} had been laid before you. I would have received a mitigation. In view of the above facts, and statements, and the sentence received, I wish to compare the sentences of men, who are sent here, and are here now. Men, who have the same charges, and often times, they have two or more desertions, and who only receive two years, or two and a half years. Sir, taking all in all, I often ponder over this question of Court Martial, and I humbly bow to the Majesty of the Law, but at times, I cannot refrain from exclaiming "Oh God this cannot be justice, in a land, where justice, right, and liberty, are supreme."

I try to resign (to) myself, to my hard lot, but at times, when I drift back, and consider

and think of my dear mother, and of the privations she must surely subject herself to, and all on account of my error, it almost drives me to distraction. I have prayed to God for assistance, and I turn to you for aid, in my present necessity. God will bless you for it, as it is in your power. I respectfully refer you, to Rev. Mr. Goodwin, Chaplain, he has offered to befriend me, I am advanced in Electricity also. I ask this, not for myself, but for my Mother, give me an opportunity, to assist her, in her declining years, by comforting her, in my sacred duty, as her son, I promise to lead an exemplary christian life, all I ask, is the General's, consideration of my case, on its charges, and recommend such clemency, as law and justice, will permit. my family name is John L. Ellinghaus, but I enlisted by the name of John L. Bradley. Hoping this will, receive your kind consideration, in my most unfortunate position. I close, looking to God, to bless this, my humble supplication, for my dear mother.

I remain Ever, sincerely,

Box 37 Ft. Leavenworth. John L. Bradley.

which you give for thinking that the work would become popular. It is impossible, however, for general book-sellers, who handle all reputable books that come out, as well as all old ones, to do very special pushing upon any one book. Our policy is to supply what the public demands, and we must, as a rule, leave it to the publishers to create the demand for the books they issue.

You say: "As you control the western trade for Funk & Wagnalls", etc. In this you are quite mistaken. Our relations with Funk & Wagnalls are by no means so intimate as they are with many other publishers, and ^{we} do not in any way directly represent their issues. Indeed I am sorry to say in the course of business we have rather had occasion to come somewhat into conflict with them rather than to come into harmony with them. Their ideas of business and our own seem to be quite different. But these facts will not prevent our doing all that we properly can for the "Isabella" on your account.

My dear General Howard:

Will you kindly give us, in confidence,
your opinion of the U. S. Army Aid Association? Two weeks ago, we
committed ourselves to an endorsement of its work; and for doing so
have been warned that it is not worthy of help, from us or any one
else.

Very respectfully,

Gen O. O. Howard;

My dear General.

I have been solicited to take interest in the formation of a Co. for the introduction of the Morse cipher into Massachusetts and I notice that you are President of the New York & New Jersey Co.

Before taking any steps however in this direction, your personal endorsement would carry great weight to me and many others in deciding whether, or not, to engage in or endorse the same.

An early reply would greatly oblige.

Very Respectfully Yours

Dear General:-

I hand you herewith a letter from the War Department, addressed to Senator Hawley, denying the application made for the Medal of honor, on the grounds that in the action, referred to, I was simply acting in the line of duty. This statement is so at variance with the facts, and the rulings made by the Department in granting the Medals of honor, cover my case so completely, that I have taken the liberty of asking you to make the matter more clear for the benefit of the Department. At the time referred to, I was Adjutant General of the Cavalry Division, not in command of any body of troops, but was at the front watching the movements of our Cavalry when you sent for the Officer commanding. I reported to you and volunteered to do the work you assigned to the commanding officer. This act on my part, was purely volunteer, and you will remember that after I had driven the enemy to the river, I reported to you again on the hill about one-half mile from the river and asked if you wished me to

bridge. You replied, can you do it?, I said yes, by dismounting the Cavalry. Your reply was, well, try it. I say this whole act was a volunteer one on my part, and was not in the line of duty. I know, my dear friend, I have no right to trouble you with these matters, but having made the effort to obtain this Medal of honor, and believing that I am entitled to it, I do not wish to give up the fight without having the same denied me on grounds different from these referred to in the communication accompanying this letter. You know very well that it was not the duty of the Adjutant General to lead troops in a charge against the enemy. The Assistant Secretary of War, evidently shields himself behind the statement contained in your letter that, " I did my duty promptly." Kindly return the letter with your reply.

Asking your pardon for again troubling you with this matter, and assuring you of my esteem, I beg to subscribe myself,

Maj. Gen. O. O. Howard,

My dear General,

I regret very

much that you are away and
that I am deprived of the pleasure
of seeing you.

My object in calling upon ^{you} was
to say, that if there is any occasion
for it I should like to volunteer my
services as Surgeon in General Miles'
staff at Chicago for as long a time
as he might find use for me.

I have also a son, Herbert, 19 years

of age who has had Experience
in the 23rd Regiment, who would
like very much a position as
officer in some capacity, if thereby
he can serve the Government in any
way. He is now in the Fifth Natl.
Bank and is a fine, tall, manly
fellow of high character. He is capable
of drilling & handling a company.
Is there any position, which without
being a West Point man he could
fill under Gen. Miles? I would
like very much to have him educated
at West Point.

Very Respectfully,
Your Obedt Servant,
Edward C. Mann M.D.
