

Burlington Vt. There is only one other house

403  
Aug 1st 1894. of to inquire about Mrs Tucker's on Willard and Pearl

Dear Father: Mr Kelly would rent me his farm of 200

acres with a letter from a Co-operative

Entertainment Bureau in Boston, which I have just answered thinking

it an opportunity to earn some of the money you are sending me, as

Private Secretary, though I am away from you. I give the time to

I think my answer will meet with your approval. Bessie and I are

very well as are Guy and family. He and I drove out to the post

this morning to show the buildings to Capt Davis who passed through

here on his way to Washington from Plattsburgh. The enclosed

letter tells you how we enjoyed the trip. I went to Montpelier to a party Monday night and enjoyed the trip

very much. It is a pretty town settled among the hills and the

State house is a miniature building. Yesterday we had an afternoon

reception and today we have another at Mrs. Benedicts.

We had three hot days last week but the weather now is glorious

cool and bracing. We are looking forward to a visit from you and

mother. I have seen Dr Willard who has returned from California

and he says that he is afraid he will have to go away this winter

so, he will be very glad to let us have the house. He will know

before cold weather. He said for me to keep on looking for houses

and if unsuccessful at the last to let him know and he would let us

have his house in all probability. There is only one other house  
I can think of to inquire about, Mrs Tucker's on Willard and Pearl  
N.W. corner. Mr Kelly would rent me his farm of 200 acres and  
dairy of 40 cows, at Wincoski Park near the post if I wanted that  
business. I am on the lead of a lime mfg. business with the kilns  
right at High Bridge near the post also. Two men own it who havnt  
the time to give <sup>to</sup> that business. It is the only kiln in this vicin-  
ity. But I am not anxious about business if you will take up  
with me the writing of memoirs and history of Freedman's Bureau  
as that would keep us busy for two years with your outside work.

The enclosed letter shows that you won't be idle after you retire.

I suppose you have sent me money to pay for my rent and meat \$41.50

All other bills are paid except butter man about \$3. My food bills  
kept within my estimate but pleasure runs up the bills most.

I dont do much at Life Ins. for the weather has been too hot to talk  
men to death and I dont like to pester my friends either. I  
much rather  
would sell goods than nag people anyway. But I hope I will find  
some body wanting insurance. This Co. is the best kind. Chancey's  
letter came this morning. I will be very glad to get his book. I  
think he estimates too high when he thinks he can get \$400 paid up  
ins. on \$1000 after only 4 or 5 years. I think it will be only about  
\$200. Give much love to mother and Chancey Affectionately

Harry

My dear General Howard:-

I have been enjoying a sort of a vacation for the last two weeks and if that book has come it has not come under my eye, and as Dr. Twining, who has charge of the book reviews, is now off on a vacation, I cannot tell you definitely whether it has been received in the office, but I will make inquiry as soon as possible and ask him to see that the book has a proper review.

I thank you for the copy of Dr. Webb's notice, although, of course, we should not use any but our own.

Colonel Langdon has recommended the transfer of Lieutenant Price to Governors Island as he is about to be relieved from the Light Battery, to take the place I understand of Lieut. Mrs. Price is my niece; hence my interest in the case.

Dear Brother:-

I am just starting tonight for Washington. I do not know how many days I must stay there, but hope to go on thence to New York. Are you expecting to be at Governor's Island for a week or two? I do not know whether I acknowledged your letter of July 19th in which you mention having looked up all you could find with reference to Quimby and the orders at Goldsboro. I think it likely the two men were on scout duty at our headquarters and that possibly there was no regular order detailing them, but I can hardly understand how they could have been allowed to leave the Army and Department and go down to Beaufort, N. C. to join a colored regiment without any orders.

I was pleased to have the printed account of the Bowdoin Centennial. I had previously read it in the Independent and imagined possibly you might have written it. Your advocacy of a larger army is quite popular here in the West.

If you write me, as I hope you will, please address care of L. Deane & Sons, #908 G St., N.W., Washington, D.C.

Very truly yours,

General O. O. Howard

New York City, N. Y.

Dear Sir:

Some time during your stay at the Convention of the G. A. R. next month at this city would you please visit our Church and address our people? Here let me state a few facts about this organization. It was organized Dec. 19<sup>th</sup> 1892. under the name Puritan Church, Pittsburgh. Account of the Church is on pages 320-321 of the Year Book of present year. But the membership is now larger of both Church and Sabbath School. It is a very interesting work, one of the most so no doubt aided by the C. H. M. S. If you will promise to address us one of the evenings you will be in the city ~~on~~ our gratitude would be very sincere for the honor

and privilege. Your presence would  
be a great assistance to us. Somehow  
the people here understand our  
policy so imperfectly, that we labor  
under great disadvantage to carry on  
our work. They don't seem to take it  
into their heads some of them here  
that we have a history at all, and I  
have discovered this among people  
I thought that knew the history of  
their own country. It has been  
said that we are not orthodox,  
I don't know they managed to make that  
out unless they thought we were the  
same as some churches in New England  
that are unitarian and still holding  
on to the name Congregationalists.  
When any of our leading and prominent  
men visit us and especially of na-  
tional fame, and own us as theirs  
it is a great help to give us a stand-  
ing in the place and put us in a  
better position to do good and carry

on the blessed work of the Master.  
Membership at present 140. mem-  
bership of Sunday School, Enrolled  
206, prayer-meeting 50, 60, 70,  
90 and sometimes more, but  
during late warm weather it has  
<sup>been</sup> less than 40. The people are very  
poor at present, but they continue  
to collect money every Lord's Day,  
by the weekly offering system. At  
the day of Dedication last Sunday  
week they pledged over \$12.50 to-  
wards the building fund payable  
during the coming twelve months.  
When the place will revive in Business  
and the people earn money our fi-  
nances will be in a better condition.  
But above all this is a grand field  
to gather in souls for Christ, the people

seem to be very willing to listen to the word of truth, and no Communion Sabbath pass without accessions on confession, it has been so for the last twelve months, our Communion service is every two months. The numbers received at these services vary from six to thirty-five.

Please excuse this lengthy correspondence, hoping you will find it convenient to pay us a visit when here, we would be very grateful if possible on Sunday evening.

Remain yours

Humbly and Sincerely

John Edwards

Pastor.

My dear Sir,

Genl. Howard has made a very interesting book - Isabella of Castile. True he had wonderful materials at his command. But evidently he mastered the materials before he began? & so he writes with full comprehension, & natural ease.

Having visited the country where the history was produced, & studied the ground, a personal interest & practical observation add to the warmth & glow of his pen.

Self poise. & great repression the General has shown in avoiding so much, & using so little of the remarkable history of that period. And yet the story is complete. & moves from point to point. & from province to province, with a happy celerity that not only holds, but excites & increases the reader's interest.

Besides, the General's own military experience enables him to appreciate,

as another might not, the daring adventures, the prudent forethought: the brilliant triumphs of the Queen.

If we were disposed to criticise, we should say the General is a little too lenient, & forgiving towards the bigotry which more than once breaks out in the career of a remarkable life.

Yrs cordially E. B. Webb.
