Dear Sir:

enclose a draft of a Constitu-
tion which — in consultation
with Dr. McLean of Oakland —
I have just had issued. To
us it seems the most advised
step in the temperance reform.

— Having your official
relation & that reform as
President of the N. T. S and your
honored personal labors in

it I return back - for
the sake of the cause now so
critically placed - your kind
consideration of the plan.

It is not in its final form
and I should greatly value
your advice before so casting it.

The initiative in this
movement is now being taken
in Oakland.

Can you give me to-day a
few minutes (10 or 15) conversa-
tion on the matter? I would
be greatly obliged. I will call
at 1.15. But if not then con-

My dear Brother:-

Williamsport, Pa.

Jan. 1st. 1895

Sometime ago I was led of the Lord to have mailed to your address the First Volume of a Book of the "Plan of the Ages", or Millennial Dawn, published in Allegheny, Pa., U. S. A.

This book I consider a veritable key of the Scriptures, and with the other volumes (2 and 3) form the interpretation of many mysteries hid in the past, but now becoming known as "Hidden Treasures" in the field.

The subjects treated should be carefully considered by the Lord's People "in these times of the End", and as very helpful in order to a right understanding of "What saith the Scriptures?" These books form an invaluable series, instructive of a proper division of the Word as "Meat in due season.

I would be greatly pleased to know of your perusal and study of the subjects herein presented and what effect the same has produced in your contemplation of the rich feasts provided for the faithful, consecrated followers of the Lord Jesus. Should you not have received the book or receiving it, not yet had time to fully digest the subject of it, you can, if you wish, defer reply until you have had time to go over it.

The 15th Chapter, being written several years ago, is very applicable to present times and should show that the Author has the proper light given him in his interpretation. Other parts will also, doubtless, show you that the book is something extraordinary.

Will you kindly mark your answer "Personal" that I may have the pleasure, quietly and confidentially to know the result of your prayerful study, which I shall be glad to cherish as a memento from you?

Very respectfully yours in the bonds
of Christian Love,

A. D. Landy

Dear Gen. Howard -

We are making some headway on the lecture proposition, but not enough to as yet tell definitely what results may be.

If we succeed in having you come, I hope you will have it understood that you are not to bother about hotels while here. I have only one wife and three baby girls at my house, and therefore always have room for an honored guest. It is now 17 years since you furnished food to satisfy my mountain appetite at Henry's

there is no difficulty in getting him
what you want & getting him up to speed

the long run to do business with him than
with a local business man. He may be
more expensive at first but he will
be more reliable. His office is located
on Market Street just above the

handsome building and well situated
it is very convenient to get to

Dear Brother:-

The enclosed letter from Dr. Rankin will explain itself. I do not know why he did not write to you directly, except that possibly he did not know your present postoffice address.

I sympathize with him in the matter, and think he has drawn a very temperate kind of a letter. If, as he says, the facts are that during the past five years of his administration there has been one more colored man on the Board of Trustees, two more colored teachers in the Collage department and one more in the Preparatory and three more in the Normal than when he came to the University, there would certainly seem to be no reason of complaint that he was prejudiced.

We have had an old fashioned blizzard with snow flying, and mercury down to zero, but it is pleasant again and we never had finer days than on Christmas and on New Year's day. How do you enjoy your old climate at Portland? We would like to hear from you oftener than we do. Cannot Harry or Bessie write if you are too busy.

I do not know that you will remember me but I enclose papers which will explain who I am. The last time I met you was at Rome City Ind (or Island Park) a few years ago.

I have been reading your "Atlanta Campaign" in the Atl. Tribune with much satisfaction and hope you will continue, as we did 30 years ago until you reach the sea. I have in my possession a copy of the official report of the commanding officer of my Regt. (Col R.M. Johnson) of the March to the sea including the battle of Griswoldville or Dandie's farm. I understand that from some cause this report was never published with the official report, and this copy may

Dear O. C. Howard - Beloved,

Your very kind letter written in Chicago was duly rec'd and appreciated. I trust your plans for next summer will be realized in planning to rewrite my lecture on Gettysburg - I am in Genl Stearns' Dr. in the Cemetery - I saw you when Hancock came on the field and conversed with you - You already selected the line for battle - So many have understood that part of the history and given Hancock credit - that was due you, that I have frequently named it - as I knew it - to be - Did you not give the thanks of Congress for selecting that site the battle? I recollect also at Hagerstown, while was waiting to cross the Potomac, that Meade had council of war, and it was reported that but one general was in favor of attacking Lee in his chosen position - I always believed that you were that genl. Am I not - correct? I would not take a laurel over another, but Christian character was at such discount in the Army; in some respects, what I have never to be due to you, has been given to others - Please write me concerning these points of interest - and anything you think would be important - in this connection - Our love to you all -

Affectionately yours,
