My dear Commanding Officer.

Yours rec^d. Shall be glad to get letters from you for the Pacific. Find receipt herewith.

Hope you & yours are well. I am keeping the Gen. Howard Bible Class together waiting your arrival. Hope you will stay in our city some time. A host of friends want to see you. Wish you would decide to live here rather than in b.c. my native state, but very cold so many months in the year. Best regards to Mrs H. & Grace & Harry. Don't forget your long time ago Subl of Schools in the Duckman's Bureau.

City.

Dear Sir:-

Meetings have been in progress for some time past of citizens who have resolved that a permanent organization shall exist in this City, which shall seek to preserve and improve its moral character, suggesting such practicable moral reforms as may seem wise, and to aid in their adoption and enforcement.

The result of these meetings has been the selection of 33 persons, representing wards, societies and nationalities, in order to have a representative membership.

The name suggested for the organization is "The Citizen's League", and the first regular meeting of the League will be held on Saturday evening, January 19, 1895, at 7.30 o'clock, in room 427 Marquam Building, on Morrison Street, for the purpose of electing officers, adopting by-laws, and discussing the matter of an ordinance for closing saloons on Sunday.

The undersigned were instructed to apprise you of your unanimous election as a member of this League.

It is sincerely hoped the movement will commend itself to your good judgment.

Your acceptance and active participation are most earnestly desired, and we trust you will be present to assist in the organization.

Very respectfully,

John Bain.

Can you give me Captain
Wotherspoon's address? I sent some Lake
Mohawk Conference Reports to Governors
Island for him by Adams Express,
and I have just-received word
that-they would not receive them at-
the boat-because Capt. W. was not-

In Re Millennial Dawn:

I am glad to send you a duplicate copy of the Book and I believe you will enjoy its contents, and would advise that you take particular pains to read it at an early day.

The latter part of your letter which I think have a reasonable solution in your mind in regard to the present, as well as a good hope for the future of the race.

The darkest hour is said to be just before the dawn, and while evil seems to be so great and darkness so prevalent in spiritual matters, let us confidently await that Light that shall enlighten the whole World, in the great approach of 'Millennial Dawn' which seems so near to me,

With Christian Love I am Yours in Christ
we be glad to hear from you after reading it. *A. D. Lundy*

Thoughtful people are aware of the very large increase of Urban population and the relatively small increase of Country population, for the last 25 years, all over the U.S.; especially in the South, where this urban increase has been largely of colored people, who are but as sheep among wolves; having to face, at every turn, (Whisky saloons & other such "gates of Hell" as stand open continually in our large towns & cities

And while one are fighting these evils directly a plank attack (such as the establishment of coffee houses, free ice water fountains &c) is also wise & always successful.

On the same line with coffee houses & such preventives (& believing that this urban tendency is owing chiefly to lack of schools churches & neighborly assistance in the country) I have conceived the following plan which I am earnestly anxious to carry out; & have partly the means to do so, but not enough to make it a success

"Village farming"

I would buy a considerable tract (4, or 5000 acres) along some of the RR's build a house on every 50 or 100 acres, have a store, a forge,

a grist mill & Cotton gin, Telegraph & Postoffice
a good school & Churches
as the law of Georgia prohibits the sale of
Whiskey within 3 miles of a Church or school
(except in incorporated towns) Whiskey
would be excluded.

By selecting good land & leasing it
at reasonable rates & by a "live & let
live" policy, I believe good tenants
could be secured & that the enterprise
would pay in a moderate way & it would
be a noble undertaking in the cause
of education, temperance, social reform
& Religion

Growing up in Florida, as a boy before
the war I used to teach my father's
slaves to read the Bible. I rec'd
a liberal college education & am a
mechanic also. Later, I was an
operator in the U.S. Military telegraph
corps, Dept of the Gulf, till 1865

I am a Methodist but not a narrow
sectarian believing in the "Fatherhood
of God & the brotherhood of man"

I would call your attention to one point At the close of the war & since Philanthropic persons north have in a laudable way contributed funds for the purpose of educating the freedmen This has done great good to these people But you may be surprised when I say it has rather been over done may in the future continue the same way - Schooled and educated these people of color have few avenues

Why not make a change and in the near future do these people good and make

Philanthropy pay big dividends
in cash semi annually

You ask how can this be done and I reply

Raise Northern Capital to build Cotton Mills down here to utilize Colored labor and to thus elevate as many as possible of this race into a field of labor above that of the Cotton and rice fields.

These people will make the very best of Mill operations & this fact is well known here. Our mills are being built everywhere at every Cross Road. They pay from 20 to 40% annual profit. Our white operatives get only 60% of the wages paid to Eastern labor. Put the Colored people in Mills here as Coarse goods and give them for 11 hours 50% of the

Wages paid in the East & low as these
wages may appear to you an
Eastern man they would be 40%
higher than this same colored labor

New England is speedily to loose
its supremacy in Cotton spinning they

My dear General Howard: -

I have for some time cherished the hope, that you would be able to favor the people attending the church we both are interested in, with one or two addresses on Sundays. I know how fully the people enjoy hearing you show highly they respect you & love you. Would it be asking too much of you to feel request^{for} two addresses?

I have thought if convenient & agreeable to you that I would like you to give the sermon or address on Sunday morning February 3rd (or the first Sunday morning after that convenient for you) The line of thought, if meeting your approbation, that I would like would be "American Problems - How Christianity Solves Them" In this I thought you might touch any of the problems of today which your experience & observation make especially worthy of note & also give an illustration concerning "the way you helped on this line to solve the "Needman's" question after the war. Any other topic you prefer will of

The second address I would like on Sunday evening March 10th at conclusion of present series of lectures - now running - & just before I understand you are to leave us. That I would like as a farewell service.

I sincerely hope you can do as desired in this matter. I know how far your influence will go not only with our own people but outsiders. Having your splendid record full of honorable achievements, any statements you will make concerning these subjects will have marked influence upon the thought of our city.
