Geo. O. O. Howard.

Dear Sir: - Permit me to again write you, but as the date of your coming has been changed and you would only have one day to lay over I renew my request for your presence during the Bishop's visit. The Bishop will only preach once. In the evening service you will have a rare opportunity to do good. The U. A. R. P. want people joined late in the service. I desire to have an opportunity for you on Saturday evening. There are several in our杰克涛 with you during the war. They long to clasp your hand and introduce to you their Misses and children. I will at the request of Dr. Mock first of which I am a member. We will fell ourselves highly favored if you will remain one Sunday.

Yours in Christ Geo. W. Grannis.

Dear Sir,

I am anxious to know if there is any religious influence exerted over the boys at West Point (the cadets in the naval academy) by their officers and teachers. I have examined the books in our city library and can find nothing in regard to the matter there. I had the pleasure of hearing you speak to the ladies in Los Angeles several years ago, and...
Knowing that you are a Christian gentleman, I take the liberty of addressing you on the subject. Will you please be kind enough to write me in regard to it, as I have an only son who is just about ready to graduate from the High School here and several of our friends have told us that it is such a good school, and advised him to go there. He has always attended O.H. and S.H. and is a good Christian boy. He is a leader among his associates both in boy school and Sunday school. He is a member of First M.E. Ch. 1st Btnd. of the Boys Brigade. President of the Star and Crescent Society of his school. Besides holding several other offices.

He is eighteen years old, five feet nine inches in height, and weighs one hundred and thirty pounds. I want him to take a good education and be a good Christian man. He has not chosen his avocation in life yet and while I realize the advantages of an education at West Point in some respects I am anxious to know about the Christian influence. His father was a soldier in the war of the Rebellion.

Dear General:

I have your letter of the 15th inst. in which you state that you will take engagements on the line of your trip East next April. I will see what I can do in this way.

I have just returned from a visit to Gen. Fitzhugh Lee at his home in Virginia. We concluded arrangements for the campaign of next season. He is pleased with the plan of working with you, and he thinks he will enjoy seeing the western portion of our great country. Last Saturday he delivered an oration at Atlanta, Ga., that day being the anniversary of Gen. Robert E. Lee's birthday.

Your circular is not yet out. I have been waiting for some days for a biographical sketch which I have asked your brother to write. He made a start on it to-day and I shall probably be able to get the circular through the press by the end of this week.

Would it not be well for you to send to me full memoranda of all engagements which you have made on your own account? If I have these, it will facilitate my correspondence and avoid confusion. If, for example, I had had memoranda of the Ohio

Dear Brother:

I have the enclosed letter from Dr. Rankin, which he wishes forwarded. I will also send you a clipping from a London paper, together with a copy of my answer to same, which I think will interest you. The paper is edited by our good friend, Dr. Darby, who was such an admirer and friend of brother Rowland. I think I see the hand of Langston or some of his followers in this paragraph.

Your telegram, as to Capt. Gray going to Tehama County, was received and answered. We greatly desired that you should go down for two reasons: first, we wanted your judgment, as well as that of Capt. Gray, and second, your opinion and recommendation, if we should go on with the enterprise, will be of value to us. I hoped you would have passes over all the S. P. Lines, so that it would not be of much expense to you. Of course we have no money whatever from the enterprise as yet, but if we go into it, we would be willing to make it of advantage to you or Capt. Gray or any of our friends who choose to take hold of it with us.

The other great scheme is moving towards tangible shape for busi-
Dear Professor,

I have the enclosed letter from Mr. Harris with the
written recommendation. I will also send you a copy of
a London paper.

Together with a copy of my answer to some questions
I brought with me and of your letter I will send
you. The letter is attached on the back of this paper. I think it
seems strange that you should have so few
such excellent and efficient people on our
staff. As you have suggested, I am sending you an
enclosure which will be of interest to you. I hope you
will find the paper interesting. It is not to my
knowledge that the House of Commons has
raised the question of who is the best man for

money is important, but it is not the main
factor. We want someone who can handle

iness. We will soon be organized and have a financial plan as to bonds, so definite that we can, without much longer delay, determine whether the money can be raised for the preliminary work. We do not, for a moment, doubt it.

I have a letter from Sladen which I was very glad to get and will answer soon. I think he ought to have one of those medals and I can testify as to his bravery and personal gallantry on one occasion especially, which perhaps did not come to your notice.

Trusting that you and the family are well,

P. S. Since writing the above, I have your favor of Jan. 18th.

I will send to the address you say and procure the two copies of "Titus" and forward to you.

You ask me to give a sketch of my recollections of Bangor before the war. I will endeavor to do so and enclose in this, but must take the pressing business letters first. Mr. Kerr has had his sketch waiting here for me to revise and complete for a week or two and I have not been able to get time to do it. He has absolutely nothing from the time you took command of the Second Division, Second Corps, for the remainder of your service in the Army of the Potomac and for all your services in the Army of the Cumberland and even of the Army of the Tennessee, up to Griswoldville, Ga. and indeed to the end of

Dr. W. Evans Darby,

47 New Broad St.,

Dear Brother:

I was gratified that you remembered us and sent the "New Year". We were able to insert it in our number which reached the readers before New Year's Day. Our family, including especially Mrs. Howard and those of the young people who met you, would like very much to keep a place green in your memory and warm in your heart.

I like to read your papers and was especially interested in "Bond of Brotherhood", a copy of which was received a few days ago. I sympathize with you in the sentiment that you are endeavoring to establish against lynching in our South. My winter home, as you are perhaps aware, is in Florida and I come personally in contact with the colored people and know how they are still persecuted and how far they are from enjoying the civil rights of the Anglo-Saxon. It is possible you received one of my editorials, on my return from the South last summer, relating to this subject, but I will clip it and enclose here-in, as, if you are like me, I am sure you cannot even glance over all that comes to your table. I wish it were so that you could go about our country and give such an oration or sermon as you gave to
our people and so add your views and personality on the side of truth, justice and peace.

I wonder if you would care to have me correct an error in fact that seems to have crept into a little paragraph in "Brotherhood". It would take too much of your time to make a full statement of the work my brother, Gen'l. O. C. Howard, did for freedmen during the seven or eight years devoted entirely to their service. He was at that time Chief of the Freedmen's Bureau, nominated by Pres. Lincoln not long before he was assassinated. This Bureau was a kind of bone of contention in politics: the Democratic Party and of course all the Confederates being most bitterly opposed to it and ready to assail every one connected with it. Mr. Lincoln's advocacy of it and his manifest sympathy with the freedmen, shown in many other ways, were among the causes which drove such rebel sympathizers as Booth to frenzy. Now the mistake of your article is in the implication that my brother had changed, in the least, in his sentiment toward the freed people. There has not a year passed since 1863, when he was relieved from the Bureau duty, that he has not, many, many times, spoken eloquently and strongly on the behalf of the rights of the colored people. Your article says that he "has lived to see his creation diverted from its original purpose". This is an utter mistake. I am one of the trustees of the Howard University and have been for twenty-seven (27) years. It is devoted as thoroughly and efficiently
on our health, safety, and home. These are my responsibilities to the people of New York, and they extend beyond the office of Mayor to the entire city. I believe that it is my duty to do everything in my power to ensure the safety and well-being of all New Yorkers. This includes taking action to prevent crime, improve our schools, and provide access to affordable healthcare. It is my responsibility to lead by example and to ensure that our city is a place where everyone can thrive.

As Mayor, I have worked to increase public safety in our city by implementing new police procedures and technologies. I have also focused on improving our schools, ensuring that every child has access to a high-quality education. Additionally, I have prioritized the expansion of healthcare access, ensuring that all New Yorkers have access to the care they need.

I believe that our city is strongest when we work together as a community. That is why I have made it a priority to engage with our residents, listen to their concerns, and work towards solutions that benefit everyone. I am committed to building a better future for New York, and I believe that we can achieve this by working together and making tough decisions.

In conclusion, I want to thank you for your support and for giving me the opportunity to serve as your Mayor. I am proud of the progress we have made together and I look forward to continuing our work to create a better future for New York.
to the well being of the colored people as it ever was. Rev. Dr. Rankin, who has been a consistent defender of the freedmen for a quarter of a century, is now its President. It was one of the fundamental purposes principles of the Institution that it should show no distinction on account of color; that is to say, it should be open to Indians, Chinamen and even Anglo-Saxons equally with colored people. Our reasoning was that if it were made exclusively a colored Institution, it might be lowered in grade and that either in intellectual equipment or social advantage, or in some way, might not tend to bring their race to a full level of privilege with the whites. Some of the more ambitious colored people, especially those ambitious for place, have always contended that there should be no white teachers and that there should be a colored president. The trustees have not taken that view. We have employed colored professors and once had a Vice-president and acting-president who was a colored man and have held that we should always have a fair proportion of colored teachers as far as they were found competent and that the positions should be filled with a wise view to intellectual, moral and religious qualifications, rather than with reference to color of skin. Now do you not agree with these principles of management? To be sure Gen'l. O. O. Howard has not had anything directly to do with the management of the University for many years and yet his council has always been sought by the trustees and faculty and any suggestions he made would be almost like law. I have seen a letter from him within

a week, addressed to the President, in which he earnestly urged the continuance of this same principle; the non-distinction on account of color and a course which would give the children of the freedmen privileges equal to those of any university in the land. As a matter of fact, the number of colored teachers and professors has increased in the past five (5) years, since Dr. Rankin has been President. We have such colored men as Fred Douglas on the board of trustees and he is with us in perfect unanimity as to our policy. Truth to history requires a slight modification of your statement, as to the endowment of Howard University. To be sure, Gen'l. O. O. Howard has given, without compensation, much time and thought to the institution and without a great fortune, in the encouragement of others to give, he subscribed Ten Thousand Dollars ($10,000) towards the endowment. It was some years before he could pay this, but he always paid the interest and finally was enabled to pay it in full. But the original founding of the institution resulted from a wise investment and management of funds that came into the care of the Freedmen's Bureau by an assessment upon colored soldiers, or from unpaid bounties saved for the benefit of the families of the freedmen during the war. These funds were at the disposal of the Chief of the Bureau and were expended in establishing permanent institutions in different parts of the South. A portion of them was used by Gen'l. Howard in the purchase of a large tract of real estate in the District of Columbia; now in the city of Washington. Gen'l. Howard foresaw
that the land would increase rapidly in value and purchased one hundred and fifty (150) acres. Some fifty (50) or sixty (60) acres of this were set apart for the University grounds and the remainder was carefully laid out and platted and afterwards sold and the proceeds set apart as an endowment for the University. All this was conducted under Gen'l. Howard's supervision while he was at the head of the Bureau. He also at that time served as President of the Trustees and for a brief period, until they could find a suitable person, he was the actual President of the University.

I have given you more perhaps than was necessary, but it seemed desirable to put the facts clearly before you, in order that you might correct the apparent injustice done, not only to Gen'l. Howard, but to the present trustees and faculty of the University. As a matter of fact, there is no "grave miscarriage", as your article has it, of the original intention, either of Gen'l. Howard or of the other donors and founders of the University. From some source, the writer of the paragraph in your paper had been mis-informed.

I hope some time to have you a guest again in my house and it will give me happiness to take you by the hand any where in this world or in the next.

Most cordially yours,
Springfield

Dear Sir:

In regard to setting the mount for R. B. H. I think it was well done, although I don't think I am an expert at the business for this was my first. We dug a hole 3' by 3' square + 3 1/2' deep + filled it with blocks of rock about as big as a man could handle. I don't think it will ever stand. We let Gen Howard know when the Monument was to be set + expected him down but she did not come. I went on to the dig hill with the men.
To see what he thought of the chance for a town the idea was very much pleasant with the idea. Was of the opinion there was rock enough without help many up the hill.

Mr. L.H. Summer was badly hurt in the woods a few days ago by a tree falling on his arm. Dr. F. was summoned. Our family are all well now.

JAN 30 1895
To Mrs. C. O. Howard
Portland, Me.

My dear General -

I have delayed writing to you as long that I might be able to report to you favorable progress in the work at Camp Met. Chapel. In some respects the outlook is good. I have just reorganized the Y.P.C.C. with considerable enthusiasm among three of the young people who haveChristian work at heart. I have elected Mr. Reardon of the 2nd Camp, Rev. Mr. Stiles, Francis Reed, Miss Eva Stiff, Mrs. Lee, and Miss Anna Knoll in Charge of the Book and Corn. They all have taken good share of the work and with the training and guidance that I have given them. In help of our planned meeting, I expect great things from our Endeavor. - The program of work as we have mapped it is:

1. Tuesday Business Meeting & Social
2. Tuesday a Popular Lecture by some prominent lecturer.
3. Tuesday Van Endeavor Rally.
Association meeting Tuesday, literary and musical entertainment by the members. And on every Sunday evening a half hour prayer meeting just before service.

I am also attempting to organize a ladies aid society for work along these lines. I find there has been no real and living organization of the forces on camp yet. It has been an idea of a society which has grown up and formed itself into a church, but it has never been vital and aggressive. Now I am to constitute that I cannot do work unless I do it systematically and with an church that is fully organized. I believe in an aggressive church. A church whose aim is not self-preservation and self-preservation, but the salvation of men, the winning of souls. A church that represents the spirit and life of Jesus. That is the spirit of Charles G. Finney. That is the spirit of St. Paul. I am praying for such an establishment at camp.

I did not wish to and do not now wish to write to you about the drums and bands, but now I must speak up. That is George Davis. If I were asked the bed...
What is the great sinfulness - I wonder it. Verse 21:18

and mention Ex. 22:4 as The one representing the

first command: As Joshua was defeated at the

Dulce of Bethan, so we will be defeated at Camp

Chapel, until we do as Joshua did with Ashan.

No matter who comes to Camp Chapel today, as long

as he is there, there will be no success in winning,

of the Sinners. People from another - in my brother's

neighborhood. I find people who will not come as long as he keeps them out. This statement

has been made to me: "I cannot and will not come
to a church where the devil is downtown." I find

also that he will turn people away from the door

who have a trump like appearance - the very face

of people we are trying to lead. It is one mission to

earn.

The it is who is the underlying and efficient cause

of fermenting discord and strife among the Brethren

and makes the Young Preachers dissatisfied. This

comes deeply and is the quick in directing way

of which he is master. The trouble you have

known in the past and which other exist in some

measure can all be traced to him.
He is trying and has for a long time sought to have
the Kindergarten work discontinued. He always in
every possible way to the teacher. H. Sharpe, seeks to
make her work hard. Does things that there just does
mean his inner nature is.

No man. That is called to the work at Calusa
Chapel will work happily and with freedom as
long as Lewis is the pastor. It seems to be the
dictation. Who says. Where to draw many meetings
there. He left.

It is in league with the worst elements in the
neighborhood. And through his instrumental he
led people there in the race he invited to and
there taken food in the Young Men's Christian
Association. I discovered while protesting against
the renewal of the license of the bar at 398 East
Dumf. Before the Board of City. Facts were brought
out in the testimony in favor of the Saloon keeper
concerning some of the young people and Lewis.
This compromised my position as pastor a little.
If this personal think habit I shall

Be so unwise. I could stand that. Should

...
were merely a means. But his disposition and character in such a way, that it is impossible to do a successful work while he is there. I have talked with the majority of the camps on this question and I feel that they agree with me. That the time has come to break our freedom from the dictatorship and in memory of the Lewis of San Francisco - I cannot say how to stand. The man who is friendly with Lewis knows Lewis to further his interest - I am glad he is not a member of the board of trustees. When the question of Lewis' removal comes up as he would not doubt hold on to him - I am only judging from his statements and the apparent intimacy that exists between them. I have talked freely with Steelman about this question - and shall also with Dr. Steadman.

I am so anxious for the work to succeed. My heart is in it - I want souls won to Jesus. But I cannot work - and no one can work until we put ourselves right before God and the community. I believe okay that very much of the dissatisfaction with Mr. Stedman was brought about as indicated above.
I also think if it had not been for him the difficulties connected with Jaeger's work would not have arisen—Jaeger is doing splendid work. The enemy is the real worry. I know him back with us if I can get him—The thousands of miles connected through his work long to be in Camp Chapel today. They had a wonderful meeting over there last week. I was over there with them.

Our finances are in bad shape—We are having a Grand Ball Campaign. I could no doubt get money for normal expenses.

I have told Meyerhoffy Camp Friday. Francis, that we must free ourselves from the mistakes of the past and show the world that we are doing something—that we are saving men. And the money will come. Tell that the money will be given them money to maintain a respectable establishment. Of course they don't like that term, I wish I wish and pray for the help of a few earnest & consecrated souls, men—full of the Holy Spirit & in the Saviour for salvation, then a glorious time.
we would have on Clemett St. There that I have with my. Need consecration and I am afraid they do not understand that term. Dance is by all odds the most earnest Christian we have in the Church. Of course we are doing some good work. He is doing the best we can. Grouped as we are financially Grouped as we are spiritually. The Lord is still working as fast as He is gracious. In the SS we have a fair attendance and I think we have about 30 newborn children with us. The kindergarten is doing a good work. This prayer is insisting that the children come clean and then be led them back home, it indirectly teaches mothers cleanliness. And then I have a case that I am hoping to pray for a poor drunken tramp for two weeks they have now held out. If I can say. Safely saved and standing in the rock press. It will be the reuniting of a family. And trying to use a fully consecrated woman who is the wife of my tramp & I siege children. I have been to pray them and the tramp is a no 1 contractor. I sory and believe.
I have written at length as to give you a full picture of the work and its details. I am praying for guidance and wisdom to do what I know must be done that God's work may prosper at Camp Chapel.

Oh, yes. The Rededication we have determined to hold until your return before having those services and if possible. I shall so plan it so that it may be the opening also of a Soul Saving Campaign. I could not think that the Rededication would be right and profitable to us. With your absence.

I hope your trip to the Pacific Coast has been fair and you have time to be enjoyable and blessed.

With my most earnest prayers.

U. S. Army, Retired
Portland, Oregon.

Dear Sir,

Your kind letter of the 14th of December, to Mrs. Sparks, was handed to us.

And read at the first regular meeting of the Camp.

We desire especially to thank you for your kindly interest in us and trust that we may continue to merit it.

As a Camp we wish pleasure extend to you an invitation to call upon us whenever it may be possible we highly appreciate your recognition of us and wish you much pleasure and happiness.

Very truly yours,

Q. O. O. Howard Camp #110
