Dear Father:

Your letter just received
enclosing copy of letter to
Dr. Funk. What you said
was correct.

On the same day Dr. Funk
wrote you (Apr 24) he also wrote
our house. Had he waited until
he had read the reply from our
house he would probably not
have written you. The reply from
our Mr. Stanley stated that no
~~such~~ statement on the matter
had been made by you.

I have had the stenographer
make extract from the letter
sent to Mr. Funk.

Gentlemen:--Your favor of the 24th inst is at hand, and we are glad to note your discussion of the matter of the military definitions in the "Standard Dictionary." We hasten to make a correction, for our former letter evidently has done injustice to General O. O. Howard in your estimation, and further, we may have had a wrong impression in regard to the matter ourselves. Our information in regard to the military definitions of the "Standard Dictionary" having been made from Farrow's Military Encyclopedia, comes to us through Mr. Chauncey O. Howard, son of General O. O. Howard, who is one of our salesmen. General Howard himself has made no statement in regard to the matter, so we hasten to make the correction.....

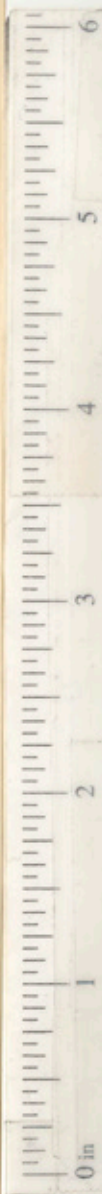

We hope this explanation will show you that General O. O. Howard is not at fault in any way in regard to the statement which we made to you, and this statement has not been made by us to any other persons.

Yours truly,

Major General O.O. Howard,

Dear General:---

Yours of the 24th. is at hand. I did not get a chance to answer it in time to mail to Glencoe, and therefore have not hurried to reply. I judge from your note that you called on me at my office, and regret very much that I was not in. I am very sorry to say that I have been unable to secure a contribution from any of the Generals to whom you so kindly gave me letters of introduction. General Miles plead that for the present he was over-whelmed with work and could not give any time. General Ruger said that he never wrote anything on any subject although he had been often asked to do so. General Schofield said that he had made it a fixed rule that while he was in active service he would not make any written contributions of the kind desired. I have not as yet heard anything from General McCook although I have written him twice to know whether I could expect anything or not.

I fear there is a little misapprehension perhaps on my part in regard to the compensation for your article. I would not for anything seem to haggle on a matter of this kind. What you wrote in your first letter, in which you promised to write the introductory matter, stated that your price would be \$15.00 per thousand words, and that you expected then to contribute about 2000 words. Mr. Odell is financially interested with us in the getting out of the book and we have already written him stating the price that you named. We have naturally figured on this basis in counting the cost of the first issue. The matter you sent us amounts to about 1200 words. Would it not be satisfactory if we would send you under the circumstances \$25.00? I am sorry if we have labored under any misapprehension, and would not want to seem small in the matter, but you will see just the position I am placed in.

Very sincerely yours,

Robt. W. Patton

Dear Sir:

I congratulate yourself and associates on the completion of the Victor transaction in Southern California. I have been acquainted with the possibilities of that region for some years, and have known some of the men connected with the enterprise from its inception. In fact, I am well acquainted with nearly all parts of Southern California and know that your company has secured what may be made a grand property.

I should like to become connected in an active capacity with your enterprise, and believe myself possessed of some of the requirements of success in that connection. Like yourself, I was graduated from the Military Academy at West Point (1869) about number 5 or 6 in my class, although I left the Army many years ago.

My dear General

It seems a very long time to me since I have heard from you.

I of course feel anxious to know whether you still retain the Mines in the Temple's name, or if they have passed entirely out of your hands -

The Consul, with whom Sister Phoebe dined with a few days ago, said the Panama Canal was going on, and if the title to the lands was all right - the

would no doubt be of value -

I suppose by this time you are settled in your Burlington home - I hope you and Mrs Howard have enjoyed the winter -

I am sorry to trouble you, but I still retain an interest in the Misses for my dear husband's sake so when able to do so, will you let me know how I stand with regard to them? With kind remembrances to Mrs Howard and yourself

I am yours sincerely

I have as your old chief clerk while you commanded this Department, taken the liberty to write you a few words. I have served under a great many Generals during the war and since the war, as chief clerk for Generals Terry, Brook, Gibbon, Brooke and yourself, but I do not think I have ever had the pleasure of serving with or under our new Dept. WAR DEPARTMENT,
SURGEON GENERAL'S OFFICE.

131

Washington, April 15, 1895.

My Dear Colonel:

This office I am sure but shares the sentiment of all your comrades of the Medical Corps that the occasion of your approaching retirement ought not to pass without some expression of their appreciation of the services that you have rendered the Corps and the Government, and their cordial wishes for the enjoyment of the well earned rest which now comes to you.

Your services have been very varied and most important, covering as they do almost every kind of duty that can devolve upon a medical officer; in fact, so varied that it would be impossible to note even a synopsis of them. Entering the service more than forty years ago, your record shows that you served in the Department of Texas, on the Utah Expedition of 1858, then came to Washington as an organizer of hospitals and principal assistant to the Surgeon General, often acting as Surgeon General in his absence; then as Medical Director and Chief Medical Officer in Arkansas; at Jefferson Barracks, Fort Wayne and Fort Monroe; then Medical Director, Department of Texas; Attending Surgeon, New York City; Medical Director, Departments of Dakota, Arizona, California and Department of the East. You have often been called on to serve as member of Retiring and Examining Boards, and to represent the Army Medical Department at meetings of Medical Associations and International Congresses. Always and everywhere, both in peace and war, your work has been marked by energy and great ability.

You received the Brevet of Lieutenant Colonel for "superior ability and excellent management of the affairs of his department," and that of Colonel for "meritorious services and devotion to the sick during the prevalence of Cholera at Little Rock, Arkansas."

Your valuable contributions to medical literature ought also not to be unnoticed.

You carry with you into retirement, my dear Colonel, the sincere regard not only of your brother members of the Medical Corps, but I know of all the officers of the line with whom you have served.

I write at the suggestion of the Surgeon General of the Army, who has been absent for several weeks, and while I know that this letter, if written by him in person, would have been a better tribute, I am happy to have the opportunity of expressing my own sincere personal respect and regard.

Very respectfully yours,

C. H. ALDEN,

Acting Surgeon General, U. S. Army.

Dear Friend.

I received a letter from you dated at Geneva. and as you said you were travelling I thought I would wait till I heard from you before writing. But seeing the notice in the "Herald" of your being at the "Artor Home". I called and learned you had gone to Burlington Vermont. I am very anxious to see you. and have your advice on a very important matter. I have made considerable progress in my Business and have created a demand for the goods. We have had a very hard winter ~~then~~ here and it is only with the aid of some kind friends whom

the Lord has raised up for me in
his loving kindness that I have held out.

I sincerely hope that you
and your family have enjoyed good health
during the summer on the Pacific coast
and are still blessed with the same.

I have had two spells of sickness since
I saw you. but have come out of them
thanks to the Lord for his mercies. The church is
doing about the same. I see very little change
in the tenor of things.

At Bethany there has
been very rapid strides made. Mr Richards
has almost completely transformed the
workings. and made the Church a
perfect Beehive of workers. The Boys Brigade
is a great success. Among the other branches.
There is a Boys club. a young men's institute.
A young women's association. A young women's
Gymnasium. Children's Chorus 200. voices. Boys Brigade
Bible class. A kinder garden. a sewing school.

(2)

and the Sunday School as formerly.
So you can judge somewhat of what
has been done. The boys many of them
remember what you said to them
in your Lecture on the battles. There
are many very bright and promising lads
among the Boys club and Brigade and
I am confident they will make good
and useful men.

I would like to go on telling you
of the different events. But wish to keep in
reserve the rest until I see you. which I
hope will be before many days. please
let me know when you will be in
New York. as your Exhibit

With kind remembrances to
your wife and family.

I am very truly and sincerely
Yours
Chas. H. Shepherd.
