Dear Sir:

Your letter to Dr. I. K. Funk pertaining to Mr. E. P. Doyle, Sec. of the Prohibition Park Building-Loan and Savings Assn., was turned over to me to answer. It seems that there is a shortage in Mr. Doyle's account in his work as Secretary of the Fish Commission, but we have every reason to believe that he is perfectly honest. He may be a little careless at times because of the great amount of business he has to do, being connected with a number of associations, a director in a savings bank, and county commissioner, and various other things.

It would probably be better if in remitting in the future you would make your checks payable to B. F. Funk, treasurer, and send them to C. J. Daley, ass't sec., West New Brighton, S. I. In this way there would be no question but that you would receive proper credit.

I enclose you your Building-Loan book, which has been written up to date. Your payment of \$10., which has just been received pays for the month of Dec. We have not received a payment for Jan. yet, which was due last Saturday, as the payments are payable in advance.

Yours truly,

Dear Sir & Bro:

I cannot find words to express my feelings for on receiving your letter under date of Jan 10., it is just wonderful how the Lord supplies my needs; and perhaps you can try to imagine how thankful I feel to you for your interest in me, but all that I can do is to endeavor to prove worthy of your confidence.

Dear General Howard.

I cannot express thanks enough in a letter to you for your kindness in answering me as promptly as you did knowing how busy you are, say nothing of your kind offer to contribute to my book such valuable and interesting data. General It will be invaluable to me as the poor old Captain was very vague on dates names &c, which left me as you know a little uncertain on some points, now if I get your data that you speak of I can go ahead and feel with what I have seen and know for myself and what he told me about the Apache history and your experience I am equipped for business and will feel strong in facts, for those are what I intend giving I am sick and tired of reading misstatements about the Indians I am unprejudiced on either the side of the government, or the Indian, I know that some statements made by some writers have caused our government to spend hundreds of thousands of dollars foolishly on the frontier, but I do not believe we can remedy these things by making personal attacks but by making plain statements from observation or from the observation of reliable people like yourself and Captain, and I say again I believe you are a God send to me in this I shall regret all my life that I did not meet you personally while you were here last year I hope you will come to Los Angeles again soon I expect to always remain here, for my buried treasure is here I

cannot leave for long the grave of my only and darling son, who is burried in Los Angeles, I lost him with la Grip two years ago he was such a large stout boy and was my only companion and comfort in my travels and at home for seven years then I thought I would stop here a couple of years after coming from old Mexico and let Fred have two years of schooling, before starting on another trip of investigation and in three weeks he died at the age of fifteen. I then married Mr Crane, who was an old and tried friend who was here somewhat out of health then but has quite recovered now so you see I have struggled under a heavy load but I do not sit down and cry and moan for my boy for I am certain he is better off and I promised him while he was dieing that my ~~sk~~ life should be so that when my end came I would be ready to meet him and he always trusted his mother and he died happy in that promise, and I will be there to meet him, and the prospects of that meeting gives me new life and strength to complete the work I have commenced here believing that it is a mission of right and justice to do it, and my good husband assists me all he can he is like myself not rich in this worlds goods but we have some comforts we do not need much we have a very good library and I tell you we have many a feast on that.

I will mail to you today a set of pictures of the Stronghold on the West side of the Dragoon mountains, I took them with a kodak myself I think they are good dont you? I also enclose you a letter of introduction from Captain Jeffords, which he insisted on my sending you, he will be pleased when he hears what you are going to do for me . Now General when or how shall I send the

Oh how I do look forward to reading those manuscripts of yours, how long will it take before I get them after I send the check so that he may go ahead with the writing, I hope it will not inconvenience you too much but I shall lay away my part of the book until I see what you have written and I do not wish to in any way discord with your account by making a mistake as I told you before that Captains memory has been treacherous in some things and I know it.

I will not bother you with a longer letter now, but hope to hear from you at your earliest convenience.
