My Dear Sir:

I am instructed by Mr. Henderson who is not yet able to personally attend to his duties to write you ~~you~~ relative to the amputation of his leg which occurred on the 28th of August. The operation was in every respect a success and Colonel Henderson is coming out of the ordeal in a splendid manner. I sent you copy of the Dubuque Times containing an account of the amputation and hope you have received the same by this time.

Father is away from home and in his absence your letter, enclosing check for \$35.00, comes to me for acknowledgement. I am sure Father can make good use of the money, but I will hold it for his return, which will probably be at the end of this month, when he can designate the pupil who will be helped by it and whom

return can write to the Society of which you speak. In the meantime I will write to the Society to explain the delay that is necessary before they may hear from their protégé.

Father went to Leavenworth to take his examination for promotion, and we hear this morning that he is just through. He writes that he felt quite like an old war horse in getting back to the military atmosphere!

Dear Gen. Howard:-

It gave me pleasure to receive your note of Sept. 4th, and to know that we may expect you at New Haven this year. I have not looked up the record of your attendance at the Board meetings, but I know that every year you have recognized your membership in the Board and have sent a letter asking to be excused from attendance when you were unable to be present. As I understand the new rule, which was presented by Dr. Park of Gloversville, N.Y., it was intended simply for those who year by year retain their membership, but never attend the meeting or acknowledge their membership by asking to be excused. This was continued so long in the case of one man recently, that when I came to this office I had to institute diligent search to find him. Our last record located him in Colorado. I found him in a little Presbyterian neighborhood in Maryland, having almost forgotten that he was a Corporate Member.

With most cordial regards,

I am,

shares of stock, not that I want to offer any large inducements for you to do it but because there really is a great country to be explored and developed and from letters which I have already received and subscriptions, I am sure that the stock will be subscribed for within a short time. You see it is so easy to take stock when you realize that you have about 40 months in which to pay it or it could be paid in full if so desired.

I have only been able to take and hold 100 shares myself, and I would be delighted if you would take 200 shares and hold half a hundred for me then, when I struck it rich out there, I would have something in Burlington to fall back on. I want you to consider the matter carefully over and let me have a real good letter on these lines with at least a small subscription, if nothing else.
