My Dear Sir:-

This will let you know, that I have associated myself with "The American Exhibitors' Agency Co." for the Paris Exposition, of 1900, and at the kind suggestion of my friend, Col. Emile Mo Blum, of this city, I have accepted the position of Secretary and Treasurer of said Company.

I enclose an advance sheet of the prospectus, etc. which I ask you to peruse carefully.

I have given this matter considerable attention, and I am fully convinced that a great deal of money can be made. Your participation in this enterprise, whether direct or indirect, would conduce greatly to insuring its success. Well known men are already interested in this agency. Namely:- Gen. H. A. Wheeler, Propt. The Wheeler Coach & Reclining Car Seats, Brigade Commander of the National Guard, Chicago, Ill., (late of the U. S. Army, and a graduate of West Point.) Monadnock Bldg. Chicago, Ill., and many others.

Desiring to have men standing and business ability associated with us in this enterprise, I bring it to your attention and bespeak for it your friendly consideration.

At the request of the United States Commissioners, we incorporated "The American Exhibitors' Agency Co.," in the State of West Virginia. It was necessary to do so, in order to secure the entire assistance of the United States Commissioners.

A great many exhibitors have already applied for space.

The Company has been incorporated under the laws of West Virginia, with a capital stock of \$500,000 divided into 10,000 shares of \$50 each. The Company will issue 100 6% bonds of the par value of \$1000 each, and will with

Company will issue 100 \$5 bonds of the par value of \$1000 each, and will also

each bond give Company's stock to the value of \$1000.

Only one fourth of the face value of the bonds will be required for a first payment, and it is not expected that more than this first payment will be at any time required. Should, however, the exigencies of the business demand it, a further payment commensurate with the needs of the enterprise will be asked for. Pending the completion of payments, the bonds will be delivered in escrow for the purchasers, to some reputable Trust Co., of this city. Should, however, the remainder of the purchase money not be called for and the whole price of the bonds consequently not paid, the bonds will be returned to the Company upon the repayment to the purchasers of such installment or instalments, as may have been paid, with accrued interest.

The stock will be delivered immediately to the bond purchaser at the time of the first payment.

To illustrate, I may add, that upon the payment of \$250, the payer will receive stock to the value of \$1000, and be entitled to interest at 6% on so much of \$1000, the face value of the one bond, to be delivered to him in escrow, as shall have been actually paid in by him.

Let me know how many bonds I should reserve for you. I would feel very much obliged if you would kindly advise me of your views on this subject, at an early date.

Dear Brother:-

You have doubtless noticed that Gen. McCook is candidate for the place of McKenna for Attorney-General of the United States. You will remember what I wrote you about the Hooker case, and the source of all authority in that is the Attorney-General. It would be a great thing for me to have a friend of ours in that place, one to whom we could talk freely, I think, to arrange to bring forward the case, which has all the equities on its side, so that it should not be put off and put off to all eternity as it seemed was the policy in the past.

Another point in regard to Gen. McCook's appointment. - I think it is fully settled that McKenna is to go on the Supreme bench, with comparatively little pushing. I believe Gen. McCook will come into the Cabinet, and still, there is the fact that New York City has already a member in the Cabinet, and possibly that may prevent McCook's appointment. There

There is another ground why I should like to see him come in. You remember my friend Judge J. H. Call, who I think you recommended to the Secretary of the Interior, or to the President - probably the latter - in connection with the position of Attorney-General for the Interior Department, for the management particularly of their railroad matters and other law matters. Now, within a few days the Supreme Court of the United States has reached a decision, as you may have noticed, on the Pacific Railroad case, involving what is known as the "overlapped"

land. It was that case that I had to do with when you went with me to see C. P. Huntington at his home. The lower courts had decided against the railroad at that time, and I went to Huntington to see if in view of that fact I could not obtain from him a quitclaim deed of the lands we wanted, so that I could proceed under the United States laws to obtain title and make a perfect title in that way, and save our settlers all anxiety. Mr. Huntington rather poohed-poohed at the decision of the lower court, informed me that he had appealed it to the Supreme Court and that he had not a particle of doubt it would be decided in favor of the railroad; so he refused to consider the matter of giving us a quitclaim deed or in releasing in any way to the United States the land in question. Of course I did not argue the case with him, but I felt convinced that if justice was done the land would go back to the United States Government and the railroad would lose it. Such finally has been the decision rendered last week, and this whole matter was conducted by our friend Judge Call, both before the lower court, and also before the Supreme Court; so that this decision is a triumph for him, and, as it were, puts a feather in his cap as a good lawyer, and as on the right side of this question and as on the side of the Government as against the railroad, which just now is the popular side.

Now, I do not write you at this moment to ask any direct favor for Judge Call, who by the way had concluded not to put in his application for the position in the Interior Department, foreseeing at the time that he was likely to be defeated; but if you could see your way clear to lend a helping hand to the appointment of McCook it would be a favor to Judge Call, and would tally on the right side in that matter as well as in the Hooker matter. RECORDER'S OFFICE.
BUCKS COUNTY.

Doylestown, Pa., October 29, 1897

General O. O. Howard,
Burlington, Vt.

Dear General:

I called around at the hotel this morning to see you before your departure from our town, but you had made too early a start for me. You will recollect, I presume, that the writer of this is the clerk in the Recorder's office, to whom you were introduced early upon your arrival in our town, and who had the honor of commanding the soldiers who escorted you to the stage last night in the Court House.

I am writing a history of the battery, a couple of chapters of which have appeared in the newspapers, which I enclose, thinking they may be of some interest to you. Also, an account of our recent reunion, by which you will learn that the boys are earnestly desiring that I should be appointed postmaster of this town. I have thought since your departure, that possibly you may be able give me some help. If you could see the President, or write to him in my behalf, it would have a wonderful influence. The term of the present postmaster will not

expire until about the middle of February next, so that there will be ample time to attend to any matter of this kind.

I have but one opponent, an old political bannacle, who scarcely knows what it is to be out of a political job; a man who was drafted and sent a substitute. I have never held any office. Nominated in the Garfield campaign for County Treasurer, I was defeated because the county was hopelessly Democratic. I hope I am not presuming too flagrantly in asking your help. I ask your assistance as one comrade would call for help from another.

I hope you had a nice trip to Washington and a safe trip home, and that you and yours are in the enjoyment of health and happiness.

Yours Fraternally,
Charles A. Buffel.

My Dear Sir

As per your kind advice I wrote to Mr Rossiter Mr Vanderbilt's Secy and in due season received a reply from him to the effect that Mr Vanderbilt will be in Europe for several months and no one was authorized to act for him in matters of the kind referred to.

Some time ago I wrote to Rich D. Morse. International Secy and placed the facts before him and while he did not give us much encouragement he suggested Mr Wanamaker & Mr Rockefeller as gentlemen who might possibly assist us and I have had prepared similar letters to them but am quite at a loss how to properly reach them.

Can you suggest a feasible plan. I trust I am not in any degree annoying you, by troubling you in regard to our troubles, but it is a matter which we pray much about and to me God will reward us in the end if it is wise that we should continue. This will be done.
With heartfelt thanks for your kind assistance I am
Very Truly Yours C. C. Bradford.

My dear General

I received the Contract from Panama a few days since and your letter from New York this morning.

After reading over the Contract very carefully, I have come to this conclusion - that no one man or company of men, will have anything to do with the Mines under these prescribed conditions.

What is next to be done now, I certainly am at a loss what to say. Nothing as far as I can see, has been gained by the Announcement - the Mines seem farther off to me now, than ever.

O. if they could only be sold, even at a far less value than their original cost, what a relief it would be - I really do not feel able to bear additional expense (and from what you say I judge you are in the same plight. It certainly would be a sorrow, a great disappointment

October 23rd 1877

Contract could not be altered and
arranged so that we could place
it before parties that would be
willing to supply money to make
the mines available. As we see
by your letter and from the
opinion of those in Panama R.R.
when the mines were opened
and the buildings put up that
at first the time they would be
in good working order, that the
whole plant would be given
over to the Government without it

you again to see what can be
done about arranging this matter

to have the Mines pass entirely
out of my hands, without some
recompense, and yet, I am afraid
this is what I must make up
my mind to bear -

However behind a "frowning
Providence, God hides a smiling
Face" and this may be "the
dark hour before dawn". So
I will not despair as yet.

Let me hear please
as soon as possible, if able
to get the Contract in a
better condition, so it can
be decided what is best
to be done -

Dear Sir:

I am planning a new illustrated circular for our work, to contain - among other things - a few testimonials from well-known friends, with their portraits. As a business-man, you will at once recognize the value to us of such an advertisement, and the greater likelihood of such a circular being read.

Will you not kindly furnish us with your portrait for this purpose? We should appreciate the kindness very much, and would, of course, expect to relieve you of any expense in the matter.

If, in acceding to our wish, - as I sincerely trust you will, - you desire to write a new, brief testimonial, it would be an additional favor.

With the kindest regards, I am,
