ARKERY PUBLISHING COMPANY
I shall enjoy reading the book when I return! I shall not let the press pass under my feet, if you may be sure. Since my last to you from here we have preserved covered a good deal of ground. We returned to Florence after a month, engaged the Arch Newspaper and revelled in the fascinating associations of that wonderful city. Then by the way of Palermo for a couple of days we went to the Caserta Lakes. Both never did beautiful Baro + Maggione appear to reach the disadvantage I earned + gained + carried, not a day or two at a time but a whole week. The oldest inhabitant had never seen any thing like it! We seemed to be in the midst of a flood + there was no use in moving our Ark in the same conditions.广阔的 all over Italy + Switzerland + similar reports came from France.
England. It had rained eleven days out of the first fifteen days we were in Florence. Well, we waited and tried to be patient and submissive, but there seemed little prospect of any improvement so we came by the St. Gothard to Lucerne. Fortunately that day was beautiful and we were thoroughly enjoying that wonderful road and the beautiful scenery. We spent a week or more here but it rained every day but two. It was impossible to go up to the Rigi or Pilatus. In good health from Lucerne and there was no prospect of a clear view so I thought we would take a trip south and see some of Switzerland until the weather might be more favorable. We came to Baden-Baden. But the rain still pursued us. After a few days there we moved on to Heidelberg where I had never been without I found most interesting. I have some amusing photos which I shall enjoy showing you. We went to Maggiora and then from the Rhine (which happily was another beautiful day) to Cologne. We enjoyed a few days in that very beautiful town. The change was so great since I was there twenty years ago, that I would not have recognized it; but also the rain did not desert us, but we had in addition a terrible hailstorm that broke almost 100 panes of glass in the hotel room, which was not the paper window I can not but be sorry for the hotel proprietors this year. The Rhine was beautiful and then the Rain, but perhaps above all, beyond these causes is the almost total absence of American travelers which leaves the nearest and best hotel almost deserted. It may be a good thing for them to realize how much of their prosperity they owe to our people. From Cologne we went to Weisbaden but still rain, rain, rain. I have been getting very melancholy these past few months of my
threat has been very troublesome, "general condition the doctor says; we cannot recover from a long
storm + great anxiety in a moment
So I decided to settle here & take the
"cure." I have not much faith in
Sparty generally but I think it is the
place I am doing my best to give them a fair trial. We
have been here four days & had no
pleasure. I think I need more
further comment. The mystery that
I am now trying to solve is where
all the rain comes from. Change
month & even things
I wish to have the
slightest effect—all rains fail
the rain goes in forever.
I think I need not tell you how
near my heart the war lies. At first I thought I must take the first available steamer home, but the accounts we got over here were contradictory and unsatisfactory. Then it seemed nothing for me to go in the end, but I finally, after many anxious and uncertain moments, drifted into my original intention of remaining over the summer. After only three weeks I returned here, I hope to go to Switzerland in a month, then to Paris and sail in Oct. As I think turning my face homeward I begin to dread our custom house. It is really an ideal in a conscientious person the fear of its annoyance has deterred me from putting up a post many things for myself and others. Nothing astonishes me more than the Fraser way in which Conservatives & Americans brag of their economy. I cannot understand it! I am within to pay a certain amount of duty, but the difficulty seems to be to find any which is distributable. To remember the whole contrast, it was monstrous, that trouble has not yet to be met today. I am not ashamed of thehell until I get there! I have written a longer letter than I intended, hence I have had to pride on this sheet of paper. The letter, however, carries a warm remembrance to Mrs. Howard, Miss Pusey, and best wishes for you and all. I guess.

Very sincerely yours,

Elizabeth Kendall Upham.

Dear Harry:-

Enclosed find certificate #1940 for ten shares B. A. P. Co. stock in father's name, for which his check arrived a few days ago. The check having arrived just as the dividend was declared, the question of interest for two or three days is too small to consider.

I enclose also the dividend on the B. A. P. Co. stock owned by Bessie. I have just notified the Company of her address in Burlington, so that future dividends will be sent directly to her home address, #26 Summit St.

I was surprised and am very sorry that the June dividend was not as large as usually is, but as war is in progress, the Company undoubtedly deems it best to keep a larger cash reserve and declare its larger dividends later in the year, as the net dividends from year to year have always been 10% and more. Although it is not best to have it as an agreement, it is my hope and intention to repurchase the stock from father bye and bye, if I can afford it, at the same price at which I sold it to him, if at the time he is willing to do so.

As to my military service, I was ordered to Sea Girt with the State troops and have been relieved, not belonging to the four regiments chosen, nor being able to enter them, because older officers and my seniors insist on serving, and I cannot serve with New Jersey troops. This was decided to-day. As for service in U. S. Engineer Regiments, the First Regiment was filled by an understanding between its Colonel and the appointing powers. The Second Regiment is to be from the West, with no chance for me. The Third Regiment from the South, with very little

Dear Mr. [Name],

Enclosed find certificates of $90.00 for farm shares of A. E. Co.

I have been busy all day preparing a letter for my dear friend, the contractor, who is about to leave for the West. The contractor's name is John Smith. The letter contains his address, as the contractor was located in the district of New York, two or three years ago. He has returned to his home and is very busy.

In closing, I wish to express my gratitude for your kindness and understanding.

change, because Southern Senators object to more Northern officers. I was indorsed by many people: you know, also the Vice-President, and several Generals, probably all of no avail, because the Senators make deals in Congress with closed doors as to who they will confirm, but are polite enough to prevent nominations which they might not confirm. The Adjutant General is a shrewd man and careful to please Senators. Two brothers in the army also lessen my chances in the Volunteers. I doubt if I will be appointed, but feel that I have made a strong and honorable effort.

With love to all,

Affectionately, J.W. Howard

I am interested in many people you know to the Vice-President, and several Senate, properly tell of no small degree the Senate make secret in Congress with the good as to whom they will continue, but the public money to prevent nomination which they might not continue.

The President General is a member now and entitled to please Senators.

I hope if I might be employed, not least that I have made a strong and powerful effort.

Gen. A.Q. Howard

Dear Sir and Brother:

A short time ago through the kindness of Sec. Miller and Sec. Moore I met you at Camp Alger. I spoke to you of my desire as to the chaplaincy of the 6th Ill. I also wrote to you after your leaving. Col. Foster informs me that he has sent my appointment to Gov. Tanner.

Allow me to suggest please, that right now a word from you to Gov. Tanner in my behalf would be of great help in the attaining of the commission.

We are enjoying some glorious meetings in the YMCA tent here on the ground.

Hoping this may receive your consideration.

I remain yours in Christ

Major, Gen'l O.O. Howard,

My Dear Sir:

We should like very much under auspices of the Church and Association to hold a large public meeting in interest of the Army work. Could you not come to us during the next few days and address such a meeting? If you can do this we will agree to give you a large audience and probably raise some money for the International work.

I am sending a duplicate letter so as not to miss you. The run here is a very short one from Nashville.

An early reply will greatly oblige,

Yours very truly,

Dear Mr. Howard:

I telegraphed your Father yesterday to Sibley, Iowa, where he said he would be on July 1st, stating that we had booked him for Monteagle Assembly, Tenn., July 6th and 7th, and asked him to answer if it was all right. As yet I have received no reply and I am wondering whether it reached him or not. Is there any way you can telegraph him so that he will surely be there? If so, I wish you would do so.

Yours Very Truly,

Dear Mr. Howard:

I am telegraphing your letter received today. I have been in St. Paul, Iowa, where the signing took place. I have not heard from you since your departure, and I thought I would write you now to let you know how I have been living. I have been very busy with my work, and I have not had much time to think about anything else. I am working on a new project that I hope will be successful. I hope you are doing well.

Yours very truly,

My dear [Name],

I have not yet had the opportunity to write to you about our conversation with one of our army officers. I was somewhat taken by surprise with that interview, and the incident as stated in my letter would have gone to your audience in New York, a few years ago. Since I have been at the office, we met in the army department and I am sorry to say, influence their negligen against prosperity.

Gen. Howard,

Sir,

Over one year ago I made an appeal to you in my behalf. A letter was sent me on reply, over your signature. This is on file. A prominent gentleman told me last week you could do so much for me. After my husband’s convulsions you kindly secured his discharge from the Maine Corps, and then a place in Treasury which he held.
until called to Heaven. How many times he spoke of you! I knew the work of the I.H.O.O. A. of Pennsylvania, he was greatly helped and he will be one star, on your crown. I am left penniless. Only a pension of twelve dollars is really depend upon. They are making many appointments now and Mr. Hendricks told one to try and see was Charles H. Rev. George A. Hall is a swam friend. My husband's name was Charles H. Rev. George A. Hall is a swam friend. My husband was a Col. in 90th Pa. Reg. served during the whole of the war. I appeal to you, as my case is a desperate one. With great respect, I remain, Emily White.

Dear Sir: Your kind favor of June 25th, has reached me. I was甚望 to request you to convey your kind wishes to the committee meeting last week, and to accept your offer of $100 for Mr. D. O. Howard's address on the evening of Oct. 15. I wish to pay his own railroad transportation.

As Mr. D. O. Howard is not here in Saginaw till noon of the 15th, we shall be glad to have him read over Devotional Service in the morning session of the 16th, and perhaps speak a word on our financial work.

We note his own Religious Lectures. Would it he possible to get an address more suited to the occasion and to these Living Room Series? He may be able to suggest the theme and future developments...
may shape it. It needs a practical application to our Sunday School work in its relation to our Country.
