Dear Sir,

Confirming the telegram of Saturday night, we have made satisfactory arrangements with Mr. Johnson and you are to speak to the Worcester Local Union, Thursday Feb. 16th.

Your telegram of today received and am much pleased with the topic.

Have you any circulars that our press committee could gather information from for press items? Will try and get press notices into our three dailies, and any information will be gladly received.

Our young people are very much pleased, and already anticipate your coming. We hope the pleasure may be mutual and that you will never regret the evening spent with the Worcester Endeavorers.

Sincerely yours,

Waldo H. Lewis.

My dear General -

Perhaps I have passed from your memory, but the many days, weeks and months I was permitted to be at your headquarters in the Army of the Potomac from Falmouth to Gettysburg remain to me a very pleasant recollection. Since the close of the war of the Rebellion your movements have always been matters of interest to me to the time of your retirement, and thereafter the lectures you delivered throughout the Country before Educational and General assemblies have ever called to mind one of my old friends of most agreeable recollection.

While you were President of the National Temperance Society I hoped to meet you on occasions of some of the Society gatherings in New York, but destiny determined otherwise. I hope you are well and fairly active for one who has passed through the vicissitudes of war with their many casualties.

Meanwhile I married and am the father

Soon after his enlistment the battery was ordered to Tampa Florida. Within a short time after he enlisted he was appointed Corporal and fifty five days after his enlistment was made first Sergeant, and as such accompanied the battery to Porto Rico. He was taken down with Typhoid at Ponce and after passing close to the gates of death recovered and was sent to Fort Monroe where we obtained for him a furlough and brought him home.

He speedily recovered and by the end of his furlough was the image of a perfect soldier. Nearly six feet tall, weighing one hundred and sixty pounds and twenty three years old. His name is Leigh Sypher. Of course the young man is a student and has attracted the attention of the officers of his battery. Capt. Henry C. I have read of and am deeply interested in the grand movement inaugurated by you for the purpose of founding the Lincoln Memorial University at Cumberland Gap, East Tennessee.

This is truly a grand & noble project and I hope you will receive funds sufficient to enable you to accomplish even more than was originally planned.

I have some practical ideas - the result of experience - and being firm of the idea that they cannot but prove helpful to your organization I write to ask for an interview when I will be pleased to lay my plans before you.

Gen. Oliver. O. Howard. New York City.

Dear Brother

Your good letter is in hand and finds me at work in this section. I am much pleased with your plan of first paying off the debt on the land. I think the teachers ought to wait now for a while for their pay. This was my plan. and so we will try to raise the money for this purpose. and then pay the teachers say in the close of the school year in May or June. I know that they will take to this plan. and in this way we shall have no trouble to move on in the whole work. I will at once write to Dr A K Pierson that I want you to gather all the funds now due to the school.

I think on the whole it was best to go on a still hunt for the funds to pay for the farm. I go to Scranton Penn. this week then to Conn. and the New England states. We must see to it that we are guaranteed against any claims coming against the farm from the old defunct claimants. from this date. And we must have a clear extension of the debt say one and two years from date after paying say (3000.) or more. this will shape every thing all right. over.

I think it all right to use the Pierson fund in place of the
funds used to pay the teachers.

I hope to see you in a few weeks

Yours Fraternally.

Dear Sir:-

We have discovered that Section 7-31-29 was assessed to the Southern Pacific R. R. Co. in 1880 and the entire Section was sold March, 1881, for delinquent taxes amounting to \$15.11 which, with interest added, now amounts to \$41.00. This fact was not divulged in the abstract of title that was furnished us. The U. S. Patent to the S. P. R. R. Co. was issued in 1891. You purchased the land March 18, 1887, and received a deed April 25, 1892. Under this deed the Railroad Company is responsible for these taxes. We doubt if it will pay them. The S. P. R. R. Co. claim that the assessment was not legal and have commenced proceedings to have it so declared by the courts.

It is very probable that you will have to pay these taxes to enable us to carry through the Deacon contract. The parties who own the North half of the said section will not pay their proportion of the taxes; they are employees of the R. R. Co. and will await its action in the premises unless they should find a buyer for their land. Your half section is only a small fraction of the lands affected, therefore, Kern County is much excited over this tax matter.

Our attorney and other attorneys advise us to pay all the taxes for 1880 rather than await the results of the S. P. R. R. Co. proceedings that come before the Supervisors of Kern County in March, for the reason that the matter may be extended from time to time and the delay may prevent Deacon or Alexander from borrowing the money required to complete the purchase of the 80 acres.

We have requested the East Side Canal Company to segregate the water rights now controlled by you and issue a water right to Alexander to enable him to have a definite quantity of water delivered to the 80 acres. It is possible that the East Side Canal Co. will arrange this matter without special authority from you; but we write this in anticipation of having to forward to you a written authority for you to sign requesting the conveyance to Alexander of the necessary water rights for the 80 acres.

The attorney for the party who has agreed to lend the money to Alexander requires that the taxes above referred to be

My dear Sir:

I had made up my mind to leave everything here and go to you and settle upon some terms of a practicable nature. The abstract is a long one and it will cost a good deal to have lawyers examine it for a new loan, so that I would rather you would continue the loan. My visit was to be for the purpose of making a definite arrangement and one that I could meet. I have concluded to send to you my companion and friend, the financial agent of the University Eugene P. Fairchild, Esq. I have empowered him to act for me and for the University in this matter. What I want is to be treated as other colleges and universities are necessitated to be treated. That is, let us give a bona fide note secured upon the property upon the whole amount due with permission to pay in from time to time until the debt be settled, giving me as long time as possible. Every monied man that I visit gives me small sums varying from \$100 to \$500. I get very few for \$500. I propose to keep on going from man to man until the whole be raised and a large endowment secured. I did not get at the work as early as I would if I had thoroughly understood it, and I was interrupted in my plans by the war with Spain.

I have been solicited to go to Porto Rico, but that will only be a short visit and I will not go at all until I have secured enough money and lodged it in the American Exchange National Bank of New York to meet the mortgage. This is a great enterprise - this Lincoln Memorial, and is just at its beginning. Commending to you my financial agent, Eugene P. Fairchild of Berea, Kentucky, I remain, with esteem,
