Dr. D. K. Pearsons,  
21 Tribune Bldg. Chicago.

My dear Friend:

From the tone of your letter I fear that you have been prejudiced against me in some way. After I wrote you, I recd. the enclosed letter from Mr. Myres. I took this position of Managing Director at the earnest solicitation of Dr. Gray and other trustees and have labored night and day at my own charges and forwarded every dollar to the Treasurer, or Assistant Treasurer, all that I have received besides some of my own money. Nothing could please me better than for you to forward your money direct to Chas. F. Eager, Assistant Treasurer, putting upon the donation your express condition but I do not wish you to think ill of me; because I enjoy your esteem and confidence. In rain and in snow, evening and morning and all the winter, I have carried this cause of the mountain boys from office to office, from man to man. I have brought the press of New York to me and to my help, and I am perfectly willing not even to be known in the matter, provided my Master whom I serve will give success to his own grand enterprise; but the shoe pinches just here. No men are willing to give largely until they see the entire estate relieved from mortgage. Without the land, the enterprise will be crippled, and with the land goes a building that will hold two hundred girls - a building worth at least \$60,000. It cost more than that when built.

I enclose you a few words that I have said in the Christian Herald about another matter that may interest you when you are at your own sweet home. Next week the same paper proposes to make a strong call as possible for our "Lincoln School", including the Harrow School, of course, for it is all one thing - only a university in embryo.

I did all I could for President Frost. He told me that one letter I gave him, intended for the Vanderbilts, he has used for Henry Villard and that my letter brought him \$1,000 from that source. Yes, and it prevented Mr. Villard from giving me a thousand for the University; but in spite of that I spoke for him at a public assembly with all my heart. I say this because President Frost in his eagerness to complete his endowment has mistaken me and those who are working with me - i.e. - several of my strong friends so report.

The old Washington college in the mountains begins to pick up and they are co-operating with our trustees so that we shall go forward together. I am confident of larger help the instant the mortgage is lifted.

Mr. J. Lithgow Smith, the agent of the Columbia Finance and Trust Co. - the holder of the mortgage - writes me that he will not press me, and that I may pay in such sums as I can get from time to time. We propose to have his company correspond with their principals and so secure us beyond peradventure against foreclosure; part of the money being in sight, we are confident that they will do so. The executive committee at Cumberland Gap has used up my money sent in at the rate of about \$400 a month for running expenses. At least \$1500 which was raised to pay off the mortgage.

With much esteem,

Sincerely yours,

(S'g'd) Oliver O. Howard

## LINCOLN MEMORIAL UNIVERSITY,

CUMBERLAND GAP, TENNESSEE.

Feb. 7, 1899.

Dear Gen. Howard,

We have just received a letter from Mr. Fairchild at Louisville, in which he writes, "I have just had a long talk with Mr. J. Lithgow Smith. I do not believe they are in a position to extend to any definite time, But they are quite positive that if a payment is made now of \$1,200<sup>00</sup> they will be able to secure us the time we need. They have been very considerate, and I think we ought to make a payment at this time or give up. I told Mr. Smith I would write you to send the \$1,000<sup>00</sup> and Gen. Howard to send the \$500<sup>00</sup> at once."

Our committee have again considered this matter, and (including Mr. H. Y. Hughes of Fargewill who is a prominent lawyer and a member of our committee) we are still of the same unanimous opinion as before, that it is not advisable nor good business to make any payment whatever under the existing conditions, unless we are assured, in writing, of a definite extension of time, and unless directed by you we shall not send any money to Mr. Smith until he agrees to a stated extension of at least nine months time.

What would we gain? There would be nothing to hinder them from beginning foreclosure of their mortgage the next day after they received the payment.

We think that if they still refuse to grant the extension requested and proceed to foreclose, then

## LINCOLN MEMORIAL UNIVERSITY,

CUMBERLAND GAP, TENNESSEE.

we will have 30 days in which to prepare for the sale, and with a start of \$1200<sup>00</sup> already on hand. We do not believe that the property will sell for more than \$6000<sup>00</sup> or \$7000<sup>00</sup> cash or 9000<sup>00</sup> to 11000<sup>00</sup> on time. If we can raise \$2000<sup>00</sup> to 3000<sup>00</sup> more cash before the sale we would be in fine shape to bid in the property, and make a saving besides. We will however make this suggestion subject to your approval, "that we will deposit \$1200<sup>00</sup> in some bank, to be paid to Mr. Smith, provided he secured within thirty or sixty days an extension of nine months on the debt.

If this plan meets your approval, please wire me, "Make deposit subject to extension being secured" and send me the \$500<sup>00</sup> you have, which I will put with the 700<sup>00</sup> I have on hand, and will deposit the \$1200<sup>00</sup> subject to the conditions stated, and in a bank that will allow us 4% interest on the funds while on deposit.

But if you think it best to forward the \$700<sup>00</sup> now to Mr. Smith without any assurance of an extension of time, then wire me as follows, "Remit seven hundred to Smith at once," and upon receipt of the message I will forward the funds.

Yours Truly

Chas. L. Eager Secy

Charlotte Mich. Feb. 7, '99,  
Genl O. O. Howard,

Dear Sir, I have been greatly  
interested during the last ten years in  
Christian Education, and have written up-  
on it some what; Will you have the kind-  
ness to answer briefly a few questions:-  
How much money did Congress appro-  
priate at the close of the war for the edu-  
cation of the Freedmen?

I believe you were largely charged with  
the duty of distributing it. I worked for a  
time for the S. W. A. sending teachers South  
and I understood that you gave to each  
school in proportion to the number of  
pupils and - months of school work in the  
year. - and that you gave it impartially  
to all denominations Catholics - Uni-  
tarians, Methodists, Baptists, Baptists  
and Presbyterians, Am I right in this?  
What other facts had influence in deter-  
mining the amt of aid each school  
should receive aside from number and length of <sup>school year?</sup>

How long were you engaged in distributing the money? Was any special fault found with the rules you adopted for making the distribution?

I know you had enemies who made you a great deal of trouble - but that an investigation entirely exonerated you. So far as I know your mode of distribution <sup>was</sup> in accord with that adopted by our English educators in India.

The question that I am now studying is this, Has our govt and have the churches adopted the most economical and best system for educating the indian children. If I understand the matter soon after the close of the civil war our govt encouraged the different denominations to establish Christian schools for indian children and aided them by appropriations of money, but by means of a powerful Catholic lobby in Washington, they secured the lions' share of this money, and this has led the different Protestant bodies to decline any further aid from the government, and

to urge that hereafter the govt give no further aid to any denominational school whether Catholic or Protestant, so that the present state is this. the government is establishing at the several agencies, purely secular schools, and the denominations, are supporting Christian schools without any aid from the govt.

Now I query whether it would not have been better for the govt. to aid every school whether Catholic or Protestant in proportion to the amount of secular instruction each is giving, — adopting some such rules as guided you in giving aid to schools among the Brethren, — hence I have written to enquire by what principles you were guided in granting aid, and if your plan was not fairly successful.

Yours Fraternally  
W. B. Williams,

Dear Sir & Brother: -

Having learned  
that you were stopping in  
N.Y. City I have ventured  
to ask if you could come  
up to the Forest Ave. <sup>Congregational</sup> Church,  
one of the oldest churches in  
N.Y. City, and speak or preach  
to the people. It would  
be a great help to the  
church especially at this

time when we are making  
strenuous efforts to build up  
a strong work here for the  
Lord, (of the Congregational order)  
and as the tide of popula-  
tion is coming into our  
neighborhood we desire to  
make the best of it.

We could give you a church  
full of people and your  
coming would have lasting  
results. I know you are  
busy but I believe you  
will come if you can

My Dear General Howard.

I thank you for your letter and enclosure, very much, I have had two weeks of trial, with my hands, both of which were badly burned while extinguishing a second fire among my papers. The thumb and two fingers of the right hand, I can use, through a soft glove. I shall resume the use of both hands soon, I think.

Last year's fire was ruinous. That I have been spared now, and was able to save both house, and contents, with so little personal injury, is surely recognized by me as a kind Providence.

It is a lonely lot, during absence of family, nursing two invalid children in Texas; but duty keeps me here, and I hope this, inexpensive volume may have permanent value, to those who survive me. I may yet get courage to renew work upon my "Battles of the Bible." I have already done something upon "Lafayette and American Independence."

I send you "Battle Maps and Charts of the Revolution". The Maps are officially endorsed by the British government. I wished to use the same Plates, in Washington, but it would have made too large a book; and I reduced them. The original drawings were by myself, from personal surveys, and use of every manuscript, tracing, and itinerary in British or French archives.

I shall submit the Circular to a bachelor who gave \$1000,00 to Tuskegee, when Brooker Washington was here.

Dear Gen. Howard -

My delay has  
been caused by the hope  
that we might - hear  
of something for our fiftieth  
entertainment - cheap  
enough for us to be  
able to afford the  
extra money for the  
fare to N. Y. - and back -  
But - I am afraid that  
we can not - do this -  
we have to pay quite - 48  
heavily for the use of a  
hall, and as our hus -

hands were not very enthusiastic about the lecture-course and have given forth many dismal predictions of suffering from the debt - we were sure to incur, we have resolved in no case to go beyond the money on hand - so that I am afraid we can not - hear you on Feb-15 - much as I regret it - -

I was interested in the circulars you enclosed of work among the mount-ain whites by Lincoln

Institute. While I hope many people - Dec - hope our church may contribute something this coming year - I can not tell

May I also wish you all success in your mission to Porto Rico - May your efforts & your work be means blessed to quicken the hearts of this society & turn it into the right channel for the true civilization of our new possessions -

Yours very cordially -

fined that your valiant  
spirit again carried you to  
the front in spite of red-  
tape and technicalities, &  
though I had it arranged to  
get into the London campaign  
myself, but failed to sell some  
property at half what it cost  
me so as to provide for the  
needs of our wife and four  
offspring during my absence.

Truly three-fourths of the  
 weekly papers of the continent  
 have one of their sides printed  
 here in Portland. I will see  
 the manager of the Northwestern  
 Newspaper Union, and I think  
 I can arrange to get into all  
 the articles I will  
 send you new and almost  
 good things.  
 Hoping that you are en-  
 joying good health, and  
 wishing you that you will  
 always be held in kindly re-  
 membrance in the Northwest  
 I remain  
 very respectfully,

Oregonian editorial,  
Jan. 30, '99.

General O. O. Howard, our old friend of Oregon, is interesting himself in the Lincoln Memorial university, at Cumberland Gap, Tenn. In 1890 a school was founded there, whose work is now to be broadened; and General Howard is among those who have taken it up. Cumberland Gap is an historic spot. It is the pass of the Southern Appalachian mountains, noted in pioneer days, again in the days of the Revolution, and again in the days of the Civil war. It is the pass through which the pioneers, including the ancestors of Lincoln, passed into the Southwest. An effort is making to build at that place a living monument to the memory of Abraham Lincoln, in the form of a school which shall be an expression of renewed good will and fraternal feeling between the North and the South, and a possession to the country forever. Such a work is a fitting crown to the life of General Howard.
