Major General Howard.

To our dear friend -  
Your blessing has  
I am sure I remained with  
us. Dr. A. and I have  
I recalled again & again  
your noble words. Your  
sanctified spirit, your  
genial companionship;  
It was a sacred and  
helpful experience to  
us both. I grant indeed

that they share yours in reverently  
Dr. Wey. sign of the Crucifix or similar  
deparlement in the Harvard School  
of Theology. He is very happy having  
just completed a building fund for his  
collections - another noble man he is  
from Alabama & having his wife in  
exile. They have no children  
he will be a host on your side, etc!  
There are no money and spirits, there -

I redeem the time - to  
do good work and only  
that which is good, in  
the time that I remain.

I called upon my  
friend Mrs. Horace L.

Scudder yesterday -  
and later I had a talk  
with Mr. H. L. Scudder  
after Dr. Mebus's address  
at Fellsley - I told  
him of your devotion  
to the Lincoln Memorial  
Amnesty and later

talking with Leo. Burdett and other  
I think all across with one that  
you must come among us - in with  
us. and from our cold hearts with  
you son & soul - I do not need  
to say more to show you that I am  
interested in you and your work. and I have  
been very busy for some time  
as the best people in Boston believe

refreshment to come  
back to them. We have

we are all deeply - breathing in the fraternal  
shade - you faithful people - you feel  
a little his devoted - I was afraid he  
had risked his life when he was 16 years  
the man has made the two brothers  
& confers for a moment - but quick -  
teaches at my own side - and was he  
returns me perfectly revised at night,

my hands but must have some more  
I shall be back in a few days

Mrs. Hyslop & Miss Adam

be in Camp until

the month of July then

I trust you will think of us as our best  
and our flag on that day. With a great  
gratitude for the friendship of a  
Christian friend!

my many enquiries regarding you  
and your children, I am indeed glad  
that you are so I trust with them again  
and I believe you are seeing Dr. Hyslop
