Dear General Howard,

You will remember that we talked of allowing Miss. Treat, the music teacher, \$10.00 a month, which we thought we would be able to pay out of our general fund. Miss. Treat writes me now from Tallmadge, Ohio concerning the matter, and if you fully concur in this and will write me an official letter, authorizing me to give her the extra \$10. a month, I will write her concerning the matter. I think Miss. Treat a very substantial character, and one who will be very helpful not only in her own department, but in the way of assistance to the others.

I beg to enclose you herewith a letter which I received yesterday from Mr. Eager. I wrote him that we were a little short, and it was just possible that you might feel disposed to place to his credit in the Merchants National Exchange bank check for \$200. If you concur and give me official instructions, I will place this amount to the credit of Mr. Eager in the Merchants National Exchange Bank. Please return to me Mr. Eager's letter.

I also beg to enclose receipt of the two checks of \$10. each from Julius H. Seymour and S. W. Cress, same will be deposited to-day.

I hope you are quite well. It would give me great pleasure to take a run up to Burlington, Vt. while you are there.

With kind regards, believe me,

Yours very truly,

Dear Sir:

Pursuant to a resolution of the Directors of this Association, passed at the semi-annual meeting held at the Flag House, June 14th, the pleasant duty devolves upon me to acquaint you with the eminent success of the patriotic work we are accomplishing in the preservation of the Birth Place of the American Flag, which you and every Charter Member aided by your indorsement.

The Treasurer, George Clinton Batcheller, of New York, reported that he had on deposit, to the credit of the Association, a sum approximately \$10,000. This financial showing is remarkable, when it is taken into consideration that all expenses for certificates, clerical hire, expressage and mail together with the expenses for the printing and distribution of literature must be deducted from the one source of revenue--ten cent individual certificate.

By perusal of the semi-annual report which was published in the newspapers throughout the country, you will obtain a graphic account of the achievements of the Association.

A resolution passed at the semi-annual meeting, directed the Secretary to have a photographic reproduction of the Charter, made and sent to each of the Charter Members. In the near future you will receive this unique Picture appropriately framed.

Dear Brother:-

I was quite surprised when I reached home to find I had missed a visit from you, and really sorry. I see you so little now-a-days that I regret missing any chance. Strange to say, none of our family know whether you have gone back home or not. I still hope you may come by way of Chicago on your return, but write because there is some urgency as to time in a matter I wanted to mention to you.

Harry N. Culver, son of Morton, I think spoke to you, and perhaps you know something, of his military record, which I enclose. He has always been an upright boy and good citizen in Glencoe, and is thirty-three years old. He wants a commission in the new volunteers that are now to be raised. Is modest enough to ask only for position of second lieutenant, though he has been for ten years or more, as you see, in the Illinois National Guards, and had come up through the different grades from private to second lieutenant, and volunteered when the 1st Ill. Inf. was re-organized to go to Cuba and was commissioned second lieutenant. He did good service at Santiago and came home with the regiment, and has the commendation of all his officers. Enclosed is *copy* a letter I have just written for Senator Cullom. I think he will endorse it favorably and return to me. Now, I would like, if you are willing, to either have an independent letter from you that Harry could forward with his papers to the Secretary of War, or, if you very much prefer it, I will forward ^{to you} the letter after getting the Senator's endorsement ^{for you to endorse also!}.

There is this objection to that, that the Senator may be away from home, or he may not be willing to endorse the application so much out of his range politically since Senator Mason resides here in Chicago. I do not know Senator Mason, but think Harry will obtain some good endorsement from him also on a separate paper. Take whichever course you please, either writing a brief letter enclosing this copy of Harry's record for the Secretary of War, or endorse what you have to say on my letter to Senator Cullom, later, when you shall have the original before you. And in all this of course I recognize the fact that you may not be willing to do anything whatsoever, but Harry was in my Sunday School class as a boy and has always had a desire to get into military service, once having had the promise of an appointment to West Point but somehow failing to get the opportunity at the last moment. He is a fine mathematician and a good scholar, and has taken the full law school course and has been for some years in practice at the Illinois bar.
