My Dear Sir.

Although an entire stranger to you, I ^{once} had the pleasure of meeting you in San Francisco & being several times in your Bible class there. I have always felt the greatest respect and admiration for your noble Christian character and your excellent influence over young men some of whom I have known.

1899

So, knowing your kindness
I venture to ask a great-
favor. Will you most-kindly
write your name and chi-
dah on the enclosed
card + return to me in
the enclosed envelope?
Believe me - it will be
treasured as coming from
one - whom we most highly
love:

Very sincerely,

Dr. J. Grant:

Dear General Howard:-

I take pleasure in sending you by separate mail a report of the army and navy department of the International Committee's work, with which in its more active days you were so closely identified, and to which work you gave so much valuable time and service. I am quite sure the book will interest you.

May I also remind you of the unpaid balance of \$10.00 on your subscription of last year, which, when it is convenient, we shall be glad to have you send us? At the same time, we do not wish to press the matter, as you have done us most valuable service other than in a financial line.

Truly yours,

My dear General

I see by the papers, that the President - has appointed a Commission to find out the most feasible Canal route across the Isthmus of Panama, and that this party leave the United States the last of July -

My interest in reading this was at once aroused - The Coal Mines, came up very forcibly to my mind - Mr. Gardner's opinion with regard to them, may have made you lose your interest, but I do not forget them. Did he ever see the pamphlet for private circulation? I saw Freese's article - surprised in rereading it - Facts that I did not regard before, now come up with striking significance to my mind.

I have learned that coal
was taken out from one of
the Mines and this having
been soaked in salt water
for some time and surface
coal at that, was not really
a fair test, but even such
coal, was said by the ablest
engineers then available, to burn
with a hot flame, free from
clinkers and with but little
if any sulphur or iron.
Mr Arnold (who accompanied
my husband to the Mines,
said his ^{Temple's} statements fell far
below the reality and that
from specimens which came
afterwards under his observation,
he thought - this coal superior
to Maryland coal for
steam generation -
But why do I write this?
How do I know of the Mines

Dear Gen:— I see that Mr. Hutchins of Worcester declines to serve on the Board of Directors. I wish, if another Massachusetts man is desired that you would consider the name of Horace S. Sears. He has quite extensive interests in the South in the form of cotton mills for the supply of duck. He is a Unitarian, but one of the orthodox stamp. His father Rev. E. H. Sears was the author of that beautiful work "The Heart of Christ" and he also wrote the best two Christian Hymns in the language, "Calm in the listening ear of angels,

and "that Glorvins Song of Old"
I think he would take it for my
Lake. He was graduated from the
Western High School while I
was principal. I think he
must be fairly well off, but that
is not my thought. He is well
known among Boston Unitarians
of means as a thoroughly reliable
man and I think he would
influence means toward the
Gap, when once things are started.
If you think well of this I
will write him, or better perhaps
visit him at his country home.

I will send you a few
letter heads. I am having some
new ones made that are
more comprehensive. I am
also having a Cumulated Gap
Postal Card made that will
please you. I know Bro.

Myers is at the Gaps now.
I am Prof Lawrence and wife are
to stay another year. I find myself
very busy with church work and plans
for the S. M. U. also. Will try and
get that lecture in somewhere, if
I can before Fall. Whenever you
are coming this way let me know
as perhaps we could join forces
somewhere. Graciously and love.

Gen. O. O. Howard. USA

Dear General. Your letter of the 8th with
enclosure came in due time, and yesterday the
noble namesake of the old patriot called upon me.
He is an ancient African "whiskered and gray like
a Huskar seal." I hardly know what can be done
for him. If you was here it might be different, but
now "it is shooting at long range". He wants to get
a place as watchman in the Post Office Dept. either
in the main building or the new City P. O. He would
do well in such a place. After he left us he was
a lamp lighter for eight years. He ruptured his
self two years ago and cannot do hard work.
If you will write a letter to the Post Master Genl.
recommending him I will see what can be
done for the old man. Hardly a week passes that
I am not interviewed by some colored man on such
an errand. I wish I had the power to give them all
work. Send me a copy of that No. 1000 speech. I
am curious to see how you could bring me in.
You have done so many kind things for me,
that I shall not be surprised at anything.

You speak of the piles of the last ^{the} 4th of July. I never saw anything like it here before. It was enough to drive one crazy. It worried me worse than getting by. I went out on the Railroad to Manassas last week, took Stanley along with me, and pointed out where we spent the first winter, and also the points along the line the scenes of our first Campaign. How many changes have taken place since then. It seems more like a dream than reality. In those four years we are making history pretty fast. I hope the future historian will do us justice, we have been well abused by some of this generation. I suppose the Corner Stone of the new Devoy Hall at Norwich University will be laid when "Devoy comes sailing home". I want very much to be there, but I suppose I shall not be able, as I am so poor & cannot afford it. It would cost a hundred dollars. If I could in any way get a pass over the RR & could do it, I am very proud of my Alma Mater, ^{and} of what she has done for the Country. The very day we got the news of the battle of Manassas I wrote the College paper urging that steps be taken at once to raise by subscription funds to build a new building to be called Devoy Hall. Whether or not they acted on my suggestion or not I don't know, but it looks as if the building would go up—

Matters at our primary are moving on in their usual course. At the last Annual meeting the Board established a new Department - that of Pedagogy - and we hope soon to turn out some teachers who can teach. We have had for years a Normal Dept on paper, but two years ago Bowen Washington could not find in it a teacher who could teach his lowest grade scholars. That opened my eyes to see what we needed, and we have got started in the right direction. The new Treasurer is getting head of the business splendidly - and is going to make a valuable officer. In many respects he is better than Mr Johnson was. There is a rumor on the street this morning that Alga is to leave the A.S. - he ought to - we are all pretty well. I feel the effects of old age a little in my legs - but I think my head is all right yet. Forgive this long rambling letter. and remember me to all the family

The Inter Ocean

CHICAGO, ²¹²⁷⁷ July 17, 1899.

Gen. O. O. Howard,
Washington, D. C.

Dear Sir: Will you kindly favor The Inter Ocean with your views on the Negro Problem in the South, along the following lines:

What is the cause of the conflicts between whites and blacks?

Is there a remedy, and if so, what is it?

What do you think of the following assertion, made by Major Vardaman of Mississippi:

"We are charged with entertaining race prejudice. I admit it; the charge is true. The prejudice exists; it cannot be eliminated, and it may as well be considered as a factor of the Southern problem. I am tired of this lying and shuffling in politics and platforms. When we educate the negro we implant in him all manner of aspirations and ambitions which we then refuse to allow him to gratify. A negro could not be elected even justice of the peace in Mississippi, no matter how able, honest, and otherwise unobjectionable he might be. It is folly, and criminal folly, to talk about advancing the negro race by education. The negro is not permitted to advance, and his education simply spoils a good field hand and makes a shyster lawyer or fourth-rate teacher. It is simply money thrown away. Booker T. Washington's school is no better than the others. It would be all right in a nation of negroes, but it is useless in the South. There is no field of usefulness for its graduates. We might as well look the matter squarely in the face. It is futile to attempt to elevate the negro."

An early reply will be appreciated. Yours truly,

W. J. JACKMAN,

Editor The Sunday Inter Ocean.

Kindly send photo, if possible.

Dear Sir: Will you kindly favor the Inter-
Ocean with your views on the Negro Problem in
the South, along the following lines:

What is the cause of the conflicts between
the North and South?
Is there a remedy, and if so, what is it?
What do you think of the following asser-
tion, made by Major Verdaman of Mississippi:

"We are charged with entertaining race
prejudices. I admit it; the charge is true. The
prejudice exists; it cannot be eliminated, and
it may as well be considered as a factor of the
Southern problem. I am tired of this living and
dying in politics and platforms. When we
elect the negro we implant in him all manner
of aspirations and ambitions which we then re-
fuse to allow him to gratify. A negro could
not be elected even justice of the peace in
Mississippi, no matter how able, honest, and
otherwise unobjectionable he might be. It is
folly, and original folly, to talk about ad-
vancing the negro and his education."

It is not permitted to advance, and his education
simply spoils a good field hand and makes a
wretched lawyer or fourth-rate teacher. It is
simply money thrown away. Booker T. Washing-
ton's school is no better than the others. It
would be all right in a nation of negroes, but
it is useless in the South. There is no field
of usefulness for the graduate. We might as
