Dear Gen. Howard: Your letter of 6th instant, written at New York, came several days ago, also your letter containing copies of Dr. Lancing's letter to you and your letter to him.

I have been absent several days, hence my delay in writing to you, and then each of the local trustees has read and considered Dr. Lancing's letter, which has consumed some time.

I am glad to hear that you have never heard of anything said or written by Mr. Fairchild that would make him obnoxious to the charges which Mr. Kehr considers Dr. Parsons to have in mind.

While Mr. Kehr was here I took particular care to ascertain from him just what Mr. Fairchild had done that was objectionable, when pinned right down, he did not know of anything, only what Dr. Parsons had told him, just as he wrote to you. We coincide with your suggestion, that it would be a good plan to write to Pres. Frosh and

Dear Mr. Thompson: Your letter of 18th inst.
written at New York, came several days ago.
The paper letter containing copies of following
letter to you and your letter to him.
I have been absent several days, have only
today in writing to you, and this week
of the local business has been and continued

sent.
I am glad to hear that you have never been

While Mr. Fairchild was here I took particular
care to ascertain from him just what
he thought that was not as objectionable.
I am sure right down, he did not
mean of anything, only what he
had told him. I am sure he
the committee will give suggestion that it would
be a good plan to write to Mr. Fairchild and

assure him that we are their friends, not enemies, and that we all are working in the same direction &c &c.

As you are president of the board of directors and executive committee, we suggest that you write to him.

In regard to the letter from Dr. Lancing and all his erroneous conclusions about the work here, When I first read his letter I was somewhat indignant, but the more I think about it, the more I am convinced that it will be better to give it very little consideration, except to possibly correct some of the points on which he has been grossly misinformed, and if we conclude to attempt this we must use great care to do it in such a manner and with such words that he will not be offended, but that he may become better informed and also become a friend of the University.

We can very easily understand why he ~~has reached~~ entertains many of the ideas that he has of the work here.

I heard him (Lancing) preach a most excellent
Sermon on one Sunday, and shook hands
with him after the service. On the day he
went away he was in my office with Mr.

came for certain information. Wanted to
know why Mr. Myers was not a director.
Was told that his (Myers) name had been
at the head of the list until he (Myers) had
positively requested it not to appear. I
showed him Dr. Larry's letter in regard
to the matter. Dr. Lancing was also fully
informed of Dr. Larry's appointment as
assistant managing director. I showed
him the records showing the regular
creation of the office and that you had
been regularly authorized by the board
of directors to employ him.

He was also fully informed what Dr.
Larry's duties and responsibilities would
be, and that we hoped he would come
soon as he was needed here very much.

He was also told that before his appointment
Mr. Myers had been consulted, and that

thence by the office and met a director.
He told that his (Lancaster) name had been

Lancaster told me Dr. Lancaster's letter in regard

We had every reason to believe that Dr. Larry is Mr. Myers' choice, (Mr. Myers still says so)

Soon all these points Dr. Laneing was fully informed before he wrote to you.

He also inquired about the different departments of the work, and wanted to know why boys did not receive more attention. We informed him that Prof. Lawrence was well paid to look after this work, but admitted that he (Lawrence) had made a failure of this duty and that as soon as possible we expected to make a change.

Since Dr. Laneing was here ~~at~~ we have relieved Prof. Lawrence of that part of his work, and by request of Mr. Myers he has taken charge of the boys, until Dr. Larry comes.

Dr. Laneing also referred to the great need of repairs on the different buildings. ~~He~~ We admitted the need and assured him that we also were anxious to have them repaired, but explained to him at length of the great necessity of economy until the Four Seasons Property was fully

Secured. He was also told how that at a critical point in the organization of the institution, you came to the rescue, and that the greater part of the funds collected and turned into the treasury during the last year, had been collected by you.

We can easily understand how, that after spending several days with Mr. Myers, and hearing his usual routine complaints against everyone, and his statements that no one is doing anything but him, he had formed the conclusions he had before he came to see us at my office, but we cannot understand why after being so fully informed he should make such sweeping complaints to you.

As to the matter of Mr. & Mrs. Myers having worked so many years without a salary, you may tell Dr. Lancing, that he has been misinformed, as I know of my own personal knowledge, that from the time I first became acquainted with Mr. & Mrs. Myers in 1890, until Oct 1, 1898 the A. M. S. paid Mr. Myers \$800⁰⁰ per year and Mrs. Myers until she died 400⁰⁰ per year, and for four or five years they also paid the principal in Harrow School and two of

Dear General, the unanimous opinion of the trustees here is to sustain you and to support you in all you have done in the past and what you may do in the future. Of course we do not know to whom Dr. Lancing will make the same charges that he made in his letter to you, but we must make him our friend if possible. We are looking for Mr. Fairchild in a few days. I want him to talk with Mr. Myers about the whole matter, and possibly on his way east go and see Dr. Lancing. What do you think of such a plan?

In regard to myself. I will gladly give up the position, responsibility, work and salary any day when some one comes to take my place. I realize that I am overworking and would be glad to be relieved; but will do the best I can a short time longer if you conclude to stay with the enterprise.

Committee in a few days, at which we will decide as to the matter of writing to Dr. Lancing, and attempting to correct his misapprehensions.

We do not think that this matter should discourage us in the least; and we hope it will not.

Mr. Myers has purchased the Arthur property for \$5,000⁰⁰ paying \$2,000⁰⁰ cash down. We do not know whether he has bought it for himself or the school, nor who is furnishing the money. He has not informed any of us.

Do not be discouraged.

Yours of the 16th in relation to Harry Wells came in due time. I have just succeeded in seeing the 1st Deputy, who is a personal friend. This case is all ready to be allowed. An order was sent to Wells & H. for an Examination in order to determine the rate of Pension to allow him. As soon as that gets back the Case will go to issue.

I saw you had a hand in the Navy Celebration at N.Y. I wanted very much to be at N.Y. when you was there but could not.

Yours of October 20th is just at hand. Sometime ago at the request of your son I sent to his attorney in New York all the papers connected with his litigation and the matter has so passed out of my mind that I could not effectively state the points now at issue between him and Col. Pope, therefore I request that Mr. Chauncy Howard himself write out a full statement of his contentions with the Pope Manufacturing Company and Col. Pope and from that I will digest such a letter as you desire. I should also like some inkling of the amount which Mr. Chauncy Howard thinks he is entitled to receive from Col. Pope.

Dear General:

A dispatch in this morning's paper conveys the painful news of your son, Guy's, death in the Philippines. I wish I could tell you how sorry I am for you and could say anything to comfort you. As I remember, he was your oldest son. Your brother and his wife rode by my house this morning, and I presume they had not yet received the sad news.

Only a few days ago I returned from Cumberland Gap after being there a little more than two weeks. I failed to find a cottage or a house there into which I may take my family. I am now thinking of going to Knoxville. With the new train service, it is only a ride of two and one-half hours between Knoxville and Cumberland Gap, so I can go back and forth when necessary to attend meetings of the board of directors or otherwise help on the work. It is my intention to take up the practice of patent law so as to earn my living independently of the University.

Just before I came away, Mr. Eager showed me a copy of the long letter which Dr. Lansing, of Scranton, Penna., wrote to you regarding Mr. Myers. Mr. Eager also showed me a copy of your reply to Dr. Lansing.

While all the people around Cumberland Gap regard Mr. Myers as unbalanced, he retains a remarkable shrewdness. He has a way of putting his exaggerated stories into convincing form. I learned of a lady at Middlesboro to whom he had told a story much the same as he told Dr. Lansing. She regarded him as a most worthy and able man until she had been told of the defects in his story. Among other things, he had told this lady that he and his wife had put \$60,000 of their own money into Cumberland Gap and had worked all these years without salaries. Mrs. Eager informed this woman of the incorrectness of both of these statements.

It is unfortunate to have a man like Dr. Lansing assume the position which he has assumed; but he can probably be brought to understand the facts and thus be led to work in harmony with the rest of us. I do not see how he can do otherwise after the facts have been presented to him. We are all trying to save and further build up what Mr. and Mrs. Myers began, and this is what Dr. Lansing says he wishes to have done.

I hope that the position which Dr. Lansing has taken and the other confusion caused by Mr. Myers may not discourage you.

Just before I came away, Mr. Rager showed me a copy of the long letter which Dr. Lansing, of Saratoga, Penna., wrote to you regarding Mr. Myers. Mr. Rager also showed me a copy of your reply to Dr. Lansing.

While all the people around Cumberland Gap regard Mr. Myers as unbalanced, he retains a remarkable shrewdness. He has a way of putting his exaggerated stories into convincing form. Dr. Lansing is only one man in the whole United States. If he can be put into harmony with you and those who are working with you, he will probably work all the harder on account of the error. If he cannot be won over, it seems to me steps should be taken to let the giving public know that Mr. Myers is incapacitated and that we are honestly trying to carry the work forward. If you should lose heart at this time, the work would be in great danger of going to pieces. I think you will agree with me that we have no organization strong enough to carry on the work. Mr. Eager is practically the only one doing any work at Cumberland Gap, and he can do nothing more than attend to local matters. Of all those who have their names connected with the University, there is no group of men at present so situated as to work unitedly. All along circumstances have tended toward separation rather than union. If half of the men whose names are connected with the work could be made to pull together with all their energy, the University property could certainly be put on a safe footing and means collected for advancing the educational work.

I shall try to see Dr. Pearsons and Dr. Gray tomorrow morning. Possibly they can see some way to help at this time.

Just before I left Cumberland Gap, it was reported there that Mr. Myers had contracted for the purchase of the Arthur house and made a payment of \$2000. I learned also directly from the agent, that Mr. Myers was trying to lease the Harrogate Inn. The latter building he wanted for a school for small girls whose parents are too poor to educate them. This is a plan that he has for a long time had in mind, and I have thought that it is just possible that he may make sufficient progress with this particular work to become so much engrossed as to let everything else alone. Would it not be a good thing if this should turn out so? If he has contracted for the Arthur home, it will probably take him a long time to pay for it, and the University will probably have an opportunity at a later time to buy it.

Mr. Eager tells me that Mr. Myers is now secretly working to prevent Dr. Larry from coming to the Gap, and yet Mr. Myers brought Dr. Larry forward and urged his appointment.

If you see any way in which I can assist you, please let me know.

Are you going to New York City for the winter?

Very truly yours,

Dear Gen. Howard:

Your favor of 21st inst with
check for \$500⁰⁰ at hand. I have credited Col. H. H. Adams
Treas. by the amount.

I have also received your kind note, referring
to complaints made by Bro. Myers, and his
erroneous statements.

As to the Laurences, I have been their truest
friend here without any exception, (not even
excepting Mr. Myers himself). The last change
made in Prof. Lawrence's work was at the
suggestion of Mr. Myers, and only yesterday
he told me that the Laurences must go.

He (Lawrence) was cross and would not
listen.

The farm, the loss of which troubles him so
much, is that old rotten stable that was
near the kitchen of Harrow School Building.
You probably remember, when you were
here the last time, we talked the matter
over and decided to tear it down and
remove it. He considered it unsafe for
stock and it was too near the house.

In regard to the matter of keeping water on the hill, I would say that it has been unusually dry here for a long time and the supply of water is low. The building located as it is suffers first and most. The school owns the water pipe from the building down to the main pipe near the small cottage by the Congl. Church. We had to lay the pipe from that point to get the water at all. And then the water company has never contracted to furnish water at any point, only at the main pipe, where our pipe connects. Never would agree to furnish it on the hill. So I do not see how the executive committee can enforce a contract we never had, and could not get.

I wrote you a long letter a few days ago, referring to many of his complaints made through Dr. Lansing.

My dear friend, I have done my best to please him, but it seems that I cannot do it. You remember very well that I only promised to keep the accounts and do other office work that would not take me away from my place of business. I have done that and much more.

All the changes and repairs on the Harrow Sch.
Building, going up there two or three times a
day, and many other things, that I did
not expect to do. I have not complained
about it and don't expect to. Have done all I
can, and have always acted upon my
best judgment; but to have him continually
finding fault and misrepresenting me
and my family is very unpleasant.
He have overlooked it, and taken a most
charitable position of believing that he is
not responsible for all he says and does.
I only wish that he would not write about
such matters as he does to you and others
in the East.

It may be better for me to withdraw from
the work entirely. It would be a great
relief to me to throw off the whole burden
that I am now assuming. For a long time
I have done what I have, thinking that
by so doing I could possibly assist

you have assumed, in endeavoring
to organize a great institution here.
I confess that I sometimes become discouraged.

October, 25th 1899.

To Major General O. O. Howard, U.S.A.

Washington, D.C.

My dear Sir -

Having just returned from your
son's funeral, your name comes to me as
the one, who, through your long devotion to the
cause of Christ and because of your wide
influence in Army circles, would be most
helpful in our efforts to increase the efficiency
of the Chaplain's Corps.

With this letter I enclose a copy of
a Bill which has met the approval of six
of the eight chaplains who are in the
Philippines. Chaplains Hart and Fitzgerald
I have been unable to see.

The papers from America are filled with comments upon the situation in the Philippines and a constant refrain are the words, "The White Man's Burden", and "the open door". But what is our Government doing, I will not say for this people, though a Christian must shudder at the twin evils of intemperance and licentiousness which follow the coming of our Army, - but for the Army itself?

These young men are many of them recruits, young men, who have never been exposed to temptations. Surely the State which thus sends her young men into a foreign land, where the restraints of a Christian sentiment are wanting, should, if it be a Christian state, furnish some rallying point for Christian influence and teaching.

That that Army Chaplain has not always been such a rallying point, I will concede. In the days after, and during, our Civil War many unworthy men were appointed,

yet let me call your attention to the book written by the Editor of the S.S. Times, for a noble list of worthy men even in those days and I must add that it would take a long letter to review the work which our Army Chaplains have under God been able to accomplish in the Philippines today. We are face to face not with a theory but a condition, nay an emergency - our Army has been largely increased. Whatever our theories as to how this Army work should be done, we can not rely upon the slow action of the Churches ^{influenced by X^{thian} thought} and the liberality of the few, the Government, alone is sufficient.

This coming Congress will be occupied with weighty questions on the increase of our Army and our recent colonial acquisitions, yet the importance of these subject should not crowd to the wall the provision for the spiritual welfare of our soldiers.

The second part of our bill, your

Dear Sir:--

We are very desirous of printing in the next issue of the Yale Alumni Weekly, a good half-tone likeness of the late Captain Guy Howard. We have tried to secure his photograph from several different people, and have been advised, by the Class Secretary, Mr. Martin of New York, to apply directly to you. We regret exceedingly to trouble you at this time, but believe you will sympathize with us in our purpose to present a good likeness of Captain Howard to the five or six thousand Yale men who see our paper.

If you can direct that a photograph be sent us, or indicate, by letter or telegram, at our expense, where we may quickly secure one, we will very much appreciate it.

My dear General Howard:--

Here is the information you wanted.

The Island of Luzon has a population (approximately) 5,000,000

Of these there are Chinese to the number	500,000
And Tagalos	600,000
.. .. Ilocanos	400,000
.. .. Spaniards	50,000
.. .. Mestizos	900,000
.. .. Negritos	800,000

The remainder are scattered among different tribes. There has ~~never~~
never been any accurate census. The census has only been taken by
estimation. These figures were taken from Dean Worcester's figures

contained in his books on the Philippines.

I have taken pleasure in noticing the pleasant editorial notices about Guy's death. The Sun has been exceptionally fine. They spoke of his last words, "Whatever happens to me keep the launch goigg", as the only utterance of a brave Yankee soldier. The World and Journal both had his pictures. I shall expect to see you when you come to the city and let me know if I can do anything for you at any time.

My Dear General Howard:

Your very kind letter concerning my sister came a few days ago and I at once forwarded it to her. It would have been impossible, I think, for her to make a change for the present year, as she felt under obligation to remain where she is. My thought for her is that she ought to leave, possibly, about the first of the year or, more probably, at the end of the present school year which is next June. We should both be glad to have any information concerning the Lincoln University that may be available, and if there is a place there for such work as she can do, with reasonable assurance of permanency, undoubtedly she would be glad to consider it. I know she would do satisfactory work wherever she is. and, as I have said, she has, quite fully developed, the missionary spirit.

As to the matter of salary, I did not say anything, for I really do not know anything. She would, of course, be obliged to have a living salary, but her ideas are by no means extravagant.

Yours sincerely,

Burlington, Vt.

My. Dear General:-

I had a very interesting interview with Mr. A. Shuman today. He treated me with exceptional courtesy and I feel that I presented the matter to him as well as it could be done by any one but yourself. He tells me that his outgo at the present time is greater than his income and that he is doing something all the time for charitable institutions: this however did not hinder me from pressing the matter and he finally agreed to send you a check. I begged him to be as liberal as he felt that he possibly could and hope that he will send you a generous contribution. He sends his love to you and says you are a most lovable man and that no one ought to refuse to help you in this grand work.

I believe it would do a great deal of good for you to write him at once acknowledging his courteous treatment of me as your secretary, and thanking him in advance for his agreement^{to} help along the good work. When you write us the amount of his contribution, give me all particulars which he may write you that you think will aid me and if the amount he has forwarded seems too small I will go back and see him again.

Enclosed find letters which I wish you would sign and return at once as I shall need them soon.

Sincerely yours,

Wm Henry Miller

My Dear General:

I had a very interesting interview with Mr. A. J. Simon today. He treated me with exceptional courtesy and I feel that I presented the matter to him as well as it could be done by any one but yourself. Gen. O. O. Howard:

My Dear Sir: Your letter in answer to my own came duly. For it accept my thanks. In thinking of replying, I hesitate lest I shall be misunderstood, because it is evident that I was not careful enough nor adequately clear in my former one, since I did not make my meaning wholly plain. But in the answer to yours, I hope I may succeed in dissipating any misunderstandings which my former communication may have created.

Did I imply in any way, that Brother Myers desired your place or any place? I did not intend so to do, and I know of no reason for so doing. Certainly in nothing which he said to me nor in any rational inference therefrom, did I receive any such idea.

He neither mentioned nor suggested it. But in all allusions to you was appreciative, and

grateful. I do not think it is in his mind to desire any place or any recognition whatever. His only desire, as I interpret him, is to see the work carried forward in a wholly unselfish way and with the greatest Economy. He had not the spirit of Complaint. As to his mental state and balance, I saw no indication or evidence of any lack of the highest exercise of faculty. I should say that his mind was acting with great force, clearness and wisdom. Of his relations to the A. S. A. I have had some knowledge for years, and my belief has always been that they had not shown the equal of his wisdom and devotion. The work which represents them, so far as I came in contact with it in the Mountain Country, appeared to me poor in comparison with his. So I would not think that his differing from them impeached his ability.

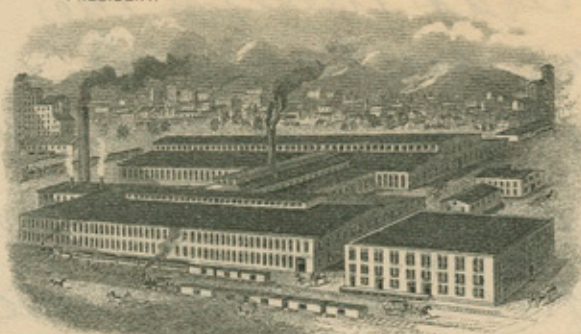

You spoke of his inability to act as book-keeper. I do not think I have ever heard him suggest that he understood book keeping. But he thought that \$600⁰⁰ per annum was an excessive sum to be paid out of

money obtained for charity, to keep the account of it. In this, so far as I could see, his judgment was sound. Your suggestion that I would not keep the books for less, leads me to say that after all that Mr. Myers has done for Cumberland Gap, for individuals and the community, were I one of those who had seen and profited by his work and sacrifices, I should esteem it a privilege to assist him, in harmony with his own spirit, by contributing generous effort to any necessary care of the accounts. And I am sure you would do the same.

I do not fully understand Mr. Myers reasons for directing the printer to keep his name from the list of Directors or Trustees. I presume there was a reason which sustained his action. But I was quite unprepared to find that he was not a member of the

Executive Committee and that therefore the local men at Gap, were authorized to administer without him and over him, in matters in which I should regard him as the greatest factor. His full and complete knowledge and his position and worth as the creator and sustainer of this work, alone, until you began to assist him, makes it in my view quite improper that any Executive Committee should exist of which he is not ~~a~~ prominent part. Not one word did he say to me about this nor did he suggest it. It was my own sense of affairs, as soon as I learned that there was an Executive Com. and he not a member. If this was an omission to which he was a party, his modesty should not have been permitted to obscure his merit.

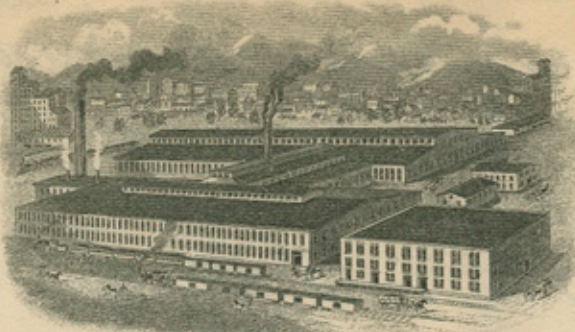

As to his Commission as Financial Agent, of which you sent me a copy: I recall that he said that he directed that his name should not be printed as Financial agent, (at least I so understood him.)

and that he would not be known as such nor accept such appointment. If he so said, I think his position altogether proper and right. That the Founder and principal maintainer of that great work, should be characterized as financial agent, as though his business was only to gather funds for others to disburse, seems to me quite too narrow for the actual character of the man and his work. Certainly what is covered by the title "Financial agent" is only a small fraction of Mr. Elgers' past or present work. It would be like calling a General of Division in the field, a Commissary or a Paymaster. If I were in his place, I do not see how I could accept such a status. Of course I have no idea as to who is responsible for this and I am finding no word of fault.

I am simply describing the anomalies of the situation as they appeared to me and with only the thought of seeking the best results from the wisest plans.

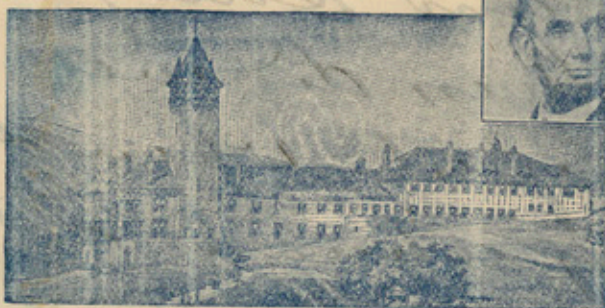

None is not the disposition to hinder in the slightest way, the advance of the work and the plans for the development of higher education at Cumberland Gap and in the adjacent Country. I want all who have put confidence in that work to continue to favor it and to increase their practical help. To you I have long since expressed my high estimation of the worth of your work in words of unequivocal commendation. I have also mentioned of the profound impression which has been made upon me by Bro. Myers as I have seen his unexampled labors. My confidence in you dates from long ago: in him since first I knew him. I am not disposed to dwell on slight matters. Those concerning which I have expressed myself, seemed to me large enough to demand such expression. Trusting that what I have said may be understood as I intend, I am, with very high esteem.

Very truly Yours: Isaac H. Lansing.

Dear Gen:-

Arrived Sand Eoy, and well I did. Teachers a little off gear but hope to get them straight soon. Trouble about matron. Fussiness all around in which the town got taking a hand. Local Directors were very glad to shift the difficult problem on to my shoulders. Mr. Myers was invited to the meeting at my request. He expressed himself glad at my coming etc. I am sorry to come in contact with so much scheming but he feels that he schemes for the Lord.

I think we can get water from a spring on the farm and thus save cost of water rates

If we cannot I have arranged
to use the engine at Arthur
Mansion and pump from that
spring. Mylen did well to secure
that property when he did.
He is expecting to get Harrogate
soon. I shall soon erect a
telephone line to G. & L. directly
here and with Harrow. On
account of troubles at Harrow
I shall remain here till there
is a peace founded on a Christian
basis. Don't worry about them. I
shall certainly right them. As
to Mylen's plans, I am humoring
him all I can. I see no way
but to let him work. He never
will work except as his own
master. I will try and steer
him into what I can. I will
write you again soon.

Fraternally Yrs.

Dear Father:

I called on Mr. Converse,
Pres. of the Baldwin Locomotive Works,
yesterday. He is the only person
I have asked to help you in
the matter of endowment of
Lincoln Memorial University. He
said that he had made so exten-
sive donations this year, especially
to the University of Vermont, that he
did not feel able to do more in
that line this year. He had been
called upon by some one & had seen
the circular which I had "nearly a
year ago", he said. He said he was
personally & well acquainted with you
& that Burlington is his old home. He
also said that he would not care
to be one of a syndicate as I ^{first} suggested
to endow the university, but, if, as I
requested, I had any plan to lay.

before him after my return from
my interview with you in N.Y. City
I could call & see him again & ~~he~~ I would
consider any proposition I had to make.
~~returned~~ I thanked him heartily
[that was all I had called for & could not ask more at present]
& said, I would call again, that at
the present time I was in the employ
of the Fidelity & had not ^{yet} begun work
with you for the University, tho' you
had sent me a book - which I
showed him.

Now I think if the matter is laid
before him properly, a very large donation
or endowment can be procured. He is
a good man & the condition of their
business never was better. They have
booked large contracts for Locomotives
for England, Russia, & other countries.
Jamie may know something about
them.

In reply to your request that I collect
the subscription on my book, there is
none there except Mrs Lowell of Ashville
\$10. "paid" by our board there. The other sub-
scriptions are on your book & all were
paid, I think, except Hillman \$2⁰⁰. I can
collect that next time I am in N.Y. I think. With
love to Bessie & also Jamie & his family, your son,
Chauncey

TO CREDITORS:

I have been endeavoring to raise money among my personal friends, so that I may continue the valuable business which I have built up. I have assurance that under reasonable circumstances they would advance me a sufficient amount. I trust that at a meeting of creditors, which is to take place on November 8th, one or more trustees may be elected, who will seek the position not for their own personal profit, but for the best interests of the creditors.

I have reason to believe that an effort will be made on the part of certain interests to place in control a trustee whose sole object would be to sacrifice the estate. This trustee would be elected by interests in a position to use the stock on hand to their own great advantage, but, if in control of the business, they would undoubtedly endeavor to secure control of the property at such prices as would net them the greatest profit, and while this would result in a small dividend on claims as creditors, they would make so much out of it in other ways that they would practically be paid in full several times over. This interest will endeavor to secure the election of a trustee, and if such trustee is elected, I have every reason to believe that the creditor who succeeds in electing him will greatly benefit, while the general body of other creditors will suffer in consequence.

It is immaterial to me who is appointed trustee, so long as he be an honest and capable man and one who will best serve the interests of ALL the creditors, but I naturally prefer some one who has no personal "axe to grind."

If you will co-operate with me and my friends who are willing to come to the front and help me with a large amount of money, I shall then be able to realize the maximum amount that can possibly be obtained, and thereby ultimately pay the largest amount possible on your claim.

It is believed that if some trustee be elected, whose only aim is to engage in lawsuits and keep the business in litigation, as is usual in receiverships under arrangements that are frequently made between the receiver and his attorney, that in the end, which would undoubtedly be postponed as long as it paid the receiver's and attorney's fees, the creditors would get, as is usual in most cases of this sort, practically nothing. The receiver and his attorney would get the juice, and the creditors the rind.

To prevent such a case as this I appeal to you to see one of the committee before giving your proxy to any outsider, or if you feel so disposed, to give your proxy to one of the members of a committee who were appointed at the last creditors' meeting to consider a plan of settlement of my affairs for the best interests of creditors.

This committee consists of:

The Hon. GEORGE E. GREEN, Chairman, St. James Building, New York, [ex-Mayor of Binghamton, New York.]

ALFRED LEVINE, of Charles Craske Co., 441 Pearl Street, New York.

COLONEL ETHAN ALLEN, 115 Broadway, New York, Capitalist and Author.

H. C. BRYAN, 31 Nassau Street, New York City.

E. R. GILMAN, New York Club, New York City.

HARRY C. JONES, 141 Fifth Avenue, New York City.

Dr. CARLOS MARTYN, 114 Fifth Avenue, New York

GEO. C. COFFIN, Attorney, 229 Broadway, New York

W. L. MERSHON, 156 Fifth Avenue, New York.

If you cannot attend the meeting in person will you send your proxy to any one of the gentlemen above mentioned, all of whom are creditors and men of standing (no doubt some of them are personally known to you); or if you do not know any of them, if you will send your proxy to the Chairman, the Hon. George E. Green, St. James Building, New York City, I am confident that your interests will be ably served by him.

Please notify me *by wire* whom you wish to represent you by proxy, and I will mail the necessary papers to you immediately, so that your claim may be proven and your vote cast for the election of a proper trustee.

It is essential to have every vote possible; for this it is necessary to prove claims at the creditors' meeting, special blanks (which I can supply you with) for which are required by law, to be held at the office of Morris S. Wise, Referee, 50 Exchange Place, New York City, at 10 A. M., Wednesday, November 8.

Respectfully submitted,
