Dear Mr. Converse:-

Our acting President, Mr. Larry, has brought me to the building pictured above, and I have been with him a week. It is marvelous how much has been done the past winter. I enclose the letter of a promising young lawyer, Mr. Hughes, who lives at Tazewell, the country-seat.

It is only a beginning, but it is a good one. I feel that the \$15,000 that I have raised to give us a clear title to this beautiful farm, and the \$2,000 expended to redeem and repair the Grant and Lee hall (that had been five years without occupant) of all the Harrow School plant, with considerable ground and several buildings, valued at \$40,000 is a part of the endowment. By the unpaid subscriptions \$7,450; by promises contingent on our securing \$100,000; and a subscription of \$5,000, not including yours, the endowment is further increased. Again, Dr. Pearsons told President Blanchard, of Wheaton College, that he, Dr. Pearsons, would give us \$50,000 when certain industrial features of our school are further developed- which will be easily effected.

Mr. Converse-2.

Summary.

500 acre farm and buildings, all paid for-----	\$15,000.
A gift, Harrow School property, by its trustees,	40,000.
A gift, two buildings promised, Arthur House, and Harrow Gate Inn, p-----	10,000.
Unpaid Subscriptions, -----	7,450.00
Contingent subscriptions, -----	5,000.
Necessary repairs on Grant and Lee Hall, -----	2,000.
Your own contingent subscription-----	5,000.
Total, -----	
	\$84,450.

The miscellaneous donations have been as follows: Hoe and Co., N. Y., printing press, value \$1,200; steam-engine, purchased \$800; eleven acres, to obtain entrance to farm, \$362.50; W. H. Barry, Boston, piano and organ, \$300; Haines & Co., Boston, band instruments, \$290; Mr. Moen, Worcester, wire fencing, \$350; Funk and Wagnalls, Century Co. and Merriam and Bros., books, \$160; Dr. Larry, job-press \$100; Remington & Co., type-writer, \$100, Prof. A. D. Lerethe, school-desks, \$67.60; P. P. Mast and Co., grain-drill, \$85; National Sewing Machine Company, Sewing machine, \$35; Silverman & Co., Salem, Ohio, feed-cutter, \$45.

Total \$3,895.10.

There are enough other implements donated to make a value of \$4,500. Making aggregate value of actual endowment \$88,500
 If we add Dr. Piersons' promise 50,000.
 We shall have altogether, \$138,500

A few minutes ago, our lawyer reported that our property has now a clear recorded title. Myers and Kehr have executed a quit-claim deed, clearing their incumbrance. We shall need about \$3,000 to clear up this year's expenses, before June next. And we must, using student's labor, build a girl's dormitory, costing about \$5,000 during the long summer's vacation.

My dear Ev. Howard,

I did not realize
when I left you at the
Church last Sunday night
that I should not see you
the next day. But going
on the first train in A.M.
to attend the Ecumenical
Conference prevented a
more courteous leave taking.

Allow me to express my
great satisfaction at your
presence with us & the
words you spoke which

had so much to do with
making the Service Sunday
Evening worthy the work &
works of Dr Fitchell.

I shall seek the opportunity
of securing a Collection in

Dear General Howard:

What can we do but try
to get Senator Frye to get
a pension bill through Congress
in Mrs Sampson's behalf?
We can't take it up as individ-
uals. We need aid ourselves
on account of disabilities incurred
in our service.

The State could hardly make
provision for her, suitable to
her present condition.

It is "imbecile" for Congress,
I think, to grant her a pen-
sion on the ground of long,
fruitful and tiring service,
& perhaps disability - incurred
in the line of male service, -
and I think such a measure
would receive the favor of law-
yersmen from other States.
Her service ought to be recog-
nized. God bless you in your
noble work. yours as always

My dear General:-

We have just received word from your son that you cannot be here until commencement week. I feared this would be the case when you left, as I know how many calls there are upon you at this season of the year. We shall miss having your advice on the many things that are now coming up but we will do our best and look for Divine guidance.

Mr. Myers is here but so far I am none the wiser for his coming. The Harrow School board-meeting will be to day and Mr. Eager will inform you of results. I am very sorry that neither you nor Mr. Hughes can be present but trust that all will go well. I am sending out personal invitations to the Directors to come at the close of the school, promising them entertainment, etc. Would it not be well for you to invite those who may be helpful to our work, asking them to notify me as well as yourself of their acceptance. I have ordered the material for our new coach stage coach and I hope to get it ready on time but if I should fail, I will have our new farm wagon fixed with sprung seats, etc.

Our young people are working very hard now. The girls have breakfast ready at 5 o'clock and all hands go to work at 5.30, making gardens and doing other kinds of work. We are celebrating Arbor Day in earnest. We shall set out over 400 trees today, apples, peaches, plum, pears, quinces, apricots, cherries, etc. These were obtained through the "Mountain Herald" advertising by the help of Mr. Thomas Fulkerson, who is proving himself a real friend. A Pennsylvania firm sent us a fine horse cultivator at his suggestion. It will be just what we want. Seeds have also come from another firm. I am anxious to see some decision in regard to a building on the old foundations but I suppose I shall have to wait till the annual meeting before any start can be made.

We hope to see you soon. Please let us know just when you

will arrive that we may have our team at the station. Take good care of yourself through all this varied work and remember that many prayers are offered here for your health and your success.

With kind regards from all, I am

Yours in F. C. & L.,

John Hale Larry.

I at once called a meeting of the Harrow School Directors, which was held today. All the directors were present except Mr. Myers. It was unanimously voted to request the trustees of Harrow School property to make, at once a deed of all the property, both real and personal to Lincoln Memorial University in accordance with the contract entered into Dec. 13, 1897, and that Mr. Hughes prepare the necessary papers for the transfer and get them executed. He will be here next Tuesday May 1st. for that purpose. I will report the result later. We can use some funds here to good advantage whenever there is any for that purpose.

Dear Friend:-

I have long, as managing editor of Young People's Weekly been intent upon turning to you for help. Now, with the close of the century, we purpose to start in good and strong with every one who can give inspiration to our young people. The hope of the nation is our young folks, and we must in every way in our power, keep their eyes fixed upon that which shall make good growth for the future.

With this I mail you a copy of our Young People's Weekly which has been under my supervision since its initial number. It now has a paid circulation of over two hundred and thirty thousand young people. This is a mighty army to care for, and these young folks are the heart of Christian families. In its earlier day, Young People's Weekly entered the homes through the medium of the Sunday-school. ^{entirely} But it has outgrown that day, and now has a large single subscription, and among our readers are many who will, with the coming campaign, cast their first vote. We are particularly anxious not only to interest them, but guide them. Can you not furnish us an article for publication during the year 1901, on the subject of "West Point In 1854" procuring for it photographs that will attract the eye of the youth even before he seeks to read. We are in no haste for the article, but we simply ask for an assurance that it will be forth-coming during the year. For an article of two thousand words in length we shall be glad to pay \$50.00 paying for it on its receipt, without waiting for issue. Also reimbursing you for the expense of any photographs you may incur. I sincerely hope Mr. Howard, you may find it in your power to grant this request. The day has gone by when our young folks read only sensational fiction; they are willing to read better, if it is placed before them in portable shape. But time goes with a sweep. They are hasty and eager, and everything now must be focused for them.

Dear Father: Please note my new address for letters as above. My old address which you will not need is, HARJES FOR HOWARD PARIS. Your welcome letter of the 10 from Cumberland has come & I sent it to Adeline who has read it & sent it back to me. She joins me here about May 4 & stays here a month or two. Not decided yet how long. We never live beyond our income. We must save something for old age. We are well. I am very busy & pretty tired Rise 5 1/2 breakfast 6 1/2 work 7 to 12 & 1 to 6. Then after supper I keep my books & write letters. Sundays I rest, read a very little & write letters. I think these long hours & days will stop in 8 weeks

more when the exhibits I am putting up for 4 different campaigns will be ready - Then I will only have my jury of awards work to see from. I come to rest at Paris but I am working harder than ever - I came expecting to live at a loss - but with two new clients here I am coming a living - at least for the present. I am about to decline \$10 a day from the govt for some temporary ^{engineering} work because it interferes with other previous engagements. The U.S. Commission is crowded with general administrators but no men with technical & practical education nor experience - hence it has difficulty in getting the actual "constructions" accomplished. There is plenty of work for me or has been since.

I am very thankful for my
general education & for the good
opportunities which have come
to me. success seems
to lie in recognizing an
opportunity when it comes
& in seizing it on the
spot. then in doing
the work rapidly & well.

I may accept the govt
work if I can take it
on my terms & conditions.

The name of directing
our assistant & resign
at once at any time I am
not sustained. This the
creation of some engineering
structures & machinery for
the men appointed

their influence have
to do the work -

It must now be done
right & day - moreover I
speak French which gives
me an immense ad-
vantage in handling
mechanics here. I
may be detained here
till November - pro-
bably visit the U.S.
once this summer
on business.

A good letter from Cluney
has arrived - It looks bright
for him now. I wish I
could help him more in
his many trials - but he
keeps up bravely. I wish he
could get in closer touch with
men (not big men) but men.

Dear Sir:

Through circulars I have become interested in the Lincoln Memorial University. Its purpose and method appeal to me strongly and I believe there is a splendid opportunity to do good work there. I therefore desire to apply through you for a position as teacher in the university.

For eight years I was connected with Redfield College, Redfield So. Dak. Teaching Natural Sciences, Zoology and History. The trustees of Redfield College wish me to go back next year, and if it is possible for them to offer terms that I can accept, I will certainly return.

I am now Principal of Wisconsin Institute Montvidéo, Minn. I came here intending to build myself into this institution if, after a trial of one year, I thought the place suitable. The opening

here is not what I expected and I have not had
the unanimous support of the Trustees in carrying out
what I deem to be the wisest policy for the school.
I wish to locate in a community and in a
school where there is a chance of becoming per-
manently settled. It is my belief that a man
can spend his life more efficiently in this way.
If no suitable position is available this year I expect
to study in a German university. However I
would like to have my application placed on
file in case I should spend the year in study.

As references I may give you the following names:
President J. P. Patch, Redfield So. Dak.; Dr H. W. Wedgour
Redfield; The Board of Trustees, Redfield; Mr. L. G. Woyce,
Sec. Board of Trustees, Winloom Institute, Supt. Geo. Lydon & Smith,
Vice Pres. Winloom Institute, Monticello Minn. A Senator
H. E. Hoar, Monticello Minn. Prof. G. P. Wyckoff, Chair of
Sociology, Iowa College, Grinnell Ia.; Prof. E. K. Egsley, Chair of
Eng. at Brookings Agr. College, Brookings So. Dak.;
Miss Emily E. Harris, Supt. of School, Halvord Lake, Minn.

I will also enclose some recommendations which
I happen to have.

Yours very truly
J. H. Caswell.
