We enclose herewith deed of yourself and wife to Joseph C. I have been in a sick bed for two weeks and received your message over the phone to-day by a messenger. I regret that I was not able to talk with you direct as I of course could not make a very satisfactory decision without talking with you. I am very much pleased to hear that you have decided to come to Montclair as arranged: We have advertised you very extensively and there are many of our young men who wish especially to hear you. I stood in front of my desk just before I was taken ill and heard a young man say, in looking over the poster of announcements on the bulletin board, "There is one man there that I want to hear if I can hear no one else and that is General Howard". I always regret being placed in the present position, because I know there are many opportunities for gentlemen like yourself to go to other larger places where the audience is larger and the work possible more satisfactory in many respects, but we appreciate all the more the fact that you are to come to us in spite of this, as after advertising so thoroughly and so far in advance, it is very embarrassing to have to change the program.

Dear Bro. Fairchild:-

I find myself so busy getting everybody and everything properly adjusted before leaving that I cannot write as extendedly as I would like.

Everything is now moving very well. ^{School} Harrow rooms are now filled and the discipline is the best I have seen. There is a new school but it does not seem to hurt us any and it is teaching its promoters a very valuable lesson. The whole section around has shown a loyalty to the L. M. U. that is surprising. But we are in the fix that I plainly foresaw last year and referred to in my report. Every place is filled here and applications are daily coming in. If the temporary barracks had been put up, we could care for them till the new building for girls is completed and the building could then be used for something else. This the Com. here now see and

they at voted yesterday ² for to allow the building at Hamilton Springs to be taken down and moved here. This will not fill the bill. We need the lumber in both buildings & put up one new one. Never mind that however.

You remember my plan to burn lime, make bricks, use foundations for a fine girls' dormitory, class rooms etc.

That was endorsed by the whole board. That lady, however, did not manifest herself in the matter.

I think we should immediately undertake the work in faith.

We have students' labor that can be utilized in the beginning. We can clear the foundations, burn the lime, cut the lumber, make the bricks, etc., etc. I will raise the means, all hands joining and helping. We must prepare for our natural growth. We can do it. So on as fast as means are furnished. Need not run in debt at all. I will send you plans in a later letter. I aver that the outlook was never more hopeful, if we only do the plain duties that offer themselves.

Dear Gen. Howard:-

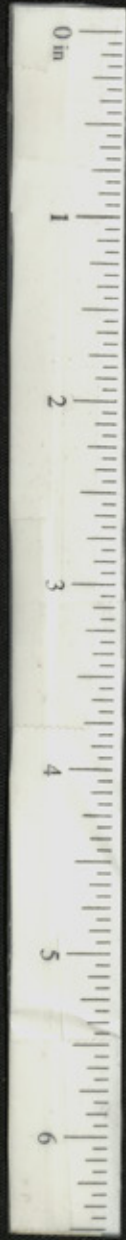

I know you will be pleased to learn of the great success that has attended our work on

what was once the four seasons property. The Grant-Lee Hall is filled

with students who are the very cream of this section. Even the large room over the kitchen that we had used for trunks and packing boxes, has been cleared out and filled with beds and occupied by trusty, studious young men who are very proud of their little colony. I never saw, in my long experience as an educator, North or South, such an earnest, well disciplined army of young men and women.

I think they will average 18 years of age. The most of the students are from Virginia, strange to say and the balance are divided between Kentucky and Tenn. One Presbyterian Church, at Rose Hill, Va. has a large delegation here.

LINCOLN MEMORIAL UNIVERSITY,

You see we must have more room.
You remember that the com. at the
last annual meeting endorsed my
plan to build on a part of the founda-
tions of the great Hotel.

While we have no money
on hand for this work
we have student labor.
Mr. Spencer, who built the
original stone work is
now at liberty and can be
hired by the day to super-
intend. We have excellent

lime rock in the place from which
we can make good lime at a
cost of less than $\frac{1}{4}$ the freight
of lime from the nearest supply.
We have stone, such as is represen-
ted in the photo above to build the
first story of and we have clay and
wood and can make our own brick
for the second story. Think what a
fine building we can make with-
the steel grey limestone and the
red brick. I have found a portable
saw mill that needs only a boiler,
and I have a boiler that can be
called in in 30 days, that will

LINCOLN MEMORIAL UNIVERSITY,

run the mill. I have been over
the wood lot today and I find
we have good timber enough that
we will cut right away and
have sawed later. I do wish you

could interest some
one who would
give us one or
two span of mules
to do the hauling
work. We have
plenty of feed and one of the best barns
in this state, but we need a
supply of horses and mules to carry
on the farm and do the teaming.

For five thousand dollars in cash
I believe I can put up a \$25,000 building
that will accommodate 100 girls and
give class rooms for all. These
kitchen can be made into students'
rooms just as soon as we get
funds to put up an Academic
Hall. We do not need the money all
at once. If you are agreed I will go
into the field to raise it and we will
build just fast as we get the means
