Dear General Howard:

I inclose herewith a copy of the Texas Relief Fund that I mentioned to you last night as having been sent to Miss Barton, and also to Mr. Warner's nephew in this city. The work done in this office for the Texas Relief is not all shown in this report. It was a considerable part of the duties of this office to make known the needs of Galveston throughout the country. A considerable amount of money arising from our efforts went direct to Miss Barton at Galveston, and several thousand dollars went to the Red Cross headquarters in Washington. A great many contributions of supplies, as well as money, went direct to Galveston, as a result of our efforts. This office, therefore, is deserving of more credit than the report shows.

Yours sincerely,

Wm. Willard Howard

Dear General;—

Your enclosure of the Myers letter at hand. This is a specimen of the work this man is doing and the worst of it is he is successful in a measure that is astonishing. The L.M.U. needs no feeders at present but it does need funds to feed those who are already there and house the many who will come if we can keep things together. . I enclose you a letter received by the same mail as yours which tells another method he is adopting to break us up. These young men, Hodges, Bash and Greyson are some of our most advanced students on whom we have expended a great deal and made them valuable to themselves and to the university. One is now able to do good printing. another is our Adj. and has been confided in in many things. He has agreed to deed the Harrow school to the Gap if he can be put in my place and to help bring this about he has, by agreeing to put a certain young man in charge of the Harrow School with his wife, who is a teacher, get this man to circulate a petition to you to dispense with me and Mr. Eager. It looks to me as though he had fooled some with Mr. Pasco and Miss F.

I cannot write to you as I would speak about these latter. *Confidential*
It is the old story of fascination. Nothing very bad, some indiscretion etc. I have tried to handle the case so as not to harm any one and I thought I had succeeded. She knows well how to twist an ordinary man around her fingers and likes to use her powers on the susceptible. I hate to write these things but Mr. Myers' letter drives me to it. He should be dealt with in some way. His place is in an asylum or a prison according as he is insane or desperately wicked. He could do but little damage did he not possess the most remarkable hypnotic power I ever saw and knows well how to use it. I would get out of this kind of company as soon as possible were it not for my great regard for you as well as my desire to see this work successful for the sake of the youth of these mountains. As it is I propose to carefully and prayerfully study the situation and if possible make such moves as will save and ensure the permanency of the school and guard the honor of all who have allowed their names to be connected with our work. The first point to be made is that this property shall be kept from going back into private hands. If the school has to be suspended for years this grand idea of a LIVING memorial to Lincoln must be kept alive. Mr. Myers has an insane idea that he owns it still. Sometimes it takes the form that he can break up the present administration, cause the sale of the property and he declares that he has the money to purchase it, etc. Let us keep the school practically OUT OF DEBT. We were running all right till this storm struck us. Now, if need be, let us take a reef in the sails till the clouds roll by.

I find no trouble in interesting audiences if I can get a hearing. Last Sunday morning I spoke in a country church and they promised to take a room in the Girls' dormitory. In the evening I went by invitation to Phenix and addressed a union meeting which was under the auspices of the ~~2171717~~ W.C.T.U. Two of my daughters went along to furnish the music. The state president of the Union presided and two ministers were there. It was an audience of working people principally. They have asked me to come again. An enclosed letter, which you can destroy, will tell you the result. I feel sure that the W.C.T.U. over the country would respond to our appeal for a building for girls.

I hoped Mr. Fairchild would make appointments for me as was agreed upon. I don't quite like his movements. We certainly differ in our methods, but we could work together to advantage I believe.

Before doing much more ~~Thshkl sent~~ ^{wait} for a reply to the propositions I have made in a letter I send to-day to ~~them~~ ^{Ex. Com.} through you. If we all work together we can succeed though the present opposition will delay us.

Can you see Mr. Ryder of the A.M.A. in regard to Mr. Chas. Stevens who was at Williamsburg and in the employ of the ~~ir~~ Association. I know him through our Miss Andrews and those who know of his work. His letter will speak for him. I like the ring of it very much. This is the man I have referred to in my recommendations. With a strong man there I could work confidently in the field and with Fairchild we ought to do well. You could be relieved of the care you cannot help feeling now.

Yes I would like that express package forwarded. It is L.M.U. matter for distribution.

Yours fraternally,
John Hale Larry.

We extend our heartfelt sympathy and only wish that we could share the burden with you. Hope you will recover soon.

The Committee held a meeting yesterday and formulated what plans we could to accomplish the most we can, with what we have toward the erection of a girls dormitory.

Mr. Rector will push the farm work, and as you suggested will plant more potatoes than last year, will also experiment on a small tract by irrigating, which can be done without laying any additional pipes.

Mr. Spencer who has charge of the mechanical work will soon have the pump moved so that Grant-Lee will be supplied with good water. He will then give his whole attention to getting out the timber to be converted ~~to~~ into lumber and the preparing of other building

Material, such as we have in the quarry & c.,
Cumberland Gap, Tenn., 190
and will probably tear down the store building
at Barnilton Springs and remove the material
to the site of the new building.

To accomplish what we have planned, we find that
it will be necessary to purchase another team, wagon
& harness, and that some eight or ten boys
will be employed to work.

The team, wagon & harness, will cost us about \$300.00
and we can probably get them on 90 days notes.
It will cost about \$20.00 each, including board,
for each boy employed. Mr. Spencer receives
\$3.00 per day, and Mr. Rector \$35.00 per month.
Both, honest, reliable men.

With this preparation we expect to make a good
showing in farm work and getting ready
to build.

Mr. Myers is still here and, I am sorry to say, seems to
be using his utmost energy to carry out his threat
to make it hot for his successor. He is busy among
the pupils, teachers and citizens to cause confusion and
trouble for the present management, and in some cases
causes dissatisfaction. He has persuaded five of our
best boys to go to Michigan to work on a farm,
among them our printer Mr. Hodges.

We have promised the young men good places at good wages. I hope they will not be disappointed. The attendance in the different departments is about the same as it has been prior years. Of course some are going home to assist their fathers on the farm. I am sorry you did not come, as I wanted to talk about some matters with you, but I hope to see you in May.

I assure you that we will watch closely the expenditures, and see that economy is practiced in every department.

Please have the kindness to send me your Feb. report, which I presume you have overlooked. I also want to call your attention to ^a matter in connection with Mr. Fairchild's report for the month ending Jan. 11th, in which he reports \$700⁰⁰ paid to you; I do not find this in your report, perhaps you have also overlooked it, or possibly it does appear in one of your reports in such a way that I do not understand it. Genl O. O. Howard

New York City

Dear General

As word has been coming in, of late, almost daily, of some new gift of Mr Carnegie, for a public library for this and that City, the thought has come to many of us, if it might not be possible to turn the stream of his bounty towards Burlington.

The need of a new building for the Fletcher Free Library is, as you know, an imperative one, and it would be a most fortunate thing if Mr Carnegie could be induced to give our City say \$50,000, for such a building.

Mr. Buckham, Mayor Roberts, Gen T. S. Peck and myself have had some consultation on the subject, and learning from Gen Peck that Mr Carnegie and yourself were personal friends, we thought that the best way of securing attention from Mr Carnegie would be to make our appeal through you, and with your cooperation. Would you be willing to assist in that way? If you would, we will have a joint letter drawn up, and signed by the gentlemen above named, by Mr Van Ratten, and one or two other leading

Citizens, and forward to you, for you to hand to Mr Carnegie, with your endorsement.

When we first thought of this method, we thought we would ask you to see Mr Carnegie in person; but as he has gone abroad, that of course is at present out of the question. Possibly you may think that we better await his return to this country before doing anything.

Please give me your advice in the matter

And oblige

Yrs very truly

Dear Cousin

we have been a long time
fixing upon the date of our
centennial celebration on account
of conflicting appointments. the
reunion of students of Monmouth
Academy will be on Wednesday
Aug. 7, and we shall be obliged
to have our celebration on Thurs-
day Aug. 8. - We are having much
sickness among us and many
deaths, - brother Stillman's widow
age 91 was buried last Sunday and Mr.
Salmon A. Wing's funeral will
be next Sunday - Age 87 -
probably you know that Wash.
Kemp's wife died recently.

Most Respectfully Yours

New York City.

Dear Gen. Howard: Your Feb. 15th report came this AM;

This is the first report we have received of the financial success of the celebration. You certainly did nicely, and we all desire to express our sincere gratitude for all your efforts to secure money to promote a work that is so purely benevolent and for the benefit of others. Again we extend our sympathy to you in your present affliction, and hope and pray for your recovery in the near future.

Sincerely yours,

Chas. F. Eager
