Dear Mr. Montgomery:

The hour of my departure has come so that we will have to change our arrangement. The statement that you three gentlemen agreed to make in writing has not arrived, neither has any answer come to me with regard to space in the Exposition grounds at Buffalo. As I shall be away now till the middle of next month I suggest that you first satisfy yourselves that this is actually the log house in which Lincoln was born. Second, that the ranches, whose pictures you have, were connected with it. Third, that you yourselves go on and put up the building in Buffalo, if the permission comes, using my name to secure advantages, especially that of transportation. As a compensation to me for the use of my name, &c. or any work that I may do, grant the Lincoln Memorial University whatever of the net proceeds you can afford.

If you wish it, I can secure the care of it by the nearest G. A. R. Post and thus lessen expense. My secretary, Miss Ellis, will show you any answer that may come from the ground, or facilitate you in any way to carry out your project.

Fully believing in your integrity I am willing to grant you the benefit of my name and influence, but as I must leave now I cannot enter into any other arrangement however desirable until my return about the 10th of April.

Very truly yours,

Major-General U. S. Army (Retired)

My dear General:-

I have yours of the 19th inst, and am much interested in the project you mention. I am inclined to think that the best plan would be for you to arrange with the concessionaire of the Old Plantation, to let him have your Lincoln Cabin, making such arrangements as would be mutually satisfactory. I would suggest that you write to Mr. E. S. Dundy, in care of this office, regarding the matter. Mr. Dundy is the concessionaire, and will I am sure be glad to take the subject up with you. Mr. Dundy, by the way, is the son of Judge G. S. Dundy, who was on the bench at the time you were in charge of the Department of the Platte.

Assuring you of my desire to render any assistance that may be in my power, I beg to remain

My dear General:

I am in receipt of your very kind and interesting letter of the 20th instant, and heartily thank you for the information you have furnished. The correspondence on this subject bears conclusive testimony to the importance of having a well trained body of inspectors and a recognition of the heroic services they have invariably rendered wherever and whenever occasion required. Could you tell me of any others who could give such instructive reminiscences?

Thanking you again for your courtesy, I am,

Dear Sir:-

I have just been reading with great interest an article in a New York paper in regard to Lincoln University in Eastern Tennessee. Can you refer me to anything further or send me a catalogue of the institution? I wish to know more about it and about the "group of schools" near where Lincoln was born. The work at Berea, Ky. has appeared to me in much the same way, but as yet I know very little of the whole matter. Some years ago I spent a summer in Western North Carolina and have ever since been interested in the American Highlanders.

Very truly yours

THE INVESTIGATIVE METHOD

CHARACTERISTICS OF THE INVESTIGATIVE METHOD

The investigative method is a systematic approach to the study of human behavior. It is characterized by its emphasis on the collection and analysis of data. The method is based on the principle that human behavior can be studied in a scientific manner. The investigator must first define the problem to be studied. Then, he must collect data in a systematic and unbiased manner. The data must then be analyzed in a logical and objective manner. The results of the investigation must be reported in a clear and concise manner.

The investigative method is a powerful tool for the study of human behavior. It allows the investigator to test hypotheses and to draw conclusions based on the evidence. The method is used in a wide variety of fields, including psychology, sociology, and anthropology. The investigative method is a fundamental part of the scientific process.

Dear Sir,

I find Miss Grace Emory did send you the ^{letter} I wrote you about - & she writes me you were to send her the name of the girl who was to receive the benefit of the scholarship I am anxious to help her / Miss Emory interested in S. M. U. she or her people are very wealthy & she is specially interested in the Mountain White-work. I wrote her if I had gone back as I expected to it would have been so nice for her to come down to Commencement at Cumberland Gap. & she wrote back it might be arranged yet, but of course I couldn't go back just for that. Miss Emory is such an efficient worker & if a little attention was given what help the Romans Club of
over

Bradford / He shut through Miss E. efforts
the one scholarship they may do more.

Gen. Howard I feel sure in a week or two
I shall be released from the care of my
father. do you think it advisable to
try to do any further work for the School
I found I could interest people & hold
the attention as long as I could talk,
but some how I don't feel I know how
to arrange meeting or get a chance at
people. yet I am very much interested in
the work & S. M. U. especially. yet I felt
sure my duty for the winter has been
with my father. Gen. Howard don't you
think this work presented at Chontangara
might prove of some or great benefit to
the School while they never take collections
you would reach so many people that
perhaps would help privately. I heard
Mrs. Booth present her "Prison work" &
know she rec'd. help outside. Have
felt so anxious to know what you rec'd. from
the Carnegie Hall meeting. Hoping the work is
progressing ~~so~~ satisfactorily & that God may continue
to prosper the School. I remain Respt. Yours Ella V. Tichenor.

I was glad to see in the Christian Herald of 20th inst some account of your University, & I want all the information you can give me about this "Noblest Monument to Lincoln". Please send me your Catalogue & every published statement you have that you are giving to the public. I am interested in this. Is the school for both white & blacks, or for the colored people alone? What is the location & magnitude of your conception in this work. I had not heard of this thing before this hour, & write you at once. Hope to have an early reply. With best wishes,

Dear Gen Howard

I have been suffering with neuralgia and today the upper part of my face is badly swollen. I hardly think I shall be able to leave home this week.

I have not heard from Dr. Larray since the 12th. He did not seem pleased with my visit to the Gap. I wrote him that I was not prepared for the strong feeling I found against him and I thought his use of hard names was a mistake. Mr. Myers writes that he expects to go to California in June, or south. But that he wants to pay his debt first. He is now at Clifton Spring.

He writes that he heard of a petition to you after some 700 or 1000 had signed it. Mr. Eager had written me of it and is very anxious for a copy. I wish he had one. Most sincerely yours E. P. H. Churchill

Dear Gen. Howard:—

Yours of Mar. 21 at hand.
I agree with you that I must wait
no longer for Mr. Fairchild. I have
obtained several pledges for rooms
in the new building. Yesterday I
interested several ladies in the Central
Church in helping furnish the dormitory.
They may also take a room. I wish
you could dictate a short letter to
Hon. S. B. Shapleigh, 36 Broad St. Boston,
telling him that I am in N. E. and may
call. I attended the funeral of our bro.
S. S. Blanchard in company with Mr.
Achorn. He represented the L. M. U.

Mr. Achorn thinks we should re-organize
the Advisory board of Boston, adding material
that will take up line interest. We are
unable to get Mr. Swain, and as Mr.
Blanchard is taken away we shall
have to "bide a wee" as our meeting
plan. I wish we might find a wealthy
and enterprising woman who would take
an interest. Mr. A. has suggested one
and I hope she may grant an interview.
I enclose Mr. Myers' letter. I send you
also a letter from Mr. Spencer who is
no partisan. Miss Andrews' letter just at
hand referring to her faith in Mr. Stevens
may interest you. I have many other

along their lives? "In meekness instructing
those who oppose themselves" is a text
that comes often to my mind. I never
met such a storm before but I shall keep
pace toward it. Mr. Fairchild did not
help matters in his visit to the Gap.
We shall need to consult and go
slow these days.

I am very sorry that "Fruit"
did not get in. I must have it in
some shape.

I expect soon to be in New York.
If you see Mr. Fairchild before I do,
remember in talking with him that
he did not get a full view of
the situation at the Gap.

Now General, I believe we will
work things out all right. I am
so sorry you are in pain. We
often think of and pray for you.
For your sake I will be patient
and push.
