My dear Gen.

Please return  
O.V.H.

I appreciate highly  
your invitation to join you at the  
meeting in Boston on the 11<sup>th</sup> of February  
next in aid of the Cumberland Gap  
boys & girls of Tennessee.

This is a noble charity & you  
are to be congratulated in hearing  
an enterprise to carry hand in  
hand to that of giving the Christian  
Religion & Education.

I am quite sure no one in  
the South could object to  
any ceremony which perpetuates  
the memory of Mr. Lincoln & Gen  
Grant.

But alas - after two years

O.V.H.

Please return this  
to me.  
O.O.H.

Constant refusal to go on  
the lecture platform, I have  
at last consented to make  
some speeches in February  
March & April - commencing  
in the week. I suppose  
since he out there somewhere  
in February - & therefore not  
able to get to Boston.

I wish you every success  
in your great undertaking  
I am very sincerely  
yours

until the end of the week.

In our deep sorrow we are  
thankful to God that He  
permitted us to be with  
her so recently and that we  
have so many, many most  
valuable memories of her noble self-  
sacrificing life. I do not  
grieve for the peace & happi-  
ness of that better land,  
and the reunion with  
the dear ones gone before  
her, but it is hard to part  
and ever will be.

Yet what a blessed comfort

Sunday Afternoon.

[Dec 1901?]

My dear Father

Thank you for your sweet  
& tender words of comfort.  
Though words are weak to  
express our feelings at such  
times, we love to hear them  
from those we love so dearly.  
We hope our dear Mother had  
a sweet sudden end of  
this life. We know nothing  
but what the cablegram  
said as yet, & can not hear

Burlington, Vermont.

My dear General,-

When I had the pleasure of meeting you a few weeks ago in San Francisco, you were kind enough to suggest that I should make an application to be appointed on the June Board of Visitors to the West Point Military Academy.

I enclose a copy of a letter to President Roosevelt, and also a copy of a letter received from General Schofield, and if you will be kind enough to use your influence to secure me this appointment, I shall appreciate it greatly.

While you were here I was very much under the weather, suffering at the hands of the dentist, and felt very sorry not having been able to attend your lectures.

My family, who had the pleasure of making your acquaintance several years ago at Mt. Lowe, would be very much pleased to be honored with a visit when you come out here again.

I noticed in a message of Secretary Root that he favors a radical change in the present system of <sup>the</sup> Militia, and having been directed by Adjutant General Seaman to obtain information Military that might be of interest to the National Guard, I have made myself thoroughly acquainted with the organization of the National Guard of Switzerland, which in my opinion is as efficient as a National Guard can be made, and equal to many regular armies, and as it may possibly interest you I mention the most important part of the Swiss Military regulations (covering 234 pages) which reads as follows.-

General O. O. Howard,

Oakland, Cal., Dec. 1st, 1901.

At every public or private school in Switzerland, boys from ten years of age are physically exercised and receive military drill at the gymnasium, in summer in the Turnplatz, and in the Turnhall in winter. The last two ~~years~~ years they receive instructions in rifle practice.

At the beginning of each year every Swiss citizen from the age of 20 upward must report for inspection at Military headquarters at the different cantons.

According to his military qualifications he is assigned to the different branches of service, and has to serve in this capacity as (Auszug) or National Regular, to the age of 32.

From the age of 32 to 48, he is transferred to the first reserve. The second reserve or Landsturm constitutes every man who is able to bear arms, from 17 to 50 years of age, including those who have been rejected from the regular service on account of disability. The National Guard can put into the field, inside of 3 days, between 137,000 to 138,000 men (Auszug.) The first reserve numbers about 80,000 men. *and the second reserve or Landsturm about 270,000 men* After a young man has been assigned to the service, he has to go to the barracks the first year, from 45 to 80 days, according to the branch of arms in which he serves, to receive military instructions, after which he takes his arms and equipments home, which are inspected from time to time by a military officer, and I personally convinced myself that they are kept in as good a condition as by any soldier in the regular army.

Privates, who want to be appointed non-commissioned officers, have to pass an examination, and attend for a certain time a non-commissioned officer's school. Officers must follow the same course. First the school for recruits, then the school for non-commissioned officers, and finally the officer's academy. The instructors have a life position, most of them having the rank of colonel.

The time that, for instance, a captain is obliged to be in active service, either in camp or at the academy during the first 18 years, is 600 days. At the polytechnical schools, they have also a course of Military science, and most of the officers of the Artillery service have taken this course.

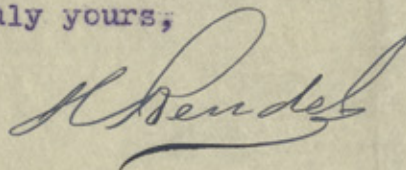

In case of an accident the soldier is pensioned, and in case of death his family receive pension according to the number of members.

The Swiss army is organized like any regular army, containing brigades, divisions, and army corps.

In the Swiss army they have no higher rank than Colonel.

I am convinced that with such an efficient National Guard of over 300,000 men thoroughly disciplined and trained from early boy-hood and commanded by highly educated officers, armed with the most improved modern weapons, their rifles loaded with smokeless shells, and such natural defensive positions available, that the Greatest European powers would be unable to conquer the little republic.

Very truly yours,

neglect not writing  
to you as I promised.  
I have thought of you  
many times, and the

Gardner. I have not  
been able to go to

and I have suffered  
terribly from vaccination.

The doctor feared blood-  
poison. I am very much  
better today. The danger  
is now over. Mr. Gardner  
has been very sick this  
winter he was at the

he is now at his home  
but is not able to do  
any work, or go out  
only for short walks.

He gave me a book called

wrote it. It was very  
interesting. I loaned  
it to my school

My dear Uncle;-

I am very grateful to you for your kind letter of the 4th. inst. just received, and for the trouble you have taken in my behalf.

Matters have shaped up here so that I can not only get a strong endorsement from the bench, including the Chief Justice of the State, but can bring to bear certain personal influence on the President, that will draw his attention to the situation.

Mr. Von Reauceau spoke of having received a letter from you the other day.

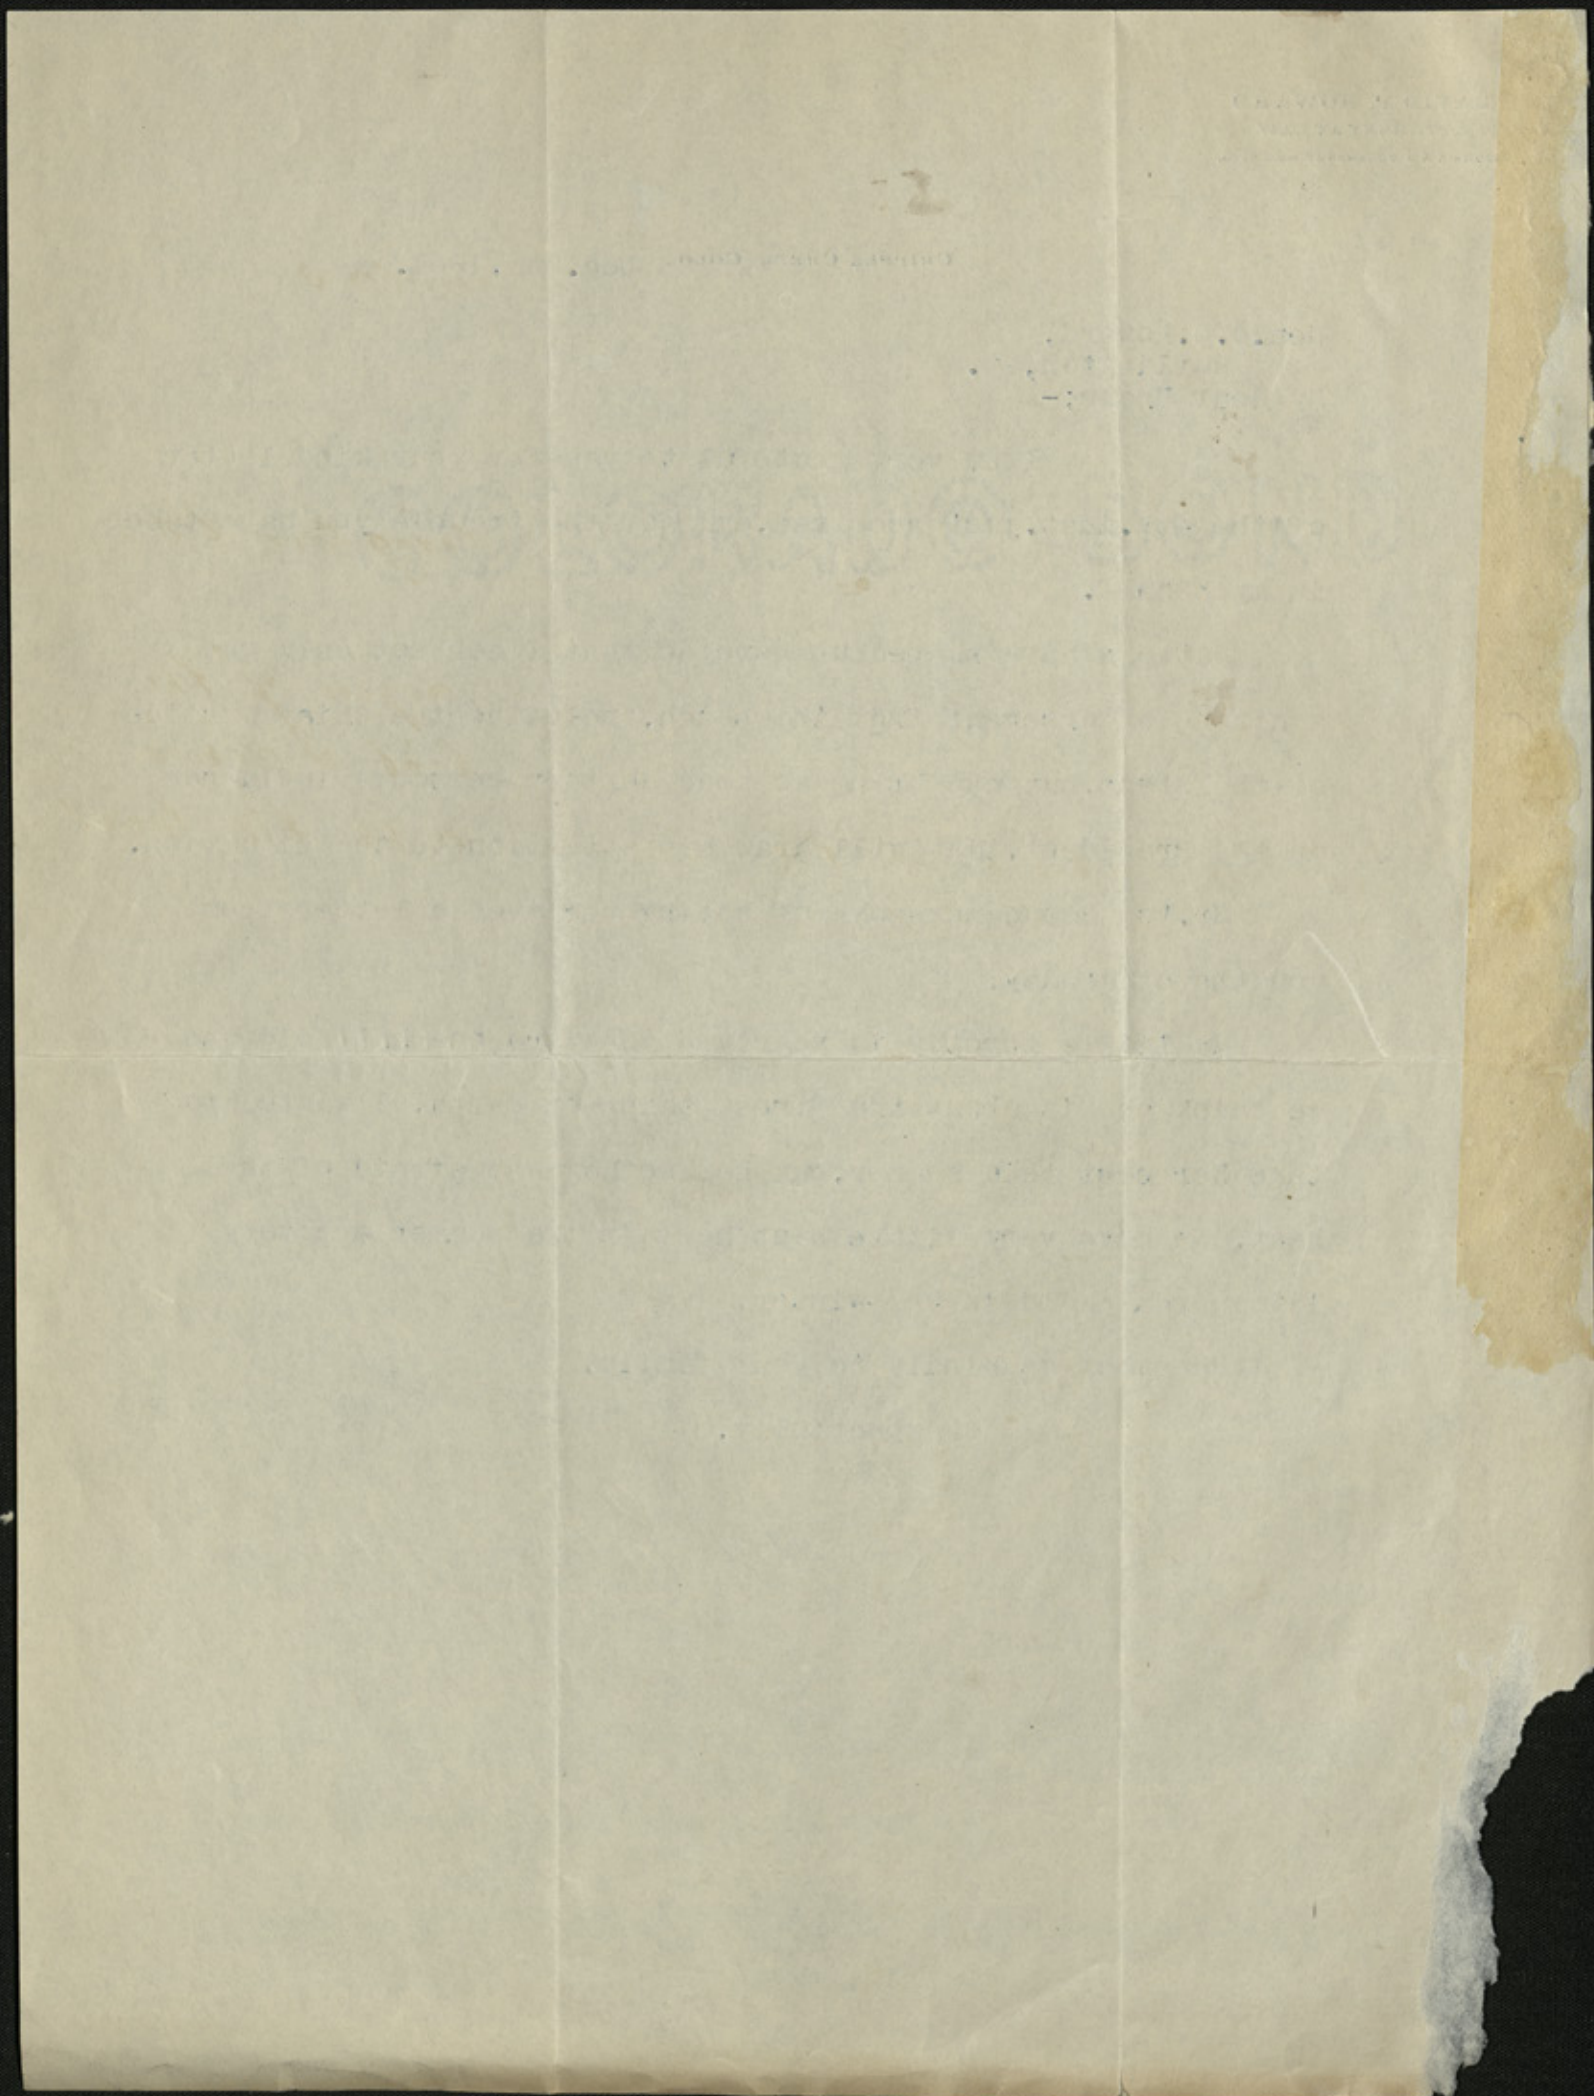

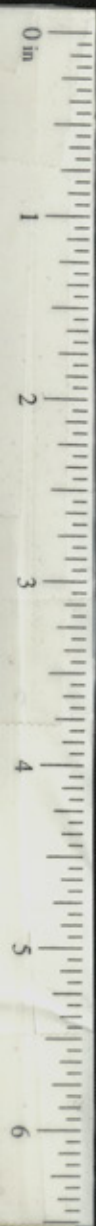

My little Dorothy is nearly a year and one half old and we think she is about the finest thing on earth. I wanted to take her east this summer, but her mother was afraid of the heat. We have very little heat here in the summer and very little real cold in the winter.

Remember me kindly to your family.

My dear Moy:

Enclosed please find a dollar for the handkerchiefs. It was an omission not to have put it in. Perhaps your wife said that Gen. Howard will send it. She is right every time. I have been here a week and haven't had quite a correspondence with the Chinese Minister, Hon. Wu Tyng Fang and have visited him twice. He has introduced me to his lawyer and we are working together. The Eastern sentiment is not against the Chinese. The President it is true, has recommended the re-enactment of the exclusion Law but he will never favor injustice and nothing more than the carrying out of the treaty of 1894, made between the two nations. So I think. Meanwhile we will start public meetings, public speeches, letters to be published and such articles as will call out the real sentiment of the East. I think we can succeed in defeating any hostile legislation and secure those parties that were intended to be benefited when the treaty was made, <sup>secure them</sup> against not only hostile legislation but against cruel treatment in the execution of the laws.

I have not yet used \$100.00 of the money given me for expenses, and yet have started measures and influences which will make themselves felt, I am sure. The lawyer acceptable to the Minister has been my warm personal friend for forty years.

I leave Washington for home next Monday so that a letter in answer to this will reach me at Burlington, Vt.

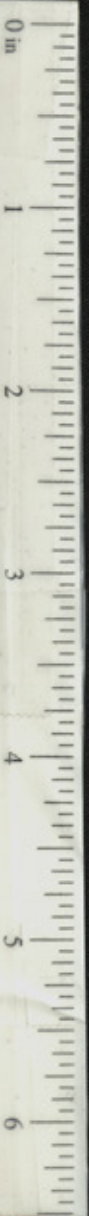

Dong Kong has written me nice letters, but I want to get specific cases of cruelties and oppression, not threats, but actual wrongs done against the children, sons or nephews or others. Everyone that I can publish will help me make the enemies of the Chinamen ashamed.

Very truly your friend

### Giving Hearty Approval

Mr. John G. Milburn, President  
Pan-American Exposition  
Col. John B. Weber, Commissioner-Gen'l

New York, December 7 1901

My dear General Howard

You took care

This week a cent, but have you  
a tiny contribution to spare to  
help me with the deficit of seven-  
hundred and seventy dollars?  
Six hundred dollars of this deficit is  
due to the failure of the City Bank  
of Buffalo, and the remainder  
to the failure of three persons to  
make good their subscriptions. I  
am not to blame that the deficit

exists, but I am responsible for it, and  
I simply cannot pay it without help.  
Again let me repeat, you are under no  
obligation to help: but if you can do  
a little I shall be very grateful.

Sincerely yours

Louise Suprenant Knight

Dear General Horner:

I was very glad indeed to receive your letter from Oregon as Cluet had told me that you were anticipating going to Manila and that doubtless you would go on a trans-  
port calling at this port. I have been watching all the passenger lists on all the Transports since - and now do hope that I may have the privilege of seeing you next Spring.

I am glad John can be in San Francisco and do hope he will fully recover.

If Mother + Laura come here next month, as is their plan, and I can see you next Spring - my cup of happiness will be full and running over, indeed!

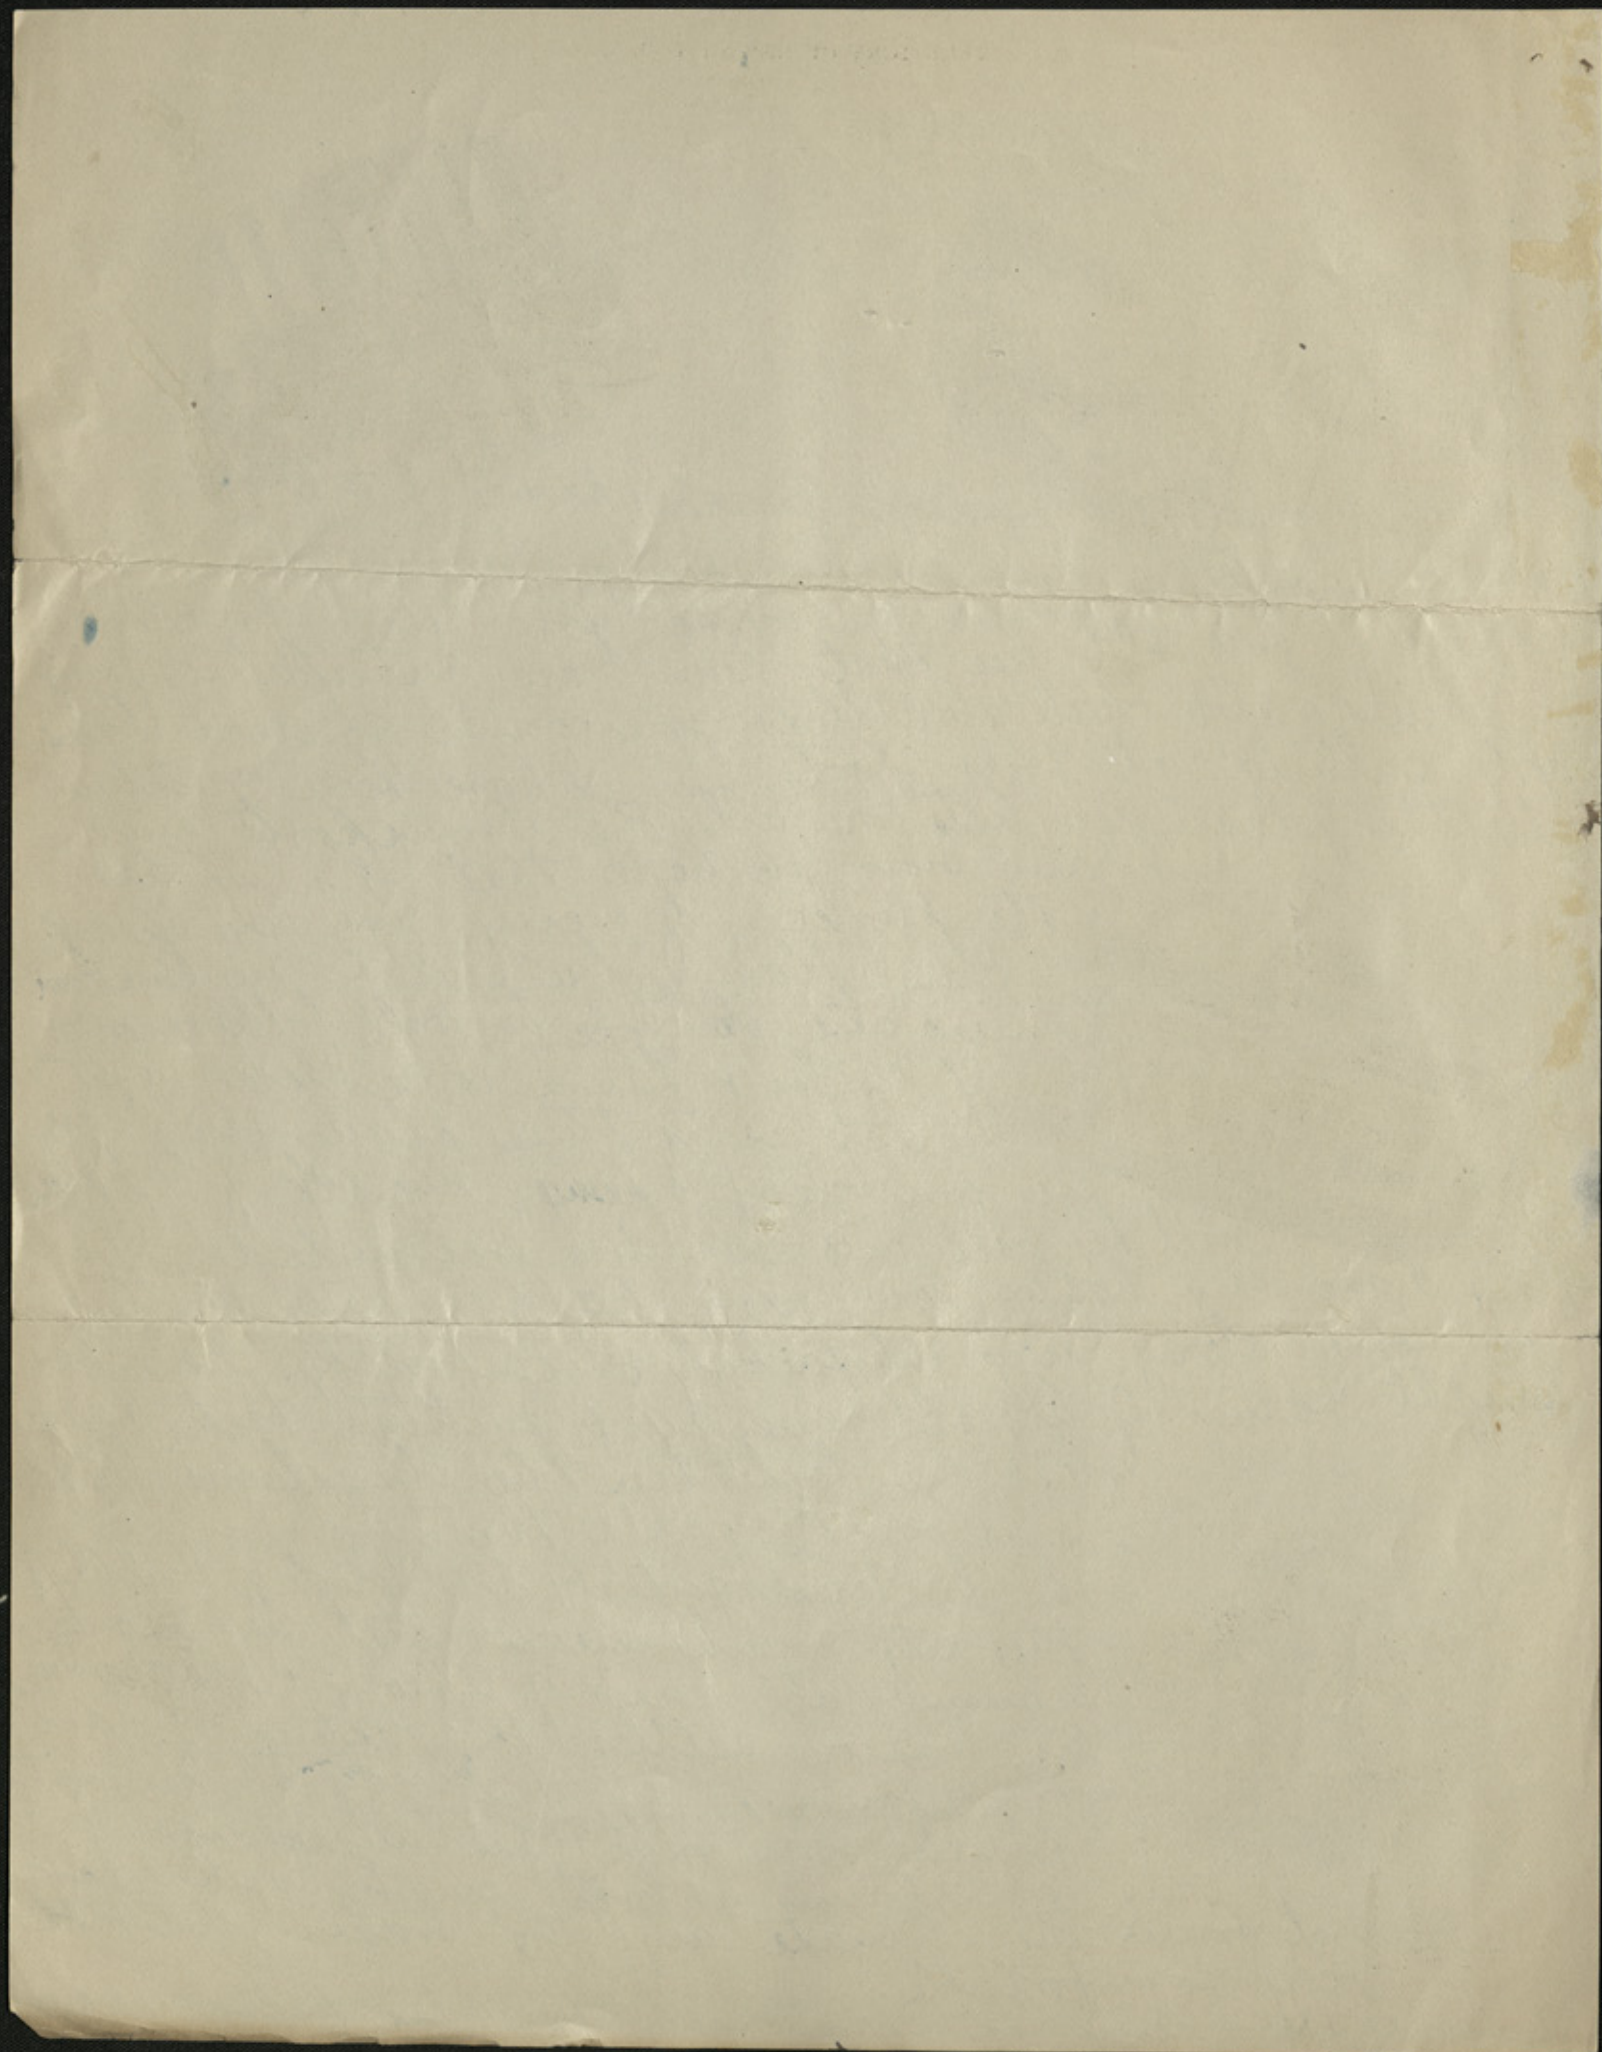

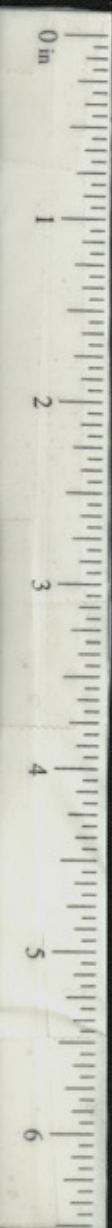

Dr. + I are very happy here, never happier, and matters are moving along very satisfactorily + comfortably. Dr. has caught some of his old energy + ambition back again which he lost in the disastrous 1893.

He is very busy all the time - is now the Bacteriologist for the Board of Health of this city which means that he has to examine all cases of leprosy + plague and his decision settles the destiny of each poor sufferer. He enjoys the necessity of so much work with his microscope.

This is certainly a lovely country and I have not found the climate any too warm, but rather very comfortable.

A few of the scenes we have are upon this paper upon

which I am writing my Christmas letters. I also send herewith a card with a view of Diamond Head upon it, which will be one of the first headlands you will see upon coming into the harbor.

We think it is very beautiful & this little water color was made by an intimate friend of mine who has made a good many such of which she is disposing. I do hope the rest of your family is well and that you are also enjoying your usual good health. Please remember me very cordially to Mrs. Howard and to Bessie and Harry -

Accept love and best wishes - dear General, from Dr. and my self.

Yours very sincerely -  
Clara H. McDonald.
