"stitute" already exists. Let
now crowd saloons, devote
the culture of their higher
the churches, and there
d of other institutions
t of normal social life.

When I say "destroyed," I mean, de-
stroyed by force—i. e., by exercise of the
power of the State—compelling the sub-
ject saloon-keeper against his will to
abandon a traffic which is injurious to
to the State.

+++
On Tuesday, March 25, the following
the Cin-

agent, discovering the Chardon people
were patronizing Hossler, attempted to
buy him out. Hossler declined to sell
preferring to handle oil made by a com-
pany not connected with the Trust. The
Standard then proceeded to drive him
out of the trade—offered oil at less than
cost of the non-trust article, then at one
cent per gallon, and, finally, for nothing!

Citizens refused to abandon Hossler
but on the date of the dispatch the
Standard was still in the fight, threaten-
ing to wage battle until Hossler was de-
feated.

The issue containing the correspon-
dent's report of the fight at Chardon,
also contained the following:

New York, March 24.—John D. Rocke-
feller, Jr., talked about trusts to the
members of his Bible class in the Fifth
Avenue Baptist church yesterday. He
likened the benefits of trusts to those of
the church.

"In union there is strength and suc-
cess," he said. "We can see this illus-
trated every day in the business world.
The business man with a small capital
does it to his benefit to unite his money
with that of his neighbor. And these
neighbors, in turn, find it beneficial to join
in partnership with other partner-
ers, and soon, until the great corpora-
tions are founded, each union extending the
benefits of all concerned."

General O. O. Howard,
Burlington, Vermont,

Dear Sir,

We beg to acknowledge your letter of April 1, in regard to proofs of Dr. Howard's "Prisoners of Russia". We received back the proofs of your introduction, which we sent you, and we felt that we should relieve you of additional trouble if we arranged to have the proof-reading of the balance of the book done here. This plan we have carried out, with the approval of Dr. Smith, and the book is now practically all in type, although the pages are not yet made up.

While we can send you page proofs later if you deem this desirable, we do not think it will be necessary.

We note your correction in regard to Mr. Saunders, and as soon as we receive the page proofs we will look into the matter. We thank you for your assistance.

Very truly yours,

Gen O O Howard,

Dear Sir:

In making repairs at the Ferry, "Pace", a few days since, the wire cable by which the flat is operated, became entangled on an obstruction in the river, which proved ^{to} be an anchor, presumably used in 1864, in the construction of a pontoon bridge, as it is not in the memory of any person in this vicinity, that such an article was ever seen in this part of the country since that time. The surmise is without doubt correct. There is only one person, an old negro, who has any recollection, of a pontoon being built at this ferry, and his is very indistinct. He thinks that the bridge was

built by Gen Wheeler, Confederate.

I am somewhat interested in War matters, but cannot find any evidence, that Wheeler crossed the river here, the old Negro mentioned, says that it was some time in July, 1864.

I find that Wheeler crossed the river at Russell, about the 6 or 7 of July, and burned the bridge at that place, leaving that vicinity, on the 8 or 9 of July, that your command was here, and that on the 14 a bridge was built.

If the Confederates, built no bridge at Paces Ferry, I am correct in believing that the anchor found, was used by the U. S. Army, and is a Union relic, as I am in doubt, I take the liberty to write you, thinking you may give me some light on the matter mentioned, I am an ex Union soldier, having served in the 1st W. B. Brigade, ex Gen Woodburn, of Burlington, is a relative of mine, and I am sure he would vouch for me.

Dear Harry:-

Your letter just received. I will accept the charge from San Francisco. I have already arranged to give the Independent to-morrow morning, 2000 words on the subject of "Chinese", to come out next week Thursday, and shall arrange to have a copy of that paper in the hands of every Congressman. I will make a Chinese speech at Cortland next Sunday, and I also will communicate with Mr. Wolf and arrange to do with my pen all that is possible. To-morrow I shall see Mr. Evarts, who is head of that transportation company, whose vessels are to be disabled by unfriendly legislation. I will try also to see Mr. Topping, to see what I can do through him.

If you can get up an independent article for me, please do so, having Bessie and mama read to you, and dictate it to Miss Collins. I simply want as much variety as possible, and would like to put out some things independent of myself. I think I can get a great many religious journals to copy the article at once, and we will push it in as many weeklies as we can. If legislation is delayed, I can fully comply with the desires of Geegam. Please answer him accordingly.

Please put down on my engagement book, May 7th American Tract Society anniversary at the usual place in New York. If I can attend it I shall, and possibly May 11th will answer for Warren, Pa. I will write you about it from Cumberland Gap.

Dear Gen. Howard:-

Yours of 31st is at hand. I have not begun the revision of your manuscript because I have been waiting for you to send me all the matter you intend to incorporate in the book. I thought this was the understanding when you were last here. If I revise it in its present incomplete state and send it to you for additions, etc., we shall probably have to go all over our work again when it comes back. Now, if you will kindly send me the additional matter you think advisable for the book, I will then take the completed manuscript up and revise it, re-arrange the chapters, etc., just as soon as I can do it.

I agree with you perfectly that it will be best not to add very much more to the book. My idea now is that it will have to be sold at a pretty low price, and with this object in view I do not think it best to increase its size any more than may be necessary.

You need be in no hurry in sending the additional matter. Take your own time for that. It will not take us long to revise the book and get it into shape after all of the material is at hand.

Believe me to remain,

Very sincerely yours,

for which I sincerely thank you for the kindness which
you have shown in my behalf. This I think will be ample
