Dear Mr. Howard,

I wrote to you a couple of months ago, asking you to let me know when and where I could see you in reference to a matter of a man whom God has used you to help. And now, up to this instant received your reply. It is probable my letter went astray, but it would be very pleased to hear from you.

Faithfully,

Dear General Howard,-

Please see the enclosed letter from Dr. Guerrant. I have just written him that you would probably communicate with him direct.

It is not likely, my dear General, that I shall be able to accompany you. We are in the midst of preparations for what we hope will be the busiest season of our experience, and I dare not leave the City until all the arrangements have been completed. But I am sure that you will be abundantly able to handle the subject in a masterful manner, and I feel satisfied that when you get through we will have some of the best contributions to the columns of The Christian Herald that we have ever published.

Very cordially yours,

Its Field—86,000 square miles of mountains, from Pennsylvania to Alabama; 2,600,000 inhabitants, nearly all white, and descendants of Scotch-Irish and Anglo-Saxon ancestors. About a million without the Gospel or the means of getting it.

Its Origin—In December, 1897, a company of Christian men and women, feeling their personal responsibility to God, and their duty to these people, formed this Society to send them the Gospel.

Its Character—Like the Bible Society and the Sabbath School Union, it is evangelical and undenominational. It gives its support to consecrated men and women who go to teach a pure Gospel for the glory of God and the love of souls. It numbers among its members and workers ministers and members of the various evangelical churches.

Its Support—It is supported entirely by voluntary contributions of God's children in every branch of the Church, and nearly every State in the Republic. It is auxiliary to all denominational work, and seeks only the further extension of Christ's Kingdom.

Its Methods—Only the most consecrated and efficient evangelists are employed in its work, and these are paid only a living salary monthly. None has ever received over $30.00 per month, and some work faithfully on half that amount. No officer of the Society receives a cent of salary.

Its Progress—It began with one evangelist; in four years it has increased to fifty-five. These are sent to the most destitute mountain regions of Kentucky, Tennessee, North Carolina and Virginia. Thousands of people have heard the Gospel who never heard it before; thousands of Bibles and tracts have been distributed; hundreds of children taught in the Sabbath Schools; and hundreds of souls led to Christ.

Its Reason—"Go ye into all the world and preach the Gospel to every creature".

Dear Henry,

Yesterday I did not go to Plymouth, but only went to Whitman. I took my 1st train by five minutes to my call upon the Harvard family, and shortly after that I went to Mrs. Dear's and had a long conversation with her. I was entertained by a member of the legislature from Jamaica, a man strong and young man of your age.

Dear Brother:

Mrs. Wilson has been in and shows me a letter from the Pension office, saying that the Secretary of Interior has affirmed the decision of the Bureau. I suppose that this means that an appeal is refused. Some mention is made of the document having been sent to you. This means that Secretary of Interior simply read over the report of the Bureau without having anything new from us and concluded to refuse the appeal. I await with interest the document that has gone to you, as it is signed, I suppose, by the new Commissioner Ware.

I think the thing now for you to do, at your convenience, would be to go in person to Ware, taking with you the new affidavits, some six or eight in all. Two are from two reputable physicians who had not before testified and who had personal charge of the Captain. One of them is a member of the Loyal Legion; the other, a grand army man who saw service in Arkansas, the very department where Captain was so ill. Commissioner Ware certainly will not refuse to consider these two affidavits from veteran surgeons, which have never been to the Pension office before.

Some of the other affidavits are much stronger, especially that of Dr. Beebee who gives his reasons and quotes from medical authority for believing that typhoid fever would naturally and often does affect the hearing and is a great strain upon the nervous system.

If you say so, I will send all the affidavits now to you so that you can take them whenever you are going through Washington or if you think best to go on on purpose. I would suggest that you make an appointment before hand with Commissioner Ware so as not to fail to see him. I think in the pressure of his political campaign, Senator Mason
probably did not see Mr. Ware.

Affectionately,

C. H. Wood

My dear [Missing Name],

I am writing to express my gratitude for the kind and thoughtful gift you sent me. The book you sent is a true treasure, and I look forward to reading it with great interest.

I have been informed by the publishers that the book will be reprinted in a new edition next year. They tell me that it will be the 10th edition, and that it will contain 400 pages. I am sure that it will be a valuable addition to my library.

Thank you again for your kindness.

Dear Mr. Wolf:-

My son Harry sent me the enclosed account as taken from my book and I think it must be correct, but if it is not will you kindly notify me of any error or incompleteness.

Received on and before Dec. 17, (first visit) $200

" Jan. 24, 300

" Feb. 27, (was sent to balance account) 100

Total received, $600

Expended up to Jan. 24, travelling and board expenses included, $264.28

" up to Feb. 1, 209.20

" up to April (date not clear) 106.52

Total expenditure, $600.00

Your first advance to me was $50 and I think you handed me the $150 later in money. These two items make the $200. I put the whole of the money received into pamphlets, articles such as that in the Independent, and into board and travelling expenses and did the best I could, making some forty addresses for the Chinamen, and am very sorry that I succeeded so poorly in securing justice.

Give my kindest regards to His Excellency, and believe me,

Very sincerely your friend,

O. Emmett

It seems to some of us here, that in the present state of affairs in the Corporation, the real friends of the University should have it in their power at all times to control the action of the Board of Trustees. I therefore send you the accompanying blank proxy with the request that, if you approve, you will sign the same and return it to me, either with name of the proxy left blank or filled in, as you deem best; to be used by him in your absence, with the distinct understanding at all times your views, when known, will be carried out by your proxy as directed by you.

Dear Mr. Thrall,

I am enclosing a check for $500 to assist in the expansion of the school. I hope this is enough to help with the necessary improvements.

I understand you are interested in adding a new building. I wish I could put up a $1000 dollar building, but I believe the $500 is more appropriate for this purpose.

Thank you for your interest.
