N old story of the
West is the tale
of how a man
who picked up
strangers was
eventually punished for his behavior.

The story begins in the old West, where
men like friedrich were common.

Friedrich was a man with a bad reputation,
who would pick up strangers and
exploit them for his own gain.

One day, he encountered a woman
who was lost in the wilderness.

Friedrich saw an opportunity to
exploit her and offered her a ride.

In exchange, he demanded a large sum of money,
which she agreed to pay.

However, when they arrived at their destination,
Friedrich refused to give her the money
and instead demanded more.

The woman was angry and demanded
her money back, but Friedrich refused
and continued to exploit her.

The woman was eventually able to
escape and sought help from
the authorities.

Friedrich was arrested and
sentenced to work as a laborer
for the government.

of trusting strangers,
and the importance of
being cautious when

was able to reclaim her money
and Friedrictch was punished
