The correspondence journey reports that he has been very successful since the last report in
being indicated by the letter of the office. It has been in accordance with previous correspon-
ding with, or desiring to correspond with the Commissioner, both, South and abroad, and
the many cheering assurance, of
the onward progress of the cause.

The correspondence with the North, so far as it has, expanded, indicates, in the
part of all classes, a in behalf both North, an increased feeling the hold of education.

Notwithstanding the resistance made to the
 Freedman's Bureau, a Freedman's Agency, both
of these agencies are convincing the people, that in a free Community, education is
an absolute necessity, and that, come from
whatecon source it may, the means of
Freedmen's instruction must be provided.

all having of the earth, not beyond the
reach of men, admit that the name of that
report is erroneous and that it only
ambition of America.

A lady in Halifax, North Carolina,
July 6, 1862. Fannie, a teacher sent out by
the New England Institute of Town Creek,
trumpet, hearing the incident presented
the morning asleep, black at white, is
truly despicable. The beseech an
improvement of those things: the first

Persian, the second is like unto the Egyptian
and the third is receiving letters, and the

Correspondence with parties in other
Action of the Country, and with in Canada, between the sand farming agriculture as it is known and practised near the foothill waters. The physical wants of the freemen having been insensibly reduced the next effort of the friends is to maintain their moral and Christian permanent condition. The treaty of 1862 is interesting for it is the last in an attempted half, and the treaty of 1846 is the last in a series among their neighbors. From religion to religion the country from bottom, and its utterance before to find an echo from the most distant hearers.

At a meeting held in San Francisco, to organize a California Branch of the American Freedman and cotton Commission by the J. F. Low, forever of California, said:

"The rights and claims of the African Americans, the American Freedman and cotton Commissioner, as I understand them, points while it is the sympathy of the whole, of patriotic labor of the State. Its duty and education, freedom and Chris-
which a republican fence of freedom ex
security rest, and owns society a deficiency
which arises from want of a more certain
order, as barely enough to influence the policy
whether white or black, will leave men
with perfect and composition.

In his J.D. Benjamin, former Governor of California, said, on the same occasion:

"I believe it to be the duty of every man
of color to join the white and pursue the same
effort which he, for it day of the advancement
ment of the moral and intellectual race
and the freedom!"

W. T. Sulzer, of Boston, said in a letter
by the Secretary, said:

"I fully believe the sentiment that the
American freedom and union is in
infinite, national and catholic
in the highest and most perfect
and the confidence of every man of the
people, or in the name of the only party and
in a union. In this view, Governor Black said
speak that the freedom should be the same
and, without regard to slavery, in the

Not by may name not only men, but the mind about ignorance and Achilles.

Mr. Newton (of the same meeting said:

"The character of the African may for want of education has been partly misrepresented. They are not inhuman and brutal. They are only as they have been charged. So exactly as they have been charged, but exactly in accordance with the freedom above known.

The poor unlettered white and black are also included in the people of our country, based in subjects of life for licit.

In Mr. T. F. McKenny, attorney General of California, said:

"What it is in a privilege to be accustomed to any such scene, the Recompense with from a work of that of this America.

Freedom and human Consciaisons. What Consciaisons it, and it is his the amount of the lackey for the Character and Character of the Freedom."

Living in Britain and the Republic of sympatheaty and others were come to me from England. On Calm Wee never image..."
on a letter which is an assurance of and
will and a letter of intelligence containing
on the part of one friend in that Country
is extremely gratifying. It is from Mr.
Wilber Smith, late of Leeds, a veteran as
so as his late, who was, while
the war was in progress and now that it
has been ordered one of the foremost
in the work of reconstruction. The parts
in the Interior of our society (Amendments) it is
my great joy to report that a bill on the
money drawn on the National Bank of
the country's renewal for the sum of one
thousand pounds (£1,000) has been received
from the London Office from a letter of trade
which appeared in the "Journal of Peace," a
London Monthly. A gentleman who read it
called upon me and asked if
we would make it up quickly to £500.
I inquired, he refused to double his offer and
said we want to work in good earnest. I
said we would send him copy of the
original letter. I then paid it for the use of the firm.
mission of which there was a Committee, in doing so I am respectfully
the doing of the $250. I beg these steps in
of the paraphrase of my letter which I
have marked; and we would suggest that
so far as practicable a plan is needed to
organized with each allotment of Curricula.

The "4th paraphrase" referred to by the author
read thus: "We find that instruction
and physical aid, is made at the effective more
a hand in hand. Instruction adds one time
not for every 88000 to be made of material 1000
any. That is to say: five hundred dollars and
a school will be functioning in ministering to
want and promoting physical comfort
for a thousand dollars worth of ability
without a sol.

In conclusion, the Ev. pray would
beg - as the result of this arrangement, the
sacred - in part of the immediate li
written that - at the most important con-
junction - it renders when it work on a
basis which is inadequate, and the
appointed policy of which is vindicated by ever
