TO FIND LENGTH OF DAY OR NIGHT.

At any time of the year add 12 hours to the time of the sun's setting, and from the sum subtract the time of rising for the length of the day. Subtract the time of setting from 12 hours, and to the remainder add the time of rising next morning for the length of the night. These rules are equally true for apparent time.

BUSINESS LAW IN DAILY USE.

The following compilation of business law contains the essence of a large amount of legal verbiage:

If a note is lost or stolen, it does not release the maker; he must pay it, if the consideration for which it was given and the amount can be proven.

Notes bear interest only when so stated.

Principals are responsible for the acts of their agents.

Each individual in a partnership is responsible for the whole amount of the debts of the firm, except in cases of special partnership.

Ignorance of the law excuses no one.

The law compels no one to do impossibilities.

An agreement without consideration is void.

A note made on Sunday is void.

Contracts made on Sunday cannot be enforced.

A note by a minor is void.

A contract made with a minor is void.

A contract made with a lunatic is void.

A note obtained by fraud, or from a person in a state of intoxication, cannot be collected.

It is a fraud to conceal a fraud.

Signatures made with a lead pencil are good in law.

A receipt for money is not always conclusive.

The acts of one partner bind all the rest.

"Value received" is usually written in a note, and should be, but is not necessary. If not written it is presumed by the law, or may be supplied by proof.

The maker of an "accommodation" bill or note (one for which he has received no consideration, having lent his name or credit for the accommodation of the holder) is not bound to the person accommodated, but is bound to all other parties, precisely as if there was a good consideration.

No consideration is sufficient in law if it be illegal in its nature.

Checks or drafts must be presented for payment without unreasonable delay.

Checks or drafts should be presented during business hours, but in this country, except in the case of banks, the time extends through the day and evening.

If the drawee of a check or draft has changed his residence, the holder must use due or reasonable diligence to find him.

If one who holds a check as payee or otherwise, transfers it to another, he has a right to insist that the check be presented that day, or, at farthest, on the day following.

A note indorsed in blank (the name of the indorser only written) it is transferable by delivery, the same as if made payable to bearer.

If the time of payment of a note is not inserted, it is held payable on demand.

SHORT METHOD

FOR CALCULATING INTEREST.

 JOHN BEALE.

John Beale, formerly well known in New-York mercantile circles, died on Friday night at his home, No. 12 West Eighteenth-st. He was eighty-six years old, and his death was caused by a general failure of the vital forces rather than by any specific disease. He was born at Farmington, Me., but came to New-York when about twenty years old, soon afterward engaging in the grocery business. He was for many years a member of the firm of Johnson Brothers, wholesale grocers, at No. 1 South-st., and afterward the head of the commission firm of Beale, Melick & De Witt. The career of the latter firm was brought to a close by the panic of 1857, but Mr. Beale was soon engaged in the wholesale grocery business again, being associated with Alexander Earle, under the name of Earle & Co. This firm did a large business during the war at Nos. 95 and 97 Front-st., but was dissolved about fifteen years ago, when Mr. Beale retired. Since then he has not been engaged in any business.

He leaves two sons, one, F. A. Beale, of Eatontown, N. J.; the other, John E. Beale, formerly a member of the firm of B. H. Howell, Son & Co., No. 109 Wall-st. The latter is now in California travelling for his health. No date has yet been set for Mr. Beale's funeral, but he will be buried beside his wife in Greenwood Cemetery.
